Healy Jr., 2013-07 Take a critical view of the institutions that affect our everyday lives with this extended essay The most important of these is the modern day corporation which continues to resist social control despite an ability to adapt to the environment like no other entity in human history Corporations continue to explode with power and religious educational and governmental organizations are looking to them as examples An increasing number of entities are learning how to conduct themselves by looking at their corporate counterparts and as a result they re no longer fulfilling their true purposes Author Francis X Healy Jr examines the

implications of these disturbing developments Discover why institutions continue to miss expectations why society suffers as a result of corporate models and how money and power interact in problematic ways The pursuit of money and power is stifling the true purposes of institutions with honorable objectives Many groups that once carried at least a facade of being above it all are now stuck in the moneypower continuum if something doesn't change soon the consequences will be devastating

Greedy Business Leonard Amattey, 2015-12-04 The book GREEDY BUSINESS is a satire directed at human behaviour particularly in regards to human priorities to choose between acts of humanitarianism and greed The author notes that politics indeed is part and parcel of life but nowhere is it so vividly portrayed than in education and at the workplace to satisfy human obsession with greed Then he admitted I cannot deny my role in that but that cannot justify it As individuals we allow Greed to Triumph Morality without humanitarian consideration for others in our efforts to improve quality of our life and that is inexcusable This book is therefore about that aspect of human thinking that can justify individuals doing things to others that they would not like others to do them I wonder how many of us find the necessity to take a step backward to explore the choices we have made to do the things we have done to others that we would not like to be done to us because if done to us they would likely destroy our quality of life Yet somehow some of us can justify some of the things we do to others as the result of the choices we have made without humanitarian consideration for them in the name of improving quality of our lives at the expense of our victims Well I did take a step backward and my observations suggest that humans obsession with Greed confirms why we do the things to others that we would not like to be done to us Our tendency to want more and more at the expense of others without humanitarian consideration for the quality of life of others has blinded our moral responsibility to be fair The purpose of writing this book is therefore to share my observations and thoughts with others in the hope that they too may find the need to take a step backward and explore the choices made in the past to do certain things to others that they would not like others to do to them

standard and good girl bad girl binary are eliminated and women viewed by society as whores are destigmatized Illustrating how women s sexuality is policed by both men and women she argues that women must be allowed the same personal autonomy as men the freedom to make sexual decisions for themselves to obtain orgasm equality and to insist on their own sexual pleasure Dispelling the myth that all sex workers are victims and all clients are violent Slut Shaming Whorephobia and the Unfinished Sexual Revolution calls out Western society s hypocrisy about sex and shows how stigma and the marginalization of sex workers harms all women
