The White People and Other Weird Stories Arthur Machen, 2011-09-27 Classic tales of the fantastic creepy and weird with a foreword from the award winning director of *The Shape of Water* Guillermo Del Toro Machen's weird tales of the creepy and fantastic finally come to Penguin Classics With an introduction from S T Joshi editor of *American Supernatural Tales* *The White People and Other Weird Stories* is the perfect introduction to the father of weird fiction The title story *The White People* is an exercise in the bizarre leaving the reader disoriented and on edge From the first page Machen turns even fundamental truths upside down as his character Ambrose explains there have been those who have sounded the very depths of sin who all their lives have never done an ill deed setting the stage for a tale entirely without logic For more than seventy years Penguin has been the leading publisher of classic literature in the English speaking world With more than 1 700 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators FutureNatural George

Robertson, 1996 We are living in an age when nature seems to be on the brink of extinction yet at the same time nature is becoming increasingly ubiquitous and unstable as a category for representation and debate *FutureNatural* brings together leading theorists of culture and science to discuss the concept of nature its past present and future Contributors discuss the impact on our daily life of recent developments on biotechnologies electronic media and ecological politics Increasingly scientific theories and models have been taken up as cultural metaphors that have material effects in transforming ways of seeing and structures of feeling The book addresses the issue of whether political and cultural debates about the body and environment can take place without reference to nature or the natural This collection considers how we might think a future developing from emergent scientific theories and discourses What cultural forms may be produced when new knowledges challenge and undermine traditional ways of conceiving the natural **More Things Than are Dreamt of** Alain

Silver, 1994 **Medieval Studies and the Ghost Stories of M. R. James** Patrick J. Murphy, 2017-02-28 Montague Rhodes James authored some of the most highly regarded ghost stories of all time classics such as *Oh Whistle and I'll Come to You My Lad* that have been adapted many times over for radio and television and have never gone out of print But while James is best known as a fiction writer and storyteller he was also a provost of King's College Cambridge and Eton College and a legendary and influential scholar whose pioneering work in the study of biblical texts and medieval manuscripts art and architecture is still relevant today In *Medieval Studies and the Ghost Stories of M R James* Patrick J Murphy argues that these twin careers are inextricably linked James's research not only informed his fiction but also reflected his anxieties about the nature of academic life and explored the delicate divide between professional university men and erratic hobbyists or antiquaries Murphy shows how detailed attention to the scholarly inspirations behind James's fiction provides considerable

insight into a formative moment in medieval studies as well as into James's methods as a master stylist of understated horror. During his life James often claimed that his stories were mere entertainments, pleasing distractions from a life largely defined by academic discipline and restraint, and readers over the years have been content to take him at his word. This intriguing volume, however, convincingly proves otherwise. **Fantasy and Horror** Neil Barron, 1999-06-17. More than 2,300 works of fiction and poetry are discussed, each cross-referenced to other works with similar or contrasting themes. Winners and nominees for major awards are identified. Books that are part of a series are flagged with a complete list of books in series included in a final chapter, along with a comprehensive list of awards of translations and of young adult and children's books.

Encyclopedia of British Writers Christine L. Krueger, 2014-07. This concise encyclopedic reference profiles more than 800 British poets. **Clive Barker's Short Stories** Gary Hoppenstand, 1994. Unlike other horror fiction and fantasy writers, Clive Barker is true to the literary heritage of the genre. Though aware of the importance of entertainment in his writing, he embraces the traditional formulas of horror fiction and builds upon them all the while, alluding to the works of Dante, Poe, Mary Shelley, and others. The complexity of Barker's writing is best evidenced in the six-volume *Books of Blood*. Many of these short stories are entertaining hair-raisers, yet they do not revel in gratuitous violence; instead, they rely on style and a masterful sense of language to entertain. This detailed study analyzes the significant themes in Barker's writing, placing him in the British Gothic tradition of Marlowe, Saki, and others. *Studies in Short Fiction*, 1991. **British Short-fiction Writers, 1880-1914** William F. Naufftus, 1996. Information on the lives and works of some of the outstanding British writers who published short fiction in the romantic tradition during the years 1880-1914. *Shadows in the Attic* Neil Wilson, 2000. A concise biography of each author is followed by an informed and annotated bibliography of their supernatural stories and novels. Sources for further reading are also given. *Shadows in the Attic* is not only an authoritative guide but a reliable and engrossing introduction to the whole of British supernatural fiction. **BOOK JACKET** **Popular Fiction** Gary Hoppenstand, 1998. This unique anthology offers the best of popular fiction: 45 short stories and one short novel that highlight the major genres of popular writing, including horror fiction, romance, science fiction, detective stories, and adventure. Supporting this definitive collection of stories are ten non-fiction essays written by well-known authors discussing some of the key elements for writing in each genre.
