**Russia Enters the Railway Age, 1842-1855** Richard Mowbray Haywood, 1998 Focuses on the planning financing construction and early years of operation of the St Petersburg Moscow Railway which was the largest single project undertaken by Peter the Great and a major departure point for further railway construction in Russia The text pays special attention to the roles played by British and American engineers and entrepreneurs the quality of Russian engineering skills and the successes and failures in the transfer of foreign technology to Russia [Russia Enters the Railway Age, 1842-1855](#)

Richard Mowbray Haywood, 1998 Focuses on the planning financing construction and early years of operation of the St Petersburg Moscow Railway which was the largest single project undertaken by Peter the Great and a major departure point for further railway construction in Russia The text pays special attention to the roles played by British and American engineers and entrepreneurs the quality of Russian engineering skills and the successes and failures in the transfer of foreign technology to Russia *Eastern European Railways in Transition* Henry Jacolin, 2016-04-29 During the nineteenth century railway lines spread rapidly across Europe linking the continent in ways unimaginable to previous generations By the beginning of the twentieth century the great cities of the continent were linked by a complex and extensive rail network Yet this high point of interconnectivity was abruptly cut off after 1945 as the Cold War built barriers both physical and ideological between east and west In this volume leading transport history scholars take a fresh look at this situation and the ramifications it had for Europe As well as addressing the parallel development of railways either side of the Iron Curtain the book looks at how transport links have been reconnected and reconfigured in the twenty years since the reunification of Europe In particular it focuses upon the former communist countries and how they have responded to the challenges and opportunities railways offer both nationally and internationally Including contributions from historians researchers policy makers representatives of railway companies and railway museum staff the essays in this collection touch upon a rich range of subjects Divided into four sections The Historical Overview Under Russian Protection After the Fall of the Iron Curtain and The Heritage of Railways in Eastern Europe the volume offers a broadly chronological introduction to the issue that provides both a snap shot of current debates and a starting point for further research It concludes that in an era of increased globalisation and interconnectivity and despite the rise of air and road transport and virtual methods of communication railways still have a crucial role to play in the development of a prosperous and connected Europe **A History of the Railroad in 100 Maps** Jeremy Black, 2024-11-25 The first international history of railroads and railroad infrastructure told through stunningly reproduced maps Since their origins in eighteenth century England railroads have spread across the globe changing everything in their path from where and how people grew and made things to where and how they lived and moved Railroads rewrote not only world geography but also the history of maps and mapping Today the needs of train companies and their users continue to shape the maps we consume and consult Featuring full color maps primarily from the

British Library's distinguished collection many of them never before published *A History of the Railroad in 100 Maps* is the first international history of railroads and railroad infrastructure told through maps Jeremy Black includes examples from six continents spanning a variety of uses from railroad planning and operations to guides for passengers shippers and tourists Arranged chronologically the maps are accompanied by explanatory text that sheds light on the political military and urban development histories associated with the spread of railroads A final chapter considers railroad maps from games books and other cultural artifacts For anyone interested in the history of railroads or maps *A History of the Railroad in 100 Maps* will offer new and unexpected insights into their intertwined global history [A History of Russia Volume 1](#) Walter G.

**the Railway** David Gwyn,2023-05-23 The first global history of the epic early days of the iron railway Railways in simple wooden or stone form have existed since prehistory But from the 1750s onward the introduction of iron rails led to a dramatic technological evolution one that would truly change the world In this rich new history David Gwyn tells the neglected story of the early iron railway from a global perspective Driven by a combination of ruthless enterprise brilliant experimenters and international cooperation railway construction began to expand across the world with astonishing rapidity From Britain to Australia Russia to America railways would bind together cities nations and entire continents Rail was a tool of industry and empire as well as eventually passenger transport and developments in technology occurred at breakneck speed even if the first locomotive in America could muster only 6 mph *The Coming of the Railway* explores these fascinating developments documenting the early railway's outsize social political and economic impact carving out the shape of the global economy as we know it today [Railways and International Politics](#) T.G. Otte,Keith Neilson,2012-09-10 This new study brings together leading experts to show how the modern world began with the coming of the railway They clearly explain why it had a greater impact than any other technical or industrial innovation before and completely redefined the limits of the civilized world While the effect of railways on economic development is self evident little attention has been paid to their impact on international relations This is unfortunate for in the period from 1848 to 1945 railways were an important element in the struggle between the Great Powers This took many forms Often as in East Asia the competition for railway concessions reflected the clash of rival imperial interests The success or failure of this competition could determine which of

the European Powers was to dominate and exploit the markets of China and Siam Just as often railways were linked with military matters Prussia's success in the wars of German unification depended on its strategic railways just as much as on the strength of its armies and the rail links remained a vital aspect of German military thinking before the First World War So too did they for the Russians whose vast Empire required rail links capable of moving the Tsarist army quickly and competently Just as importantly railways could be vital for Imperial defence as the British discovered on the North West frontier of India This book will be of much interest to students of international history military history and strategic studies

**Serfdom, Society, and the Arts in Imperial Russia** Richard Stites, 2008-02-22 Richard Stites explores the dramatic shift in the history of visual and performing arts that took place in the last decades of serfdom in Russia in the 1860s and revisualises the culture of that flamboyant era

**The Station Agent and the American Railroad Experience** H. Roger Grant, 2023-01-03 Before the widespread popularity of automobiles buses and trucks freight and passenger trains bound the nation together The Station Agent and the American Railroad Experience explores the role of local frontline workers that kept the country's vast rail network running Virtually every community with a railroad connection had a depot and an agent These men and occasionally women became the official representatives of their companies and were highly respected They met the public when they sold tickets planned travel itineraries and reported freight and express shipments Additionally their first hand knowledge of Morse code made them the most informed in town But as times changed so did the role of and the need for the station agent Beautifully illustrated with dozens of vintage photographs The Station Agent and the American Railroad Experience brings back to life the day to day experience of the station agent and captures the evolution of railroad operations as technology advanced

*North Eurasian Trade in World History, 1660-1860* Werner Scheltjens, 2021-07-29 This book offers the first long term analysis of the protracted struggle between Britain France Prussia Russia and Sweden for economic power and political influence in the northern part of the Eurasian continent between 1660 and 1860 This book shows how their commercial diplomatic and military entanglements determined the course of Baltic trade from the late seventeenth to the mid nineteenth century provoking among other things the decline of the Dutch Republic and the partitions of Poland Lithuania The author conceptualizes the Baltic Sea as one of North Eurasia's western border basins alongside the White Black and Caspian Seas and employs novel statistical series of Baltic trade as a proxy for the long term development of North Eurasian trade in world history Based on extensive quantitative evidence and sources for the history of international relations this book outlines how North Eurasian trade became an object of growing tensions between various larger and smaller powers with a stake in North Eurasia's riches The book addresses the long term impact of mercantilist policies territorial greed and military conflicts in North Eurasia's border basins and accentuates the significance of developments in the preindustrial transport and commercial infrastructure of the North Eurasian landmass Employing the concept of North Eurasia and its different borderlands and border basins this book overcomes previous limitations in the historiography of

globalization and sheds light on a large continental landmass which researchers tend to leave aside for the benefit of a predominant maritime perspective in historical studies of globalization North Eurasian Trade in World History 1660 1860 will be invaluable reading for students and scholars interested in world history East European history and the history of international relations and trade

**A History of Modern Tourism** Eric Zuelow,2015-10-26 Tourism is one of the largest industries in the world yet leisure travel is more than just economically important It plays a vital role in defining who we are by helping to place us in space and time In so doing it has aesthetic medical political cultural and social implications However it hasn't always been so Tourism as we know it is a surprisingly modern thing both a product of modernity and a force helping to shape it A History of Modern Tourism is the first book to track the origins and evolution of this pursuit from earliest times to the present From a new understanding of aesthetics to scientific change from the invention of steam power to the creation of aircraft from an elite form of education to family car trips to see national shrines this book offers a sweeping and engaging overview of a fascinating story not yet widely known

**Russia's Capitalist Realism** Vadim Shneyder,2020-10-15 Russia's Capitalist Realism examines how the literary tradition that produced the great works of Leo Tolstoy Fyodor Dostoevsky and Anton Chekhov responded to the dangers and possibilities posed by Russia's industrial revolution During Russia's first tumultuous transition to capitalism social problems became issues of literary form for writers trying to make sense of economic change The new environments created by industry such as giant factories and mills demanded some kind of response from writers but defied all existing forms of language This book recovers the rich and lively public discourse of this volatile historical period which Tolstoy Dostoevsky and Chekhov transformed into some of the world's greatest works of literature Russia's Capitalist Realism will appeal to readers interested in nineteenth century Russian literature and history the relationship between capitalism and literary form and theories of the novel

**Stalin's Railroad** Matthew J. Payne,2010-11-23 The Turkestan Siberian Railroad or Turksib was one of the great construction projects of the Soviet Union's First Five Year Plan As the major icon to ending the economic backwardness of the USSR's minority republics it stood apart from similar efforts as one of the most potent metaphors for the creation of a unified socialist nation Built between December 1926 and January 1931 by nearly 50 000 workers and at a cost of more 161 million rubles Turksib embodied the Bolsheviks' commitment to end ethnic inequality and promote cultural revolution in one the far flung corners of the old Tsarist Empire Kazakhstan Trumpeted as the forge of the Kazakh proletariat the railroad was to create a native working class bringing not only trains to the steppes but also the Revolution In the first in depth study of this grand project Matthew Payne explores the transformation of its builders in Turksib's crucible of class war race riots state purges and the brutal struggle of everyday life In the battle for the souls of the nation's engineers as well as the racial and ethnic conflicts that swirled far from Moscow around Stalin's vast campaign of industrialization he finds a microcosm of the early Soviet Union

**Crimea in War and Transformation** Mara Kozelsky,2019 Crimea in War and Transformation is the first

exploration of the civilian experience during the Crimean War to appear in English Beginning with Russian mobilization in 1852 and lasting through demobilization in 1857 the conflict devastated the peoples and landscapes of Crimea as well as the volatile southern borderlands of the Russian Empire leading to the largest war recovery program yet undertaken by the Russian government *Disease, Health Care and Government in Late Imperial Russia* Charlotte E. Henze, 2010-12-14 This book addresses fundamental issues about the last decades of Tsarist Russia exploring the social economic and political impact of successive outbreaks of cholera and the politics of public health policy It makes a significant contribution to current debates about how far and how successfully modernisation was being implemented by the Tsarist regime [A History of Russia, the Soviet Union, and Beyond](#) David MacKenzie, Michael W. Curran, 2002 In this revision of their best selling book MacKenzie and Curran present a clear and objective account of the history of Russians and other eastern Slavs from its beginnings in ancient Rus to the demise of the Soviet Union and most recently the Putin presidency Acclaimed in the field for its clarity comprehensiveness and accuracy the text balances social cultural history with political history The authors approach weaves the external geographic determinism of the Eurasian school and the organic inner oriented approach of Russian historians **Shifting Lines, Entangled Borderlands** Jan Musekamp, 2024-03-05 Tracing multiple mobilities entangled borderlands microhistory and space and human and nonhuman actors Jan Musekamp demonstrates how an inner Prussian railroad line turned into a transnational force overcoming borders and connecting Europeans in a time of rising nationalism *Shifting Lines, Entangled Borderlands* investigates the dichotomy between a globalizing world and tighter border control in nineteenth century Central and Eastern Europe focusing on the Royal Prussian Eastern Railroad Ostbahn between the 1830s and 1930s The line was initially planned as a major internal modernizing project to connect Prussia's capital of Berlin to East Prussia's provincial capital of Königsberg today's Kaliningrad Soon the Ostbahn connected to the growing Imperial Russian railroad network thus becoming a backbone of European East West transportation in trade tourism technological exchange and migration The First World War temporarily disrupted and reconfigured existing networks adapting them to new political regimes and borders However World War II and its aftermath altered mobility patterns more permanently dividing not only the Ostbahn tracks but the whole continent for decades to come From border towns and major cities to unique structures such as stations or bridges this volume analyzes the obvious and not so obvious nodes of the Central and Eastern European rail network and the spaces in between *The Routledge Handbook of Planning History* Carola Hein, 2017-12-14 2018 IPHS Special Book Prize Award Recipient The Routledge Handbook of Planning History offers a comprehensive interdisciplinary overview of planning history since its emergence in the late 19th century investigating the history of the discipline its core writings key people institutions vehicles education and practice Combining theoretical methodological historical comparative and global approaches to planning history The Routledge Handbook of Planning History explores the state of the discipline its achievements and shortcomings and its future challenges A foundation for the

discipline and a springboard for scholarly research The Routledge Handbook of Planning History explores planning history on an international scale in thirty eight chapters providing readers with unique opportunities for comparison The diverse contributions open up new perspectives on the many ways in which contemporary events changing research needs and cutting edge methodologies shape the writing of planning history The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution CC BY 4.0 license

Contested Russian Tourism Susan Layton, 2021-08-10 This literary cultural history examines imperial Russian tourism's entanglement in the vexed issue of cosmopolitanism understood as receptiveness to the foreign and pitted against provinciality and nationalist anxiety about the allure and the influence of Western Europe The study maps the shift from Enlightenment cosmopolitanism to Byronic cosmopolitanism with special attention to the art pilgrimage abroad For typically middle class Russians daunted by the cultural riches of the West vacationing in the North Caucasus Georgia and the Crimea afforded the compensatory opportunity to play colonizer kings and queens in Asia Drawing on Anna Karenina and other literary classics travel writing journalism and guidebooks the investigation engages with current debates in cosmopolitan studies including the fuzzy paradigm of colonial cosmopolitanism

**Energy Culture** Jillian Porter, Maya Vinokour, 2023-04-06 This volume investigates energy as a shaping force in Russian and Soviet literature visual culture and social practice Chronologically arranged chapters explain how nineteenth century ideas about energy informed realist novels and paintings how the poetics of energy defined pre Revolutionary and Stalinist utopianism and how fossil fuels electricity and nuclear fission generated distinct aesthetic features in Imperial Russian Soviet and post Soviet literature cinema and landscape The volume's concentration on Russia responds to a clear need to understand the role the country plays in social political and economic processes endangering life on Earth today The cultural dimension of Russia's efforts at energy dominance deserves increased scholarly attention not only in its own right but also because it directly affects global energy policy As the contributors to this volume argue the nationally inflected cultural myths that underlie human engagements with energy have been highly consequential in the Anthropocene
