Rural Economy Of Guangdong 1870 1937:

The Rural Economy of Guangdong, 1870-1937 A. Lin, 1997-10-08 This study traces the origins of the agrarian crisis in southernmost China in the 1920s and 1930s It shows the deep rooted and multifaceted nature of the agrarian crisis and highlights the importance of technological and institutional remedies to China's rural problems The author also calls for greater appreciation of the worth of alternative perspectives as this is vital to the understanding of a complex historical reality rife with contradictions

The Rural Economy of Guangdong Alfred H. Y. Lin, 1997 *The Rural Economy of Guangdong* Lin Alfred H. Y, 1997 **Rural Economy of Guangdong, 1870-1937** Alfred H Y. Lin, 1997 **China in War and Revolution, 1895-1949** Peter Zarrow, 2006-06-07

Providing historical insights essential to the understanding of contemporary China this text presents a nation's story of trauma and growth during the early twentieth century It explains how China's defeat by Japan in 1895 prompted an explosion of radical reform proposals and the beginning of elite Chinese disillusionment with the Qing government The book explores how this event also prompted five decades of efforts to strengthen the state and the nation democratize the political system and build a fairer and more unified society Peter Zarrow weaves narrative together with thematic chapters that pause to address in depth themes central to China's transformation While the book proceeds chronologically the chapters in each part examine particular aspects of these decades in a more focused way borrowing from methodologies of the social sciences cultural studies and empirical historicism Essential reading for both students and instructors alike it draws a picture of the personalities ideas and processes by which a modern state was created out of the violence and trauma of these decades

Guangdong and Chinese Diaspora Yow Cheun Hoe, 2013-06-26 China's rapid economic growth has drawn attention to the Chinese diasporic communities and the multiple networks that link Chinese individuals and organizations throughout the world Ethnic Chinese have done very well economically and the role of the Chinese Diaspora in China's economic success has created a myth that their relations with China is natural and primordial and that regardless of their base outside China and generation of migration the Chinese Diaspora are inclined to participate enthusiastically in China's social and economic agendas This book seeks to dispel such a myth By focusing on Guangdong the largest ancestral and native homeland it argues that not all Chinese diasporic communities are the same in terms of mentality and orientation and that their connections to the ancestral homeland vary from one community to another Taking the two Cantonese speaking localities of Panyu and Xinyi Yow Cheun Hoe examines the hierarchy of power and politics of these two localities in terms of their diasporic kinsfolk in Singapore and Malaysia in comparison with their counterparts in North America and Hong Kong The book reveals that particularly in China's reform era since 1978 the arguably primordial sentiment and kinship are less than crucial in determining the content and magnitude of linkages between China and the overseas Chinese Rather it suggests that since 1978 business calculation and economic rationale are some of the key motivating factors in determining the destination and degree of diasporic engagement

Examining various forms of Chinese diasporic engagement with China this book will appeal to students and scholars of Chinese Diaspora Chinese culture and society Southeast Asian culture and society and ethnicity

Chinese Discourses on the Peasant, 1900-1949 Xiaorong Han, 2012-02-01 Xiaorong Han explores how Chinese intellectuals envisioned the peasantry and its role in changing society during the first half of the twentieth century Politically motivated intellectuals both Communist and non Communist believed that rural peasants and their villages would be at the heart of change during this long period of national crisis Nevertheless intellectuals saw themselves as the true shapers of change who would transform and use the peasantry Han uses intellectuals writings to provide a comprehensive look at their views of the peasantry He shows how intellectuals with varying politics created images of the peasant a supposed contemporary image and an ideal image of the peasant transformed for political ends how intellectuals theorized on the nature of Chinese rural life and how intellectuals conceived their own relationships with peasants

The Industrialization of Rural China Chris Bramall, 2007 The Industrialization of Rural China highlights the economic social achievements of the Maoist regime Using a constructed dataset covering China's 2000 plus counties complemented by a detailed econometric study of county level industrialization in the provinces of Sichuan Guangdong Jiangsu the author shows that history mattered

The Missionary's Curse and Other Tales from a Chinese Catholic Village Henrietta Harrison, 2013-06-01 The Missionary's Curse tells the story of a Chinese village that has been Catholic since the seventeenth century drawing direct connections between its history the globalizing church and the nation Harrison recounts the popular folk tales of merchants and peasants who once adopted Catholic rituals and teachings for their own purposes only to find themselves in conflict with the orthodoxy of Franciscan missionaries arriving from Italy The village's long religious history combined with the similarities between Chinese folk religion and Italian Catholicism forces us to rethink the extreme violence committed in the area during the Boxer Uprising The author also follows nineteenth century Chinese priests who campaigned against missionary control up through the founding of the official church by the Communist Party in the 1950s Harrison's in depth study provides a rare insight into villager experiences during the Socialist Education Movement and Cultural Revolution as well as the growth of Christianity in China in recent years She makes the compelling argument that Catholic practice in the village rather than adopting Chinese forms in a gradual process of acculturation has in fact become increasingly similar to those of Catholics in other parts of the world

Transforming China W. Zhang, 1999-12-07 Provides an insider's examination of China's economic reform and its political implications The book sheds new light on the Chinese approach to reform including its dual goal dynamic gradualism and reform leadership It assesses the vast social and political changes set forth by the reform and the international ramifications of China's rise
