Russia and its Near Neighbours M. Freire, R. Kanet, 2012-05-15 Russia has recently re-emerged as the dominant political economic and military actor in former Soviet nations Kanet and Freire bring together a stellar cast of contributors to consider Russia's recent return as a major regional and international actor and its likely future policy toward its neighbours *Russia in Europe and Asia* Joseph King Goodrich, 1912 **A Student's Note-book of European History, 1789-1815. A Course of Study Containing Thirty-two Typical Questions [no. 433-464].** J. S. Lindsey, 1904 A Student's Note-book of European History, 1789-1848 J. S. Lindsey, 1904 The Herald of Asia, 1920 **Russia's War on Everybody** Keir Giles, 2022-11-17 You may not be interested in Russia But Russia is interested in you Russia's 2022 attack on Ukraine saw confrontation between Moscow and the West spill over into open conflict once again But Russia has also been waging a clandestine war against the West for decades Hostile acts abroad from poisoning dissidents to shooting down airliners interfering in elections spying hacking and murdering have long seemed to be the Kremlin's daily business But what is it all for Why does Russia consistently behave like this And what does it achieve In this book Keir Giles explains how and why Russia pushes for more power and influence wherever it can reach far beyond Ukraine and what it means not just for governments but for ordinary people Bringing together stories from the military politics diplomacy espionage cyber power organised crime and more Giles describes how Moscow conducts its campaigns across the globe and how nobody is too unimportant to be caught up in them By lifting the lid on the daily struggle going on behind the scenes to protect governments businesses societies and people from Russian hostile activity Russia's War On Everybody shows how Moscow's hostile intentions for the rest of the world are far broader and more ambitious and the ways

it tries to achieve them far more pervasive and damaging than we realise

Eastern Partnership: A New Opportunity for the Neighbours? Elena Korosteleva, 2014-01-02 This volume offers a collective assessment of the development and impact of the European Neighbourhood Policy and the Eastern Partnership Initiative on its eastern neighbours Belarus Ukraine and Moldova in particular with Russia's added perspective Founded on extensive empirical and conceptual research the volume uniquely bridges the perspectives of all parties across the EU's eastern border in an attempt to understand advantages and problems related to the effective implementation of the EU policies in the eastern region The undertaken research points to the prevalence of the top down and conditional governance approach in EU treatment of the outsiders which is not only Eurocentric and prescriptive in nature but also falls short of the declared partnership principles Without the understanding of partners internal dilemmas and needs which could only be achieved through the equivalence and reciprocity of partnership the EU would struggle to make the policy effective and legitimate in the region and to buttress its reputation as a credible force for good on the international arena This book was published as a special issue of the Journal of Communist Studies and Transition Politics

How the EU and Russia Narrate the World Mario Baumann, 2025-07-25 In times of increasing challenges to the Western idea this book illuminates how Russian and EU foreign policy discourses interact While official Russian and EU articulations on issues of sovereignty human rights and the shared neighbourhood diverge greatly they are not articulated in isolation but are entangled and condition each other To understand this entanglement this book approaches the relationship between Russia and the EU as an intersubjective one a social context where diverging interpretations of the world struggle for hegemony Its theoretical framework marries poststructuralist thought with insights from critical approaches to Hegelian recognition dialectics Based on an extensive and systematic empirical discourse analysis of Russian and EU foreign policy texts this study draws a detailed picture of the intensifying discursive dynamics accompanying the deteriorating relationship between Brussels and Moscow It shows how neither the EU's nor Russia's foreign policy articulation has changed substantially The interaction pattern continues to be an asymmetrical one with Russia's articulations much more conditioned by the EU's discourse than vice versa The book thus argues that the EU is more independent in sovereignly articulating an interpretation of the world whereas Russia continues to face constraints in the formulation of an autonomous political project With its novel and innovative conceptual framework this book furthers the theoretical scholarship on poststructuralism in international relations It addresses all scholars interested in poststructuralist enquiries and will be of great value to students and scholars of Russian foreign policy and the EU
