Everyone Loses Samuel Charap, Timothy J. Colton, 2018-10-09 Disorder erupted in Ukraine in 2014 involving the overthrow of a sitting government the Russian annexation of the Crimean peninsula and a violent insurrection supported by Moscow in the east of the country This Adelphi book argues that the crisis has yielded a ruinous outcome in which all the parties are worse off and international security has deteriorated This negative sum scenario resulted from years of zero sum behaviour on the part of Russia and the West in post Soviet Eurasia which the authors rigorously analyse The rivalry was manageable in the early period after the Cold War only to become entrenched and bitter a decade later The upshot has been systematic losses for Russia the West and the countries caught in between All the governments involved must recognise that long standing policies aimed at achieving one sided advantage have reached a dead end Charap and Colton argue and commit to finding mutually acceptable alternatives through patient negotiation
