The Secret History of the Mongols Paul Kahn, 1998 This adaptation of what is recognized today as the oldest Mongolian text written two decades after Chingis Khan s death tells the Mongols own version of the origin of their nation the life of C

A History of Russia, Central Asia and Mongolia, Volume II David Christian, 2018-01-08 Provides an all encompassing look at the history of Russia Central Asia and Mongolia Beginning with the breakup of the Mongol Empire in the mid thirteenth century Volume II of this comprehensive work covers the remarkable history of Inner Eurasia from 1260 up to modern times completing the story begun in Volume I Volume II describes how agriculture spread through Inner Eurasia providing the foundations for new agricultural states including the Russian Empire It focuses on the idea of mobilization the distinctive ways in which elite groups mobilized resources from their populations and how those methods were shaped by the region s distinctive ecology which differed greatly from that of Outer Eurasia the southern half of Eurasia and the part of Eurasia most studied by historians This work also examines how fossil fuels created a bonanza of energy that helped shape the history of the Communist world during much of the twentieth century Filled with figures maps and tables to help give readers a fuller understanding of what has transpired over 750 years in this distinctive world region A History of Russia Central Asia and Mongolia Volume II Inner Eurasia from the Mongol Empire to Today 1260 2000 is a magisterial but accessible account of this area s past that will offer readers new insights into the history of an often misunderstood part of the world Situates the histories of Russia Central Asia and Mongolia within the larger narrative of world history Concentrates on the idea of Inner Eurasia as a coherent ecological and geographical zone Focuses on the

powerful ways in which the region's geography shaped its history Places great emphasis on how mobilization played a major part in the development of the regions Offers a distinctive interpretation of modernity that highlights the importance of fossil fuels Offers new ways of understanding the Soviet era A History of Russia Central Asia and Mongolia Volume II is an ideal book for general audiences and for use in undergraduate and graduate courses in world history The Blackwell History of the World Series The goal of this ambitious series is to provide an accessible source of knowledge about the entire human past for every curious person in every part of the world It will comprise some two dozen volumes of which some provide synoptic views of the history of particular regions while others consider the world as a whole during a particular period of time The volumes are narrative in form giving balanced attention to social and cultural history in the broadest sense as well as to institutional development and political change Each provides a systematic account of a very large subject but they are also both imaginative and interpretative The Series is intended to be accessible to the widest possible readership and the accessibility of its volumes is matched by the style of presentation and production

The Mongol Conquests in World History Timothy May, 2013-02-15 The Mongol Empire can be seen as marking the beginning of the modern age and of globalization as well While communications between the extremes of Eurasia existed prior to the Mongols they were infrequent and often through intermediaries As this new book by Timothy May shows the rise of the Mongol Empire changed everything through their conquests the Mongols swept away dozens of empires and kingdoms and replaced them with the largest contiguous empire in history While the Mongols were an extremely destructive force in the premodern world the Mongol Empire had stabilizing effects on the social cultural and economic life of the inhabitants of the vast territory allowing merchants and missionaries to transverse Eurasia The Mongol Conquests in World History examines the many ways in which the conquests were a catalyst for change including changes and advancements in warfare food culture and scientific knowledge Even as Mongol power declined the memory of the Empire fired the collective imagination of the region into far reaching endeavors such as the desire for luxury goods and spices that launched Columbus's voyage and the innovations in art that were manifested in the masterpieces of the Renaissance This fascinating book offers comprehensive coverage of the entire empire rather than a more regional approach and provides an extensive survey of the legacy of the Mongol Empire

Medieval Russia, 980-1584 Janet Martin, 1995-12-07 This book is a concise and comprehensive narrative history of Russia from 980 to 1584 It covers the history of the realm of the Rurikid dynasty from the reign of Vladimir 1 the Saint through to the reign of Ivan the Terrible who sealed the end of his dynasty's rule Presenting developments in social and economic areas as well as in political history foreign relations religion and culture Medieval Russia 980 1584 breaks away from the traditional view of Old Russia as a static immutable culture and emphasises the dynamic and changing qualities of Russian society Janet Martin develops clear lines of argument that lead to conclusions concerning how and why the states and society of the lands of the Rus assumed the forms and characteristics that they did Broadly accessible with informative

and provocative interpretations this book provides an up to date analysis of medieval Russia Historical Dictionary of Medieval Russia Lawrence N. Langer, 2001-12-11 History is full of surprises but rarely has there been a turnaround as unexpected and momentous as what occurred to a formative Russia during the medieval period Attacked and invaded from all sides it hardly looked as if the small Slavic principalities would survive But they did and were eventually absorbed into Kiev Rus and then Muscovy which gradually expanded and laid the foundation for a huge empire The author uncovers this extraordinary period from the founding of the Kievan state to the accession of Peter the Great in 1682 describing both the times of danger and defeat and those of expansion and revitalization Entries cover o Tsars o Princes and khans o Pretenders and rebels o Patriarchs and priests o Russians o Mongols and others *Popular Religion in Russia* Stella Rock, 2007-09-10 This book dispels the widely held view that paganism survived in Russia alongside Orthodox Christianity demonstrating that double belief dvoeverie is in fact an academic myth Scholars citing the medieval origins of the term have often portrayed Russian Christianity as uniquely muddled by paganism with double believing Christians consciously or unconsciously preserving pagan traditions even into the twentieth century This volume shows how the concept of dvoeverie arose with nineteenth century scholars obsessed with the Russian folk and was perpetuated as a propaganda tool in the Soviet period colouring our perception of both popular faith in Russian and medieval Russian culture for over a century It surveys the wide variety of uses of the term from the eleventh to the seventeenth century and contrasts them to its use in modern historiography concluding that our modern interpretation of dvoeverie would not have been recognized by medieval clerics and that double belief is a modern academic construct Furthermore it offers a brief foray into medieval Orthodoxy via the mind of the believer through the language and literature of the period **A History of Russian Literature** Andrew Kahn, Mark Lipovetsky, Irina Reyfman, Stephanie Sandler, 2018-04-13 Russia possesses one of the richest and most admired literatures of Europe reaching back to the eleventh century A History of Russian Literature provides a comprehensive account of Russian writing from its earliest origins in the monastic works of Kiev up to the present day still rife with the creative experiments of post Soviet literary life The volume proceeds chronologically in five parts extending from Kievan Rus in the 11th century to the present day The coverage strikes a balance between extensive overview and in depth thematic focus Parts are organized thematically in chapters which a number of keywords that are important literary concepts that can serve as connecting motifs and case studies in depth discussions of writers institutions and texts that take the reader up close and personal Visual material also underscores the interrelation of the word and image at a number of points particularly significant in the medieval period and twentieth century The History addresses major continuities and discontinuities in the history of Russian literature across all periods and in particular brings out trans historical features that contribute to the notion of a national literature The volume s time range has the merit of identifying from the early modern period a vital set of national stereotypes and popular folklore about boundaries space Holy Russia and the charismatic king

that offers culturally relevant material to later writers This volume delivers a fresh view on a series of key questions about Russia's literary history by providing new mappings of literary history and a narrative that pursues key concepts rather more than individual authorial careers This holistic narrative underscores the ways in which context and text are densely woven in Russian literature and demonstrates that the most exciting way to understand the canon and the development of tradition is through a discussion of the interrelation of major and minor figures historical events and literary politics literary theory and literary innovation

War Crimes, Genocide, and Justice D. Crowe, 2014-01-15 In this sweeping definitive work historian David Crowe offers an unflinching account of the long and troubled history of genocide and war crimes From ancient atrocities to more recent horrors he traces their disturbing consistency but also the heroic efforts made to break seemingly intractable patterns of violence and retribution

Empire in Asia: A New Global History Jack Fairey, Brian P. Farrell, 2018-06-28 Asia was the principle focus of empire builders from Alexander and Akbar to Chinggis Khan and Qianlong and yet until now there has been no attempt to provide a comprehensive history of empire in the region Empire in Asia addresses the need for a thorough survey of the topic This volume traces the evolution of a constellation of competing empires in Asia from the 13th through to the 18th centuries Separate chapters will describe the history and characteristic features of imperial regimes in each major sub region of Asia from the Ottomans and Safavids in the West Romanovs in the North Mughals in the South the Mongols their successors in Inner Asia to the Ming and Qing Dynasties in the East The contributors address common questions in considering the various empires including How did imperial Asian states understand themselves and their place in the world How were these empires constructed and how did they attain such prominence To what extent did imperial repertoires of rule differ The two volumes of Empire in Asia offer a significant contribution to the theory and practice of empire when considered globally and comparatively and are essential reading for all students and scholars of global imperial and Asian history

Orthodox Russia in Crisis Isaiah Gruber, 2012-05-15 A pivotal period in Russian history the Time of Troubles in the early seventeenth century has taken on new resonance in the country's post Soviet search for new national narratives The historical role of the Orthodox Church has emerged as a key theme in contemporary remembrances of this time but what precisely was that role The first comprehensive study of the Church during the Troubles Orthodox Russia in Crisis reconstructs this tumultuous time offering new interpretations of familiar episodes while delving deep into the archives to uncover a much fuller picture of the era Analyzing these sources Isaiah Gruber argues that the business activity of monasteries played a significant role in the origins and course of the Troubles and that frequent changes in power forced Church ideologues to innovate politically for example inventing new justifications for power to be granted to the people and to royal women These new ideas Gruber contends ultimately helped bring about a new age in Russian spiritual life and a crystallization of the national mentality

Eurasian Slavery, Ransom and Abolition in World History, 1200-1860 Christoph Witzenrath, 2016-03-09 Recent research has demonstrated that

early modern slavery was much more widespread than the traditional concentration on plantation slavery in the context of European colonial expansion would suggest. Slavery and slave trading though little researched were common across wide stretches of Eurasia and a slave economy played a vital part in the political and cultural contacts between Russia and its Eurasian neighbours. This volume concentrates on captivity slavery ransom and abolition in the vicinity of the Eurasian steppe from the early modern period to recent developments and explores their legacy and relevance down to the modern times. The contributions centre on the Russian Empire while bringing together scholars from various historical traditions of the leading states in this region including Poland Lithuania and the Ottoman Empire and their various successor states. At the centre of attention are transfers transnational fertilizations and the institutions rituals and representations facilitating enslavement exchanges and ransoming. The essays in this collection define and quantify slavery covering various regions in the steppe and its vicinity and looking at trans cultural issues and the implications of slavery and ransom for social economic and political connections across the steppe. In so doing the volume provides both a broad overview of the subject and a snapshot of the latest research from leading scholars working in this area.

Mongols, Turks, and Others Reuven Amitai, Michal Biran, 2021-12-28. The interaction between the Eurasian pastoral nomads most famously the Mongols and Turks and the surrounding sedentary societies is a major theme in world history. Nomads were not only raiders and conquerors but also transmitted commodities ideas technologies and other cultural items. At the same time their sedentary neighbours affected the nomads in such aspects as religion technology and political culture. The essays in this volume use a broad comparative approach that highlights the multifarious nature of nomadic society and its changing relations with the sedentary world in the vicinity of China Russia and the Middle East from antiquity into the contemporary world.

The Mongols and the Armenians (1220-1335) Bayarsaikhan Dashdondog, 2010-12-07. In the thirteenth century the Armenians of Greater Armenia and of the Armenian Kingdom in Cilicia were invaded by Mongol nomads of the Inner Asian steppe. The ensuing Mongol Armenian relations were varied. The Greater Armenians became subjects of the Mongol Empire whereas the Cilician Armenians by entering into vassalage became allies and furthered the Mongol conquests. In order to enhance our understanding of this turning point in medieval history the effects of long distance military raids missions diplomacy collaboration administrative assistance and confrontation as well as the reasons for invading Greater Armenia and motives for establishing an alliance are considered.

Islam in Russia: The Politics of Identity and Security Shireen Hunter, 2016-09-16. This richly detailed study traces the shared history of Russia and Islam in expanding compass from the Tatar civilization within the Russian heartland to the conquered territories of the Caucasus and Central Asia to the larger geopolitical and security context of contemporary Russia on the civilizational divide. The study's distinctive analytical drive stresses political and geopolitical relationships over time and into the very complicated present. Rich with insight the book is also an incomparable source of factual information about Russia's Muslim populations religious institutions political

organizations and ideological movements **Russia** John M. Thompson, Christopher J. Ward, 2018-04-17 This lucid account of Russian and Soviet history presents major trends and events from ancient Kievan Rus to Vladimir Putin's presidency in the twenty-first century. Russia does not shy away from controversial topics including the impact of the Mongol conquest, the paradoxes of Peter the Great, the inevitability of the 1917 Revolution, the Stalinist terror, and the Gorbachev reform effort. Tackling those topics and others, the new edition is updated to discuss the Russia-Georgia war of 2008, the 2013-2014 Euromaidan protests in Ukraine, the war in eastern Ukraine, and the Russian annexation of Crimea. Distinguished by its brevity and amply supplemented with useful images and suggested readings, this essential text provides balanced coverage of all periods of Russian history and incorporates economic, social, and cultural developments as well as politics and foreign policy.

Soviet Foreign Policy 1917-1991 Jr. Fleron, 2017-07-05 The purpose of this anthology is to deepen Western understanding of the sources and substance of the foreign policy of the Soviet Union. Authoritative analysts here explore significant issues in Soviet foreign relations from the era of the Bolshevik Revolution and the Civil War to the period of reform that preceded the final collapse of the Soviet system. The volume is designed for courses in Soviet political history, diplomatic history, comparative foreign policy, and the mainstream of international relations.

Soviet Foreign Policy Erik P. Hoffmann, Robbin Frederick Laird, Frederic J. Fleron, The Strong State in Russia Andrei P. Tsygankov, 2014-11-18 The Russian state presents a mystery to outside observers. Although Russia was the site of some of the last century's most radical upheavals and although Russian governments are usually characterized by autocracy, corruption, and political decay, the central government has retained a remarkable hold on the vast country. Does its historical progress represent change or continuity? How has the political culture molded the expectations and behavior of the Russian people over time? What features of the Russian state are the keys to understanding it? *The Strong State in Russia* provides a succinct account of Russia's strong state model by reviewing the external and internal contexts in each major period and tracing its evolution over time. Every era saw the emergence and growth of a strong state as well as a subsequent decline, but in each the contexts combined in unique ways to produce very different political outcomes. Tsygankov argues that while the Western perspective on Russia is limited, there is an alternative way of thinking about the nation and its problems. Despite focusing on the contemporary Russian state, the book situates it in a broader historical continuity and explains that the roots of its development can be found in the Tsar's autocratic system. Russia's strong state has evolved and survived throughout centuries, and that alone suggests its historical vitality and possible future revival. From this perspective, the central scholarly question is not whether Russia will recreate a strong state but rather what kind of a strong state it will be and under which circumstances it will likely function.
