

RUSSIA IN THE AGE OF REACTION AND REFORM 1801-1881

DAVID SAUNDERS

Russia Age Reaction Reform 1801 1881

Simon Franklin, Jonathan Shepard

Russia Age Reaction Reform 1801 1881:

Russia in the Age of Reaction and Reform 1801-1881 David Saunders, 1992 *Russia and Europe in a Changing International Environment* Katlijn Malfliet, Lien Verpoest, 2001 *Russia in the Early Modern World* Donald Ostrowski, 2022-01-25 A fundamental problem in studying early modern Russian history is determining Russia's historical development in relationship to the rest of the world. The focus throughout this book is on the continuity of Russian policies during the early modern period 1450-1800 and that those policies coincided with those of other successful contemporary Eurasian polities. The continuities occurred in the midst of constant change but neither one nor the other continuities or changes alone can account for Russia's success. Instead Russian rulers from Ivan III to Catherine II with their chief advisors managed to sustain a balance between the two. During the early modern period these Russian rulers invited into the country foreign experts to facilitate the transfer of technology and know how mostly from Europe but also from Asia. In this respect they were willing to look abroad for solutions to domestic problems. Russia looked westward for military weaponry and techniques at the same time it was expanding eastward into the Eurasian heartland. The ruling elite and by extension the entire ruling class worked in cooperation with the ruler to implement policies. The Church played an active role in supporting the government and in seeking to eliminate opposition to the government.

The Emergence of Rus 750-1200 Simon Franklin, Jonathan Shepard, 2014-06-06 This eagerly awaited volume the first of its kind by western scholars describes the development amongst the diverse inhabitants of the immense landmass between the Carpathians and Urals of a political economic and social nexus underpinned by a common culture and eventually a common faith out of which would emerge the future Russia, Ukraine and Belarus. The authors explore every aspect of life in Rus using evidence and the fruits of post-Soviet historiography. They describe the rise of a polity centred on Kiev, the coming of Christianity and the increasing prosperity of the region even as with the proliferation of new dynastic centres the balance of power shifted northwards and westwards. Fractured, violent and transitory though it often is, this is a story of growth and achievement and a masterly piece of historical synthesis.

Picturing Russia's Men Allison Leigh, 2020-09-17 Winner of the Heldt Prize for Best Book in Slavic East European and Eurasian Women's and Gender Studies 2021. There was a discontent among Russian men in the nineteenth century that sometimes did not stem from poverty, loss or the threat of war but instead arose from trying to negotiate the paradoxical prescriptions for masculinity which characterized the era. *Picturing Russia's Men* takes a vital new approach to this topic within masculinity and art historical studies by investigating the dissatisfaction that developed from the breakdown in prevailing conceptions of manhood outside of the usual Western European and American contexts. By exploring how Russian painters depicted gender norms as they were evolving over the course of the century, each chapter shows how artworks provide unique insight into not only those qualities that were supposed to predominate but actually did in lived practice. Drawing on a wide variety of source material including previously untranslated letters, journals and contemporary

criticism the book explores the deep structures of masculinity to reveal the conflicting desires and aspirations of men in the period In so doing readers are introduced to Russian artists such as Karl Briullov Pavel Fedotov Alexander Ivanov Ivan Kramskoi and Ilya Repin all of whom produced masterpieces of realist art in dialogue with paintings made in Western European artistic centers The result is a more culturally discursive account of art making in the nineteenth century one that challenges some of the enduring myths of masculinity and provides a fresh interpretive history of what constitutes modernism in the history of art

Russia Against Napoleon Dominic Lieven, 2009-10-01 A compulsive page turner a triumph of brilliant storytelling an instant classic that is an awesome remarkable and exuberant achievement Simon Sebag Montefiore Winner of the Wolfson History Prize and shortlisted for the Duff Cooper Prize In the summer of 1812 Napoleon the master of Europe marched into Russia with the largest army ever assembled confident that he would sweep everything before him Yet less than two years later his empire lay in ruins and Russia had triumphed This is the first history to explore in depth Russia's crucial role in the Napoleonic Wars re-creating the epic battle between two empires as never before Dominic Lieven writes with great panache and insight to describe from the Russians viewpoint how they went from retreat defeat and the burning of Moscow to becoming the new liberators of Europe the consequences of which could not have been more important Ultimately this book shows memorably and brilliantly Russia embarking on its strange central role in Europe's existence as both threat and protector a role that continues in all its complexity into our own lifetimes

Abolitions as a Global Experience Hideaki Suzuki, 2015-11-16 The abolition of slavery and similar institutions of servitude was an important global experience of the nineteenth century Considering how tightly bonded into each local society and economy were these institutions why and how did people decide to abolish them This collection of essays examines the ways this globally shared experience appeared and developed Chapters cover a variety of different settings from West Africa to East Asia the Indian Ocean and the Caribbean with close consideration of the British French and Dutch colonial contexts as well as internal developments in Russia and Japan What part of the abolition decision was due to international pressure and what part due to local factors Furthermore this collection does not solely focus on the moment of formal abolition but looks hard at the aftermath of abolition and also at the ways abolition was commemorated and remembered in later years This book complicates the conventional story that global abolition was essentially a British moralizing effort among the three or four perfectly virtuous pages comprised in the history of nations Using comparison and connection this book tells a story of dynamic encounters between local and global contexts of which the local efforts of British abolition campaigns were a part Looking at abolitions as a globally shared experience provides an important perspective not only to the field of slavery and abolition studies but also the field of global or world history

Russian Populism Christopher Ely, 2021-12-30 Russian populism the belief that the peasantry embodied authentic Russian identity and once liberated from their poverty would lead the country to a brighter future has animated Russian thought across the political spectrum and inspired much of Russia's world historical literature

music and art in the 19th century This book offers the fullest and most authoritative account of the rise proliferation and influence of populist values and ideology in modern Russia to date Christopher Ely explores the complete story of Russian populism Starting from the cursed question of how to reconnect the popular masses with the Europeanized elite he examines the populist obsession with the peasant commune as a model for a future socialist Russia He shows how the desire for revolution led Russian radicals to flood into the countryside and later to pioneer terrorism as a form of political action He delves into those artists influenced by populist ideals and he tells the story of the collapse of populist optimism and its rebirth among the Socialist Revolutionary neo populists The book demonstrates that populism existed in forms ranging from radical socialist to religious conservative Blending lively theoretical analysis with a wealth of primary sources and illustrations Russian Populism provides a highly engaging overview of this complex phenomenon it is invaluable reading for anyone interested in the momentous final decades of the Russian Empire

Russia, 1855-1991 Peter Oxley, 2001 Written for the AS A2 examinations this book focuses on exam board selected topics It covers almost 150 years of Russian history from Alexander II through Glasnost to the modern times It deals the period 1895 1941 with separate chapters on the Russian Revolution Lenin and Stalin

Transnational Penal Cultures Vivien Miller, James Campbell, 2014-11-13 Focusing on three key stages of the criminal justice process discipline punishment and desistance and incorporating case studies from Asia the Americas Europe Africa and Australia the thirteen chapters in this collection are based on exciting new research that explores the evolution and adaptation of criminal justice and penal systems largely from the early nineteenth century to the present They range across the disciplinary boundaries of History Criminology Law and Penology Journeying into and unlocking different national and international penal archives and drawing on diverse analytical approaches the chapters forge new connections between historical and contemporary issues in crime prisons policing and penal cultures and challenge traditional Western democratic historiographies of crime and punishment and categorisations of offenders police and ex offenders The individual chapters provide new perspectives on race gender class urban space surveillance policing prisonisation and defiance and will be essential reading for academics and students engaged in the study of criminal justice law police transportation slavery offenders and desistance from crime

Russian Genre Painting in the Nineteenth Century Rosalind Polly Blakesley, 2000 This book addresses the little studied area of Russian genre painting in the first three quarters of the nineteenth century Rosalind Gray begins by examining artistic patronage and published texts which engaged with the visual arts in order to illustrate the context in which Russian artists were working Five major painters Venetsianov Bryullov Ivanov Fedotov and Perov are then discussed in detail Dr Gray identifies the vital contribution which these artists made to Russian intellectual life as genre painting was appropriated as a medium in the dissemination of popular values and social change At the same time the relationship between Russian and European art is explored The book demonstrates that far from being a self contained movement Russian genre painting instead engaged in a fluid and complex dialogue with the

art of the West *Emancipation* Peter Kolchin, 2024-09-10 In this sequel to his landmark study historian Peter Kolchin compares the transition to freedom after American emancipation with the Russian Great Reforms The two largest transitions from unfree to free labor of the many that occurred in Europe and the Americas during the nineteenth century took place in the United States and in Russia Both occurred in the 1860s and in both the former slaves and serfs strove to maximize their autonomy and freedom while the former masters worked to preserve as many of their prerogatives as possible Both were partially but only partially successful In this magisterial and long awaited work historian Peter Kolchin shows that a more radical break with the past was possible in the United States than in Russia with the Southern freedpeople coming to enjoy republican citizenship whereas Russian peasants remained subjects rather than citizens Both countries saw conservative reactions triumph in the late nineteenth century While this conservatism was common in most emancipations it was especially strong in Russia and the American South in part as a reaction against the major efforts to restructure the social order that went by the name of Reconstruction in the United States and the Great Reforms in Russia **Bourgeois Europe, 1850-1914** Jonathan Sperber, 2022-07-19 Now in its second edition *Bourgeois Europe 1850 1914* is a general history of Europe from the middle of the nineteenth century to the outbreak of the First World War a successor to *Revolutionary Europe 1780 1850* also available from Routledge The book offers wide geographic coverage of the European continent from the Arctic Circle to the Mediterranean and from the Atlantic to the Urals Topical coverage is equally broad including major trends and events in international relations and domestic politics in social and gender structures in the economy and in the natural and social sciences the humanities religion and the arts For this second edition the text has been completely revised the latest directions in historical research considered the further reading brought up to date and special attention has been paid to Europe's global interactions with the rest of the world and the structures and norms of gender relations Tables charts maps and other explanatory features help students explore further in the areas that interest them Written in sprightly jargon free clear prose the book is ideal for use as a text in secondary school or university courses as well as for general readers wishing to gain an overview of a crucial era of modern European history *Global Histories of Work* Andreas Eckert, 2016-09-12 *Global Histories of Work* is the first title in the new series *Work in Global and Historical Perspective* This collection of selected articles written by leading scholars in different disciplines provides both an introduction and numerous insights into themes debates and methods of Global Labour History as they have been developed over the last years The contributions to the volume discuss crucial historiographical developments present different professions that have gained new attention in the context of an emerging Global Labour History critically engage the boundaries of free labour and the ambiguities contained in this concept and take up and historicize current debates about informal labour *Global Histories of Work* will familiarize readers with a burgeoning field of high academic social and political relevance **Social Identity in Imperial Russia** Elise Kimerling Wirtschafter, 1997-10-01 A broad panoramic view of Russian imperial society from the era

of Peter the Great to the revolution of 1917 Wirtschafter's study sets forth a challenging interpretation of one of the world's most powerful and enduring monarchies A sophisticated synthesis that combines extensive reading of recent scholarship with archival research it focuses on the interplay of Russia's key social groups with one another and the state The result is a highly original history of Russian society that illuminates the relationships between state building large scale social structures and everyday life Beginning with an overview of imperial Russia's legal and institutional structures Wirtschafter analyzes the ruling classes and service elites the land owning nobility the civil and military servicemen the clergy and then examines the middle groups the *raznochintsy* the commercial industrial elites the professionals the intelligentsia before turning to the peasants townspeople and factory workers Wirtschafter argues that those very social political and legal relationships that have long been viewed as sources of conflict and crisis in fact helped to promote integration and foster the stability that ensured imperial Russia's survival

Longman Companion to Imperial Russia, 1689-1917 David Longley, 2014-07-30 This is the first book of its kind to draw together information on the major events in Russian history from 1695 to 1917 covering the eventful period from the accession of Peter the Great to the fall of Nicholas II Not only is a vast amount of material on key events and topics brought together but the book also contains fascinating background material to convey the reality of life in the period

Journeys to a Graveyard Derek Offord, 2006-07-01 *Journeys to a Graveyard* examines the descriptions provided by eight Russian writers of journeys made to western European countries between 1697 and 1880 The descriptions reveal the mentality and preoccupations of the Russian social and intellectual elites during this period The travellers' perceptions of western European countries are treated here as an ambivalent response to a civilization with which Russia was belatedly coming into close contact as a result of the imperial ambition of the Russian state and the westernization of the Russian elites The travellers perceived the most advanced European countries as superior to Russia in terms of material achievement and the maturity and refinement of their cultures but they also promoted a view of Russia as in other respects superior to the western nations Heavily influenced from the late eighteenth century by Romanticism and by the rise of nationalism in the west they tended to depict European civilization as moribund By this means they managed to define their own emergent nation in a contrastive way as having youth and promising futurity

The rise of devils James Crossland, 2023-01-31 Punctuated by the stories of a host of interesting and extraordinary characters Crossland has produced a fascinating exploration of the long nineteenth century's development of terrorism and counterterrorism highlighting the role of fear and the paranoia repression and overreaction it engendered Michael Stohl Professor at the University of California Author of *Crime and Terrorism* By applying an innovative historical lens *The Rise of the Devils* by James Crossland offers a remarkable perspective on the history of terrorism that is not overdetermined by the events of 9/11 and explores a violent strain of nihilism intoxicated by a whiff of martyrdom The book reads like the prequel to the *National Treasure* movie franchise and offers a completely unique understanding of Terrorism's First Wave Mia Bloom Georgia State University

Author of *Dying to Kill the Allure of Suicide Terror* In the dying light of the nineteenth century the world came to know and fear terrorism Much like today this was a time of progress and dread in which breakthroughs in communications and weapons were made political reforms were implemented and immigration waves bolstered the populations of ever expanding cities This era also simmered with political rage and social inequalities which drove nationalists nihilists anarchists and republicans to dynamite cities and discharge pistols into the bodies of presidents police chiefs and emperors This wave of terrorism was seized upon by an outrage hungry press that peddled hysteria conspiracy theories and sometimes fake news in response convincing many a reader that they were living through the end of days Against the backdrop of this world of fear and disorder *The rise of devils* chronicles the journeys of the men and women who evoked this panic and created modern terrorism revolutionary philosophers cult leaders criminals and charlatans as well as the paranoid police chiefs and unscrupulous spies who tried to thwart them In doing so this book explains how radicals once thought just in their causes became as Pope Pius IX denounced them little more than devils risen up from Hell

Strategic Changes and Organizational Reorientations in Local Government Nahum Ben-Elia, 2016-07-27 Global national and subnational change political economic social and demographic are forcing local governments to search reactively or proactively for alternative organizational patterns and management styles This book explores different approaches toward local government reorientation in selected Western countries as well as the reinvention of local government in Eastern Europe Eight national case studies U S Canada U K Germany Norway Israel the Czech Republic and Russia provide the empirical basis From a theoretical point of view the book exposes three main critical factors the range of policy options facing local governments strategic choice their organizational capabilities to cope with major environmental shifts strategic capabilities and their capacity for organizational learning including programmed experimentation innovation and creativity

Europe 1850-1914 Jonathan Sperber, 2014-01-14 This innovative survey of European history from the middle of the nineteenth century to the outbreak of the First World War tells the story of an era of outward tranquillity that was also a period of economic growth social transformation political contention and scientific and artistic innovation During these years the foundations of our present urban industrial society were laid the five Great Powers vied in peaceful and violent fashion for dominance in Europe and throughout the world and the darker forces that were to dominate the twentieth century violent nationalism totalitarianism racism ethnic cleansing began to make themselves felt Jonathan Sperber sets out developments in this period across the entire European continent from the Atlantic to the Urals from the Baltic to the Mediterranean To help students of European history grasp the main dynamics of the period he divides the book into three overlapping sections covering the periods from 1850 75 1871 95 and 1890 1914 In each period he identifies developments and tendencies that were common in varying degrees to the whole of Europe while also pointing the unique qualities of specific regions and individual countries Throughout his argument is supported by illustrative material tables charts case studies and other
