Rural Canada:

Building Inclusive Communities in Rural Canada Clark Banack, Dionne Pohler, 2023-02-22 This collection challenges misconceptions that rural Canada is a bastion of intolerance. While examining the extent and nature of contemporary cultural and religious discrimination in rural Canadian communities, the editors and contributors explore the many efforts by rural citizens, community groups, and municipalities to counter intolerance, build inclusive communities, and become better neighbours. Throughout, scholars and community leaders focus on building new understandings, language, and ways of thinking about diversity and inclusion that will resonate with rural people. Scholars of rural studies will find this book useful, as will rural community leaders and community organizers. Contributors: Clark Banack, Ray Bollman, Claudine Bonner, Corina Borri, Anadon Jen, Budney Michael, Corbett Roger, Epp Murray, Fulton Stacey, Haugen Phil, Henderson Sivane, Hirsch Michelle, Lam Coleen, Lynch Aasa, Marshall Darcy, Overland Trista, Pewapiscionias Dionne, Pohler Samuel, Reimer Jennifer, Tinkham Kyle, White. *Annual Report 2004 Canada Forward and Acknowledgements*, The Rural Nurse Deana Molinari, Angeline Bushy, 2011-11-18 Transitioning to rural practice can be daunting for both experienced nurses and new graduates who have an urban orientation and are accustomed to specialized practice with abundant health care resources. Since most nursing education programs and practicing nurses are located in urban settings, programs are needed to prepare nurses who choose rural practice. In their book, Dr. Molinari and Dr. Bushy provide excellent examples of practice models from North America, New Zealand, and Australia with curricula that address transition issues. The text makes a significant contribution to the discussion about how to best prepare nurses for rural practice and will be of interest to administrators, educators, and clinicians. From the Foreword by Charlene A. Winters, PhD, APRN, ACNS, BC, Associate Professor, Montana State University College of Nursing. This is the only volume to address the pressing need for practical information about transitioning from an urban-based nursing education or practice to a rural health care environment. It provides successful strategies that nurses in rural settings can use to develop, implement, and evaluate innovative programs that will meet the needs of individual rural communities. The book details current rural nursing transition to practice, trends, and issues, national standards, and evidence-based model programs worldwide. Rural practice culture is described along with professional education issues, competency, patient care, and safety. Chapters are presented in easy-to-access formats that offer ready solutions for problems commonly encountered in rural practice, such as nurse recruitment and retention. In addition to health care delivery issues for specific rural populations, the book presents program descriptions from local to state levels, including locally developed education programs, urban hospital systems outreach to rural facilities, universities collaborating with rural businesses, city-based workshops, statewide competencies tracked by employers, and a distance education program customized by rural agencies. Case studies demonstrate how rural facilities, even the smallest and most isolated, are advancing health care through nurse support. The text will be of value to rural nursing staff, developers, critical access hospitals, and community clinics.

Canada Donald J. Savoie, 2023-05-15 Canada's political structure runs contrary to North America's economic geography and the north-south economic pull Canada imported political and administrative institutions designed for a unitary state and its political leaders have struggled to make them work since the country was founded Because of this many Canadians their communities and their regions view themselves as victims to a greater degree than groups in other Western democracies do Our federal government has shown a greater willingness to apologize for historical wrongs than other Western countries Canada also outperforms other nations in helping victims make the transition to full participants in the country's political and economic life Donald Savoie maintains that Canada continues to thrive despite the many shortcomings in its national political institutions and the tendency of Canadians to see themselves as victims and that our history and these shortcomings have taught us the art of compromise Canada's constitution and its political institutions amplify rather than attenuate victimization however they have also enabled Canadians to manage the issue better than other countries Canadians also recognize that the alternative to Canada is worse and this more than anything else continues to strengthen national unity Drawing on his extensive experience in academe and as an advisor to governments Savoie provides new insights into how Canada works for Canadians **Community Health Nursing in Canada - E-Book** Sandra A.
