Attar Chand

Rusi And Brasseys Defence Yearbook 1987:

Britain and Ballistic Missile Defence, 1942-2002 Jeremy Stocker, 2004-08-02 Defence against ballistic missiles has been a subject of UK political policy and technical investigation since World War II this book analyses that long history

RUSI and Brassey's Defence Yearbook, 1987, 1987 *Soviet-British Relations Since the 1970s* Alex Pravda, Peter J. S. Duncan, Royal Institute of International Affairs, 1990-04-26 This collection brings together empirical and analytical studies of the nature and evolution of Soviet British relations during the 1980s and looks forward to the 1990s The relationship is firmly placed within the wider context of Soviet policy toward the West and NATO The contributors examine mutual perceptions and policy perspectives Soviet interests and objectives in dealing with Britain and the role of economic political diplomatic nongovernmental and security factors in determining policy outcomes A concluding section evaluates the long term significance of current and potential policy developments on both sides Soviet British Relations is the first volume to be produced by the Soviet foreign policy study group at Chatham House and is published in association with The Royal Institute of International Affairs *Routledge Revivals: Defence Industries (1988)* Daniel Todd, 2018-02-01 Originally published in 1989 Defence Industries presents a worldwide survey of defence industries It argues that modern weapon systems and electronic warfare have led to the transition of the military industrial enterprise into a multifaceted entity where electronics production is the key It analyses the extent of defence industries showing that large portions of the aerospace shipbuilding motor vehicle and electronics industries are devoted to defence and discusses where the defence industries are located It examines the differences in government policies contrasting the superpowers with newly industrialised countries *Rusi and Brassey's Defence Yearbook, 1990* RUSI & Brassey's. The Royal United Services Institute for Defence Studies, London(ed.), 1990-01-01 Forandring ndringer Fornylse Sovjetisk Milit r Doktrin Engelsk Forsvarspolitik Fremtidens Forsvarspolitik Forsvar Reservestyrker Vesteuropa Teorier Doktriner Konventional Balance Styrkeforhold NATO s Fremtid Nordirland Terrorisme Law Enforcement Middelhavet NATO s Sydlige Flanke V benindustri V benproduktion JAS 39 Svenske Forsvar Sovjetunionen Taktik Sovjetiske H r Sovjetiske Fl de Gorbachev Rum nien stblokken stlandene Mellem sten Arabiske H re Golfkrigen Persiske Golf Kina s Udenrigspolitik Sydafrika Sovjetisk Diplomati SWAPO International Politik Efterretningstjenester Efterretningsvirksomhed Sikkerhedstjenester Terroristbek mpelse Oversigt over Terroristgrupper Gorbachev s Sovjetunionen Sovjetisk Politik Indre Sikkerhed **The Future of Conventional Defense Improvements in NATO**, 1988 *Energy Abstracts for Policy Analysis*, 1988 **The Politics of British Defence 1979-98** Lawrence Freedman, 1999-08-18 In this collection of essays a number of which have never been published before Lawrence Freedman provides an incisive and well informed analysis of the past two decades of British defence policy from Conservatives to Labour and out of the Cold War He addresses the major issues influencing policy including the demands of European security party politics budgetary pressures and nuclear deterrence The Royal Navy and Maritime Power in the Twentieth Century

Ian Speller, 2004-08-02 This book adopts an innovative new approach to examine the role of maritime power and the utility of navies. It uses a number of case studies based upon key Royal Navy operations in the twentieth century to draw out enduring principles about maritime power and to examine the strengths and limitations of maritime forces as instruments of national policy. Individual chapters focus on campaigns and operations from both World Wars and a series of post 1945 crises and conflicts from the Palestine Patrol in the 1940s to Royal Navy operations in support of British policy in the 1990s. Each case study demonstrates critical features of maritime power including operations during the transition to war fleet operations in narrow seas logistics submarine operations the impact of air power on maritime operations blockade maritime power projection amphibious warfare jurisdictional disputes and the law of the sea and peace support operations. The contributors to this book all have considerable experience lecturing on these issues at the United Kingdom Joint Services Command and Staff College where maritime campaign analysis is used to teach the principles of maritime power to officers of the Royal Navy. The book combines an authoritative examination of critical Royal Navy operations during the twentieth century with a sophisticated analysis of the nature of maritime power. As such it is of both historical interest and contemporary relevance and will prove equally valuable to academic historians military professionals and the general reader. **Modern Chinese**

Defence Strategy Rosita Dellios, 1989-06-18 The author argues that the Chinese believe in the strategy of people's war under modern conditions and are confident that middle range technology and unconventional warfare and the combination of the human and weapon factors represent a successful application of the strategy. *The Middle East*, 1989 NATO and Peace Support Operations, 1991-1999 Henning Frantzen, 2004-12-17 This new book addresses the key question of how NATO and three of its member states are configuring their policies and military doctrines in order to handle the new strategic environment. This environment is increasingly dominated by new wars more precisely civil wars within states and peacekeeping as the strategy devised by outside actors for dealing with them. The book seeks to explain how this new strategic environment has been interpreted and how the new conflicts and peacekeeping have been fitted into defence and war key concepts in the field of security studies. *Subject Guide to Books in Print*, 2001 *The French Defence Debate* R.

Utley, 2000-08-22 The French Defence Debate examines assertions of consensus and continuity in and surrounding France's defence since 1958 with primary reference to the political career of François Mitterrand. Mitterrand's influence over defence and security before and after his election to the presidency is often underestimated. Nonetheless his impact was substantial if ultimately for his lack of concern to preserve consensus and his reluctance to instigate necessary changes in France's defence despite the end of the Cold War and the military deficiencies and limitations of national independence it exposed.

The Tank Debate John Stone, 2018-12-07 In *The Tank Debate* John Stone highlights the equivocal position that armour has traditionally occupied in Anglo American thought and explains why despite frequent predictions to the contrary the tank has remained an important instrument of war. This book provides a timely and provocative study of the tank's developmental

history against the changing background of Anglo American military thought Asia, Southern A. Sue Goodman,1989

The Rise of Tamil Separatism in Sri Lanka Gnanapala Welhengama,Nirmala Pillay,2014-03-05 Among the examples of civil wars armed secessionist movements and minority uprisings in the world today many involve conflict between a minority group s aim for political self determination and the nation state s resistance to any diminution of sovereignty With the expansion of the international regime of human rights minority groups have reconceptualised their struggle with the understanding that a minority which is linguistically religiously or ethnically distinctive is entitled to self determination if their aspirations cannot be met This book explores the relationship between minority rights self determination and secession within international law by contextualising these issues in a detailed case study of the rise of Tamil separatism in Sri Lanka Welhengama and Pillay show how Tamil communalism hardened into secession and assess whether the Sri Lankan government has met its obligations with respect to the right to self determination short of secession Focusing on the legal and human rights arguments for secession by the Tamil community of the North and East of Sri Lanka the book demonstrates how the language of international law and international human rights played a major role in the development of the arguments for secession Through a close examination of the case of the Tamil s secessionist movement the book presents valuable insights into why modern nation states find themselves threatened by separatist claims and bids for independence based on ethnicity *Defence Modernization, Secret Deals, and Strategy of Nations* Attar Chand,1989 **Modern Aspects**

Of The Laws Of Naval Warfare And Maritime Neutrality George P. Politakis,2018-10-24 First Published in 1991 This study covers developments up to the end of December 1996 of the legal parameters of modern naval warfare It also discussed the role of the power of the sea modern strategy Warfare Since the Second World War Torsten Schwinghammer,2018-04-24 Warfare Since the Second World War presents a wealth of analysis and data about one of the most pressing questions of our time why does war continue to plague us fifty years after World War II This book argues that the nature of war has shifted from inter state conflicts toward internal conflicts above all civil war Low intensity conflict helps explain the constant increase in wars over the last fifty years and makes it probable this trend will continue Gantzel and Schwinghammer argue that modern warfare reflects a continuation of the nation state building process begun in nineteenth century Europe In their analysis economic modernization and social integration destroy traditional relations and create instability in the developing world While these forces were successfully harnessed by the modern state in Europe and North America economic and political globalization make a similar resolution considerably more complex In addition to their insightful analysis the authors provide a detailed list of all wars fought from 1945 to 1995 The authors lucid explanatory commentaries are accompanied by lists tables and charts In addition to a detailed war register upon which all statistical data and analyses for the volume are based there are appendices with directories useful for locating specific wars as well as several supplementary lists An afterword brings the reader closer to the world situation as we conclude the twentieth

century including the impact of political developments in Eastern Europe Beyond its historical dimension this book offers a policy relevant empirical demonstration of the ongoing increase in internal civil wars and addresses the inability of modern society to prevent this scourge Warfare Since the Second World War is an indispensable resource for anyone concerned with issues of war and peace development and the future of international relations
