Rural Reform And Peasant Income In China:

Rural Reform and Peasant Income in China Z. Ling, 1991-04-16 This book analyses the impact of the current economic reform on the income development of peasant households in the People's Republic of China. The research is based on detailed information derived from book-keeping records of the sample households of selected regions in central China, the national statistical network, local statistics and chronicles. Moreover, the basic tools of economic analysis are applied to the main problems of the Chinese rural economy in order to gain a better understanding of the current development of China.

Rural Reform and Peasant Income in China Ling Zhu, Zhu Ling, 1991 *Rural Reform and Peasant Income in China* Ling Zhu, Zhu Ling, 1991 *Marriage, Gender and Sex in a Contemporary Chinese Village* Sun-Pong Yuen, Pui-Lam Law, Yuk-Ying Ho, Fong-Ying Yu, 2015-07-17 This book explores changing concepts of marriage and gender relationships and attitudes toward sex in a rural Chinese community over the past five decades. The book is based on a study of an industrialized peasant village in Guangdong Province from 1994 to 1996 and subsequent visits from 2000 to 2002. According to the authors, the rural economic reforms of the 1980s in southern China have challenged and reinforced the deep structure of Chinese familism, and this has led to tensions between tradition and modernity. The first section of the book explores how attitudes toward marriage and courtship have changed over the past fifty years through personal accounts of three different marriages from different generations. In Part II, the transition from a traditional to a modern society is discussed from the perspective of several women from different generations. The third section focuses on sexual relationships and the growing sex trade in the village. Part IV includes updates to the original survey and takes a look at village politics. *The Chinese State in the Era of Economic Reform* Gordon White, 1991-06-18 An assessment of the impact of the post-Mao market-oriented reforms in China on the Chinese state and its relations with economy and society. It investigates the political and social consequences of an economic strategy which aims to introduce markets into a centrally planned socialist economy.

The Chinese State in the Era of Economic Reform : the Road to Crisis Jay D White, 2016-09-16 Presents ten tales featuring Lord Bau, a wise judge who was a champion of righteousness and protector of the weak against the powerful.

Poverty and Inequality among Chinese Minorities Ajit S. Bhalla, Shufang Qiu, 2024-11-01 The number of poor people in China is huge despite recent economic advances The minorities in China constitute less than ten per cent of the entire population yet they represent forty to fifty per cent of the absolute poor This compelling book investigates the problem of poverty and inequality in and among Chinese ethnic minorities focusing in particular on two important questions Have the minorities shared the fruits of spectacular economic growth in China during the past two decades Is their backwardness due to ethnic and cultural factors or to extremely low incomes The authors examine the different factors explaining poverty the relationship between poverty and ethnicity poverty indicators that permit a comparison between minorities and non minorities or the Han majority economic and demographic characteristics of minorities and their educational occupational and gender profiles They consider whether special measures in favour of minorities introduced by the Chinese government have contributed to an improvement in their standard of living Poverty and Inequality among Chinese Minorities gives original research findings and new thinking on a highly topical issue in Chinese development economics and fills a gap in the existing economic literature **China's Economy** 卞海, 2006 **China's Economy Looks Toward the Year 2000** , 1986

Narratives Of Chinese Economic Reforms: How Does China Cross The River? Xiaobo Zhang, Arjan De Haan, Shenggen Fan, 2010-06-04 Rapid growth in the Chinese economy over the past three decades poses puzzles and challenges to neo classical economic theory as policies implemented during the reform process were often unorthodox Although the Chinese experience has been widely studied myths and questions about these reforms remain To fill in the knowledge gap and to inform a process of learning from China's development successes this book features a series of case studies on the policy process of different initiatives including rural industrialization dual track price reform migration policy village elections and fiscal reform Uniquely many of the authors of the case studies were deeply involved in these reforms either through direct policymaking or through providing analytical and technical support that led to these policy changes They provide a first hand account of how the political processes occurred how social and political entrepreneurs shaped the choices and sequences of various reforms and how the rigidities and sometimes erroneous beliefs were overcome *Proven Successes in Agricultural Development* David J. Spielman, Rajul Pandya-Lorch, 2010-01-01 The world has made enormous progress in the past 50 years toward eliminating hunger and malnutrition While in 1960 roughly 30 percent of the world's population suffered from hunger and malnutrition today less than 20 percent do some five billion people now have enough food to live healthy productive lives Agricultural development has contributed significantly to these gains by increasing food supplies reducing food prices and creating new income and employment opportunities for some of the world's poorest people This book examines where why and how past interventions in agricultural development have succeeded It carefully reviews the policies programs and investments in agricultural development that have reduced hunger and poverty across Africa Asia and Latin America over the past half century The 19 successes included here are described in in depth case studies that synthesize the evidence on the

intervention's impact on agricultural productivity and food security evaluate the rigor with which the evidence was collected and assess the tradeoffs inherent in each success Together these chapters provide evidence of what works in agricultural development *China's Economy Looks Toward the Year 2000: The four modernizations*, 1986 **China in the Post-Deng Era**, 1998 Deng Xiaoping's death marked the end of an era in contemporary Chinese politics The first generation revolutionary leaders have gone and the third generation leaders are genuinely in power At the same time economic reforms since 1978 have now reached a plateau and a new impetus is called for to maintain the momentum of economic growth Reform of the state enterprises is a good example of the situation It is therefore an appropriate time to review developments in China and discuss what needs to be done in the future A team of experts has been gathered to complete this formidable task They come from Australia China Hong Kong and the United States Each author deals with a specific policy area and his/her chapter will cover 1 what has been achieved since 1978 2 an evaluation of the policies and reforms so far with emphasis on what needs to be done in the future 3 what the plans of Chinese leaders on further reforms and future changes are and what the author's evaluation of such plans is and 4 what the vision following Deng's death will be *China: From Revolution to Reform* Sheng Hua, Xiaopeng Luo, Xiejung Zhang, 2016-07-27 For the outside world to understand modern Chinese movements is an extremely difficult if not insurmountable task This book for the first time written by true insiders reflects the approach the Chinese have pursued since the last century and especially why after so many successful or unsuccessful revolutions they finally took up reform as a means to solve their national problem As senior advisers to the Chinese leaders the authors expose the undercurrents pushing the leaders to the brink of economic reform and the obvious achievements of the early reform as well as the latent seeds for the later crisis *China's Governance Model* Hongyi Lai, 2016-06-10 Many studies of government in China either simply describe the political institutions or else focus critically on the weaknesses of the system such as corruption or the absence of Western style democracy Authors of these studies fail to appreciate the surprising ability of China's government to rapidly transform a once impoverished economy and to recover from numerous crises from 1978 to the present This book on the other hand takes a more balanced more positive view This view is based on a study of changes in China's institutions for coping with critical crises in governance since 1978 These changes include better management of leadership succession better crisis management improved social welfare the management of society through treating different social groups differently depending on their potential to rival the Party state and a variety of limited intra party and grassroots democracy This book applies to the Chinese model the term pragmatic authoritarianism It explains changes to and the likely future direction of China's governance model It compares current risks in China's governance with threats that terminated dynasties and the republic in China over the past four thousand years and concludes that the regime can be expected to survive a considerable period despite its existing flaws Few topics in Chinese politics are as significant as the nature state and prospects of the political regime While the topic had been unduly understudied for a

long period of time a young generation of scholars has emerged on this subject Among others the book by Hongyi Lai stands out and provides a comprehensive and penetrating analysis on this topic I am confident that his book will make a significant contribution to the study of Chinese politics and may well define the debate on China's political development governance and model for years to come Yongnian Zheng Director East Asian Institute National University of Singapore

Women of China J. West, M. Zhao, X. Chang, Y. Cheng, 2016-01-23 This wide ranging and interdisciplinary collection brings together scholars from China and the West to examine the many dimensions of debate around gender issues in contemporary China The experiences of women in education employment marriage and the family in rural and urban areas are analysed and assessed

The Third Revolution in the Chinese Countryside Ross Garnaut, Guo Shutian, Ma Guonan, 1996-04-18 The first revolution in the Chinese countryside was the land reform implemented in the liberated areas and extended throughout China after the proclamation of the People's Republic of China in 1949 This was important in the consolidation of the Communist Party's political power The second revolution was the decollectivization of agriculture and the shift to the household responsibility system as a basis for agricultural production The phenomenal increase in Chinese agricultural output from 1978 to 1984 resulted partly from the new system of production and with a resulting explosion of farm incomes The second revolution in the Chinese countryside from the late 1970s set the scene for the third revolution the freeing of markets for farm products and the linking of domestic markets and international markets The third revolution is still in progress and this book explores its beginnings Initially the book covers the issues of poverty in China and feeding the population The second section describes the agricultural markets in China and the price reform of agricultural products The next two parts discuss international and regional issues of China's agricultural economy Finally there are contributions on what institutional changes have been associated with the third agricultural revolution The contributions are from a team of experts on the Chinese economy from inside and outside China led by Professor Garnaut
