Writing History in the Soviet Union Arup Banerji, 2017-08-18 The history of the Soviet Union has been charted in several studies over the decades These depictions while combining accuracy elegance readability and imaginativeness have failed to draw attention to the political and academic environment within which these histories were composed Writing History in the Soviet Union Making the Past Work is aimed at understanding this environment The book seeks to identify the significant hallmarks of the production of Soviet history by Soviet as well as Western historians It traces how the Russian Revolution of 1917 triggered a shift in official policy towards historians and the publication of history textbooks for schools In 1985 the Soviet past was again summoned for polemical revision as part and parcel of an attitude of openness glasnost and in this literary figures joined their energies to those of historians The Communist regime sought to equate the history of the country with that of the Communist Party itself in 1938 and 1962 and this imposed a blanket of conformity on history writing in the Soviet Union The book also surveys the rich abundance of writing the Russian Revolution generated as well as the divergent approaches to the history of the period The conditions for research in Soviet archives are described as an aspect of official monitoring of history writing Another instance of this is the manner by which history textbooks have through the years been withdrawn from schools and others officially nursed into circulation This intervention occasioned in the present circumstance by statements by President Putin himself in the manner in which history is taught in Russian schools continues to this day In other words over the years the regime has always worked to make the past work Please note Taylor Francis does not sell or distribute the Hardback in

Russian Diaspora Ludmila Isurin, 2011-03-29 This book offers an interdisciplinary perspective on one of the largest immigrant groups in the West Most of the extant books on the subject of Russian immigration are written from a sociological or socio-linguistic perspective They are focused on strictly Jewish immigration or cast the immigrant community as Russian ignoring the reality of two distinct ethnic groups In addition none of the extant literature or books is based on an empirical controlled study of a numerically large group of immigrants Finally few if any published monographs make use of qualitative as well as quantitative methods of analysis or the same theoretical framework to explore changes in culture identity and language The proposed book has several features distinguishing it from the currently available scholarship Russian Diaspora examines two distinct ethnic groups relies on empirical data based on sizable groups in three countries and looks into three elements of acculturation culture identity and language Of the 214 people who participated in the present study 174 are Russian immigrants who had resided in the United States Germany and Israel between ten and thirty years In addition to offering a combination of quantitative and qualitative analyses the book adopts sociological socio-linguistic and psycho
