John Ruskin, 2017-08-07 John Ruskin was born on February 8th 1819 at 54 Hunter Street Brunswick Square London Ruskin is now recognised as the pre eminent English art critic of the Victorian era His talents and interests were diverse and complex He was also an art patron draughtsman water colourist a prominent social thinker and philanthropist His writing was across subjects from geology architecture myth ornithology and literature to education botany and political economy As well Ruskin also wrote essays and treatises poetry and lectures travel guides and manuals letters and even a fairy tale Ruskin's earliest writings were initially elaborate but over the course of his long career he gradually moved to a far plainer form which communicated his ideas in a simpler and more effective way All his writings have a common core of emphasising the connections between nature art and society He first came to widespread attention with the first volume of *Modern Painters* published in 1843 an extended essay in defence of the work of the painter J M W Turner in which he argued that the principal role of the artist is truth to nature He would later on the death of Turner be an executor of his will From the 1850s he championed the Pre Raphaelites who were much influenced by his ideas As his style developed so did his social concerns and increasingly he voiced and wrote about his social and political issues Unto This Last 1860 1862 marked the shift in emphasis In 1869 Ruskin became the first Slade Professor of Fine Art at the University of Oxford where he established the Ruskin School of Drawing In 1871 he began his monthly letters to the workmen and labourers of Great Britain published under the title *Fors Clavigera* 1871 1884 During the publication of this complex and deeply personal work he developed the principles underlying his ideal society As a result he founded the Guild of St George an organisation that still endures to this day John Ruskin died on January 20th 1900 at age 80 at Brantwood in Coniston Lancashire Part of his numerous writings concerned his work on Venice in three volumes *The Stones of Venice* He visited Venice in November 1849 with his wife Effie and stayed at the water fronted Hotel Danieli Their six year marriage was never consummated and for Effie Venice provided an opportunity to socialise while for Ruskin it was a venue to engage in more solitary studies In particular he made a point of drawing the Ca d'Oro and the Doge's Palace or Palazzo Ducale fearing they would be destroyed by the occupying Austrian troops Ruskin made extensive sketches and notes for the three volume work which soon developed from a technical history of Venetian architecture from the Romanesque to the Renaissance into a broad cultural history Cleverly Ruskin managed to reflect his own view of contemporary England and to weave in a warning about the moral and spiritual health of society Ruskin argued that Venice had slowly deteriorated Its cultural achievements had been compromised and its society corrupted by the decline of true Christian faith Instead of revering the divine Renaissance artists honoured themselves arrogantly celebrating human sensuousness It is a work of

*Stones of Venice* John Ruskin,2022-02-24 Reprint of the original first published in 1867     The Stones Of Venice John  
 Ruskin,1985-03-21 It is in Venice and in Venice only that effectual blows can be struck at this pestilent art of the Renaissance  
 Destroy its claims to admiration there and it can assert them nowhere else This was Ruskin s war cry as he entered the now  
 almost forgotten Battle of the Styles on the side against the school which has conducted men s inventive and constructional  
 faculties from the Grand Canal to Gower Street But first the reader must know the difference between right and wrong he  
 must find out for himself the best way of doing everything I shall give him stones and bricks and straw chisels and trowels  
 and the ground and then ask him to build only helping him if I find him puzzled Unhappily both these exciting objectives were  
 attained only after the expenditure of nearly half a million words glorious words but too many For fifty years The Stones of  
 Venice was read by all who went there and thousands who could not the sightseers whom the city captivates today seldom  
 have its greatest guidebook with them It is the aim of this new edition to put a fascinating book within reach of travelers  
 active or armchair with limited resources of time Much that was superfluous has been omitted what remains is the essence of  
 a now very readable and portable book It is a book for the lover of architecture the lover of Venice the lover of lost causes  
 and perhaps above all for the lover of fine writing     *The Works of John Ruskin: The stones of Venice, the foundations* John  
 Ruskin,1903 Volume 1 35 works Volume 36 37 letters Volume 38 provides an extensive bibliography of Ruskin s writings and  
 a catalogue of his drawings with corrections to earlier volumes in George Allen s Library Edition of the Works of John Ruskin
