Circulation in Population Movement (Routledge Revivals) Murray Chapman, R. Mansell Prothero, 2013-09-05 First published in 1985 this collection of essays deals with processes of population movement and how they have operated over time It is also about people Melanesian s who number some five million and inhabit the region stretching from the Indonesian province of Irian Jaya to the Independent State of Fiji Standard work on Movement in third world societies has emphasized migration involving a shift in residence from one domicile to another at the expense of the interchange of people between diverse places and different circumstances Many moves as from villages and towns are circulatory they begin at go away from but ultimately end in the same dwelling place and community This book focuses on the full range of territorial mobility especially circulation and its meanings for the people involved This volume brings together indigenous scholars foreign field researchers and international authorities from many of the social sciences anthropology demography economics geography and sociology It presents a set of multicultural statements about the

mobility of particular peoples within a region of the third world This collection about specifically Melanesian issues aims to stimulate broader visions among population scholars and it underlines the pressing need for more theoretical and empirical work on a volatile yet neglected category of population movement Fiji Michael C. Howard,2011-11-01 In 1987 first in May and again in September Fiji which had often been regarded as a model for racial co existence surprised the rest of the world by staging not one but two coups Most interpreters of the Fijian political scene saw the events as a result of tension between native Fijians and members of other ethnic groups Michael Howard argues in this book that this interpretation is simplistic Instead he points out the May coup was a strike against democratic government by elements associated with Fiji s traditional oligarchy seeking to hide behind a mask of populist communalism Howard traces the evolution of Fijian politics from the precolonial chiefdoms through the colonial era and into the postcolonial period emphasizing the developments during the latter half of the 1980s As a close and involved observer he draws a convincing picture of the leading actors in contemporary Fijian politics and the motives guiding their actions He describes how the ruling elite the Fijian chiefly families and their allies has maintained its power by manipulating communal or racially based sentiments and how the opposition has attempted to change the situation by creating political alignments based on social class In the central part of the book Howard chronicles the rise of the Fiji Labour Party and its 1987 election victory over the ruling Alliance Party He then discusses the short lived regime of the Bavadra government and the events leading up to the May 1987 coup Finally he looks at events following the coup as the oligarchy has sought to reimpose control in the face of popular opposition and internal division discussing their implications for the social condition of Fiji its international politics and its internal ethnic relations The book concludes with the death of Timoci Bavadra in late 1989 A perceptive case study of racial politics in the modern world and a significant new approach to the understanding of the dynamics of a non western political system Fiji Race and Politics in an Island State provides a timely and comprehensive analysis of recent events in this important island state

Institutions, Economic Performance and Sustainable Development Biman C. Prasad,Clement Allan Tisdell,2006 Fiji has distinct institutional features that make it an ideal case for examining and discussing the consequences of institutional arrangements particularly the nature of property rights for national economic performance development prospects and the state of the environment which in turn reflects a nation s ability to achieve sustainable development Furthermore the nature of institutional arrangements in Fiji can be used to illustrate aspects of both the new and the old institutional economics Apart from the fact that Fiji provides considerable scope for the exploration of institutional economics and its applications Fiji is a comparatively important island nation in the south west Pacific that is an important member of the Pacific Island Forum grouping of 14 island nations The recent development of Fiji has been much influenced by its social history particularly by its institutional structures established or codified during British colonial rule Its present racial composition is largely a product of British colonisation of Indians brought to Fiji by the British to produce sugar cane as a contribution to

the economic development of the former British Empire In many respects the type of global imperialism that was well established during the nineteenth century was a forerunner to modern economic globalisation which involves a mixture of free trading blocs and multilateralism The current population mixture of Fiji consisting of about equal numbers of Indian Fijians and Indigenous Fijians has its roots in Fiji s colonial history Furthermore the codified systems of property rights which largely excludes Indian Fijians from the ownership of land was established by the British It has been a major source of ethnic tension and of social and political conflict in Fiji We show that this system of property rights has had important negative consequences for economic growth in Fiji for the economic performance of its industries and for the conservation of its natural resources natural resources which may not be equitable and which also does not appear to be efficient administratively This adds to social and political tension in Fiji

The Developing World E. S. Simpson, 2014-09-19
Addresses the issues faced by developing nations in attempting to secure sustainable economic development **Fiji**, 1997

Islands, Islanders and the World Tim Bayliss-Smith, Richard Bedford, Harold Brookfield, 2006-11-02 Fiji is a country whose recent political instability can be directly traced to its distinctive colonial and post colonial experience For one particular region of Fiji the authors examine the environmental social and economic aspects of this experience at scales ranging from national and regional to island village and household Discussions in Third World geography regional economics and development planning have been full of rhetoric about underdevelopment centre periphery relations and dependency but seldom are the actual processes which give rise to these phenomena examined in detail In this book the authors explore in depth the interrelations between the island landscape the cultural geography of the islanders and the intrusive values and opportunities of the market economy Some important lessons are to be learnt from the gap between what might be predicted from abstract theories of development and what is actually happening in the real world of politicians planners farmers and fishermen

Developing School Leaders in the Pacific Narsamma Lingam, Govinda Ishwar Lingam, 2023-08-31 This book provides detailed insights on the training and development for Pacific Island school leaders It draws extensively on original empirical research that explores school leaders perceptions of how leadership and management training impacted their professional practices and how these practices in turn impacted the dynamics of school operations This book addresses a critical need to understand how to support leadership development for all Pacific schools but especially in schools that are faced with the increasing challenges of learning and teaching conditions In small island developing states in the Pacific region school leaders face a myriad of challenges due to limited human and material resources and a fragile economic base Written by Pacific Islander authors this book provides insights from different countries in the Pacific Islands It shows how contextual challenges can exert enormous pressure on school leaders who are leading and managing schools without any leadership preparation Given the importance of effective leadership practices and its impact on student learning outcomes this book aims to be a source of reference for practitioners and educational authorities who have a vested interest in the

provision of quality education in the Pacific region and beyond
