Numismatic Circular List of Coins, Medals, War Medals, Books, Etc. Offered for Sale Spink & Son, 1904 **The Sign of the Cross** Daniel Rancour-Laferriere, 2017-09-08 This book presents a unique effort to create a new understanding of the Christian sign of the cross At its core it traces the conscious and unconscious influence of this visual symbol through time What began as the crucifixion of a Jewish troublemaker in Roman occupied Judea in the first century eventually gave rise to a broad spectrum of readings of the instrument used to accomplish such a punishment a cross The author argues that Jesus was a provocative grandiose masochist whose suffering and death initially signified redemption for believers This idea gradually morphed into a Christian sense of freedom to persecute and wage war against non believers however as can be seen in the Crusades wars of the cross Many believers even construed the murder of their savior as a crime perpetrated by the Jews and this paranoid notion culminated in the mass murder of European Jews under the sign of the Nazi hooked cross Hakenkreuz Rancour Laferriere s book is expertly written and argued it will be readable to a large audience because it touches on many areas of controversy interest and scholarship The work is critical but not unfair it employs psychoanalysis art history the study of the symbol of the cross in works of art religion and religious texts and world history generally The interweaving of these various themes is what gives this work its ability to draw in readers and will ultimately be what keeps the reader interested through the conclusion *The Army List for ...* Great Britain. Army, 1821 *A History of Russia* George Vernadsky, 1929 *Hitler's Russian & Cossack Allies 1941-45* Nigel Thomas, 2015-10-20 Given the merciless way in which the war on the Eastern Front of World War II was conducted it is difficult to envisage anyone changing sides during the conflict Yet after the German invasion of Russia in Operation Barbarossa well over 400 000 former Soviet citizens went on to fight for Nazi Germany These included not only the legions recruited from non Russian ethnic groups eager for freedom from Stalin s dictatorship but also some 100 000 Russians and Cossacks What began as small local security units of Ostruppen enrolled for the ongoing campaigns against Soviet partisans were later reorganized given special systems of uniform and insignia amalgamated into larger formations and eventually committed to the front line This book offers up an essential guide to the appearance formation and equipment of the myriad Russian and Soviet units that fought for the

Germans It uses rare photographs and revealing colour illustrations to create a peerless visual reference to the troops who switched from one ruthless superpower to another and met with a horrific fate when the fighting was over
