Shenfan The Continuing Revolution In A Chinese Village:

Shenfan William Hinton, 1983 Contains primary source material *Aging In Post-mao China* Ada Elizabeth Sher, 2019-04-16 This case study of Shenyang the industrial capital of Liaoning Province explores what it means to be old in the People's Republic of China especially in terms of religious and ethical traditions education health and current political economic and employment trends **Voice of the Past** Paul Thompson, 2000-03-16 In this revised edition of Paul Thompson's successful book he traces oral history through its own past and weighs up the recent achievements of this international movement He challenges myths of historical scholarship and looks at the use of oral sources by the historian The author offers advice on designing a project discusses reliability of oral evidence considers the context of the development of historical writing including its social function and looks at memory the self and the use of drama and therapy This new edition has been substantially revised and updated and includes an expanded discussion of narrative approaches and new technology used in the recording of information Reviews from the second edition of *Voice of the Past Oral History* Paul Thompson is a passionate and convincing crusader in the cause of oral history *The Times Educational Supplement* It must be rare in modern academic life to replace your own unrivalled book after 10 years with an even better one but he has done so His new material on memory and the self and on drama as therapy should be read by literary critics in their infancy *The Independent* the first book to combine a theory of oral history the technical processes involved and a road map of where oral evidence fits into the landscape of western historiography *American Historical Review* **The Transformation of Rural China** Jonathan Unger, 2016-09-16 During the past quarter century Jonathan Unger has interviewed farmers and rural officials from various parts of China in order to track the extraordinary changes that have swept the countryside from the Maoist era through the Deng era to the present day A leading specialist on rural China Professor Unger presents a vivid picture of life in rural areas during the Maoist revolution and then after the post Mao disbandment of the collectives This is a story of unexpected continuities amidst enormous change Unger describes how rural administrations retain Mao era characteristics despite the major shifts that have occurred in the economic and social hierarchies of villages as collectivization and class struggle gave way to the slogan to get rich is glorious A chapter explores the private entrepreneurship that has blossomed in the prosperous parts of the countryside Another focuses on the tensions and exploitation that have arisen as vast numbers of migrant laborers from poor districts have poured into richer ones Another based on five months of travel by jeep into impoverished villages in the interior describes the dilemmas of under development still faced by many tens of millions of farmers and the ways in which government policies have inadvertently hurt their livelihoods **The Oxford Handbook of the History of Communism** S. A. Smith, 2014-01-09 The impact of Communism on the twentieth century was massive equal to that of the two world wars Until the fall of the Soviet Union in 1991 historians knew relatively little about the secretive world of communist states and parties Since then the opening of state party and

diplomatic archives of the former Eastern Bloc has released a flood of new documentation The thirty five essays in this Handbook written by an international team of scholars draw on this new material to offer a global history of communism in the twentieth century In contrast to many histories that concentrate on the Soviet Union The Oxford Handbook of the History of Communism is genuinely global in its coverage paying particular attention to the Chinese Revolution It is global too in the sense that the essays seek to integrate history from above and from below to trace the complex mediations between state and society and to explore the social and cultural as well as the political and economic realities that shaped the lives of citizens fated to live under communist rule The essays reflect on the similarities and differences between communist states in order to situate them in their socio political and cultural contexts and to capture their changing nature over time Where appropriate they also reflect on how the fortunes of international communism were shaped by the wider economic political and cultural forces of the capitalist world The Handbook provides an informative introduction for those new to the field and a comprehensive overview of the current state of scholarship for those seeking to deepen their understanding

Lak Chang Yos Santasombat, 2008-12-01 The Thai Yunnan Project is proud to present this English language version of Professor Yos Santasombat's fascinating ethnography of the Tai in Daikong southwestern China It represents a significant contribution to the ethnographic record of the Tai peoples The village of Lak Chang is located close to the edge of the Tai world and is increasingly embraced by Chinese influence Professor Yos skilfully weaves ethnographic and historical writing to chart the course of Lak Chang's incorporation into the modern Chinese state This has been a painful history but what emerges in this account is a sense of Tai cultural identity that is vigorous and adaptive The Tai ethnic category is thus a complex and dynamic construct which takes place within the context of changing power relations and socio economic conditions where the past is reconstructed to give meaning to the present and hope for the future In his account of the labours rituals and beliefs of the Tai villagers of Daikong Professor Yos brings contemporary ethnic identity to their life Among the patchwork paddyfields and haphazard laneways of Lak Chang we come to a greater understanding of how global and regional processes of modernisation are managed and selectively incorporated by one local community

The Voice of the Past Paul Thompson, 2017-02-24 Oral history gives history back to the people in their own words And in giving a past it also helps them towards a future of their own making Oral history and life stories help to create a truer picture of the past and the changing present documenting the lives and feelings of all kinds of people many otherwise hidden from history It explores personal and family relationships and uncovers the secret cultures of work It connects public and private experience and it highlights the experiences of migrating between cultures At the same time it can bring courage to the old meaning to communities and contact between generations Sometimes it can offer a path for healing divided communities and those with traumatic memories Without it the history and sociology of our time would be poor and narrow In this fourth edition of his pioneering work fully revised with Joanna Bornat Paul Thompson challenges the accepted myths of historical scholarship He discusses

the reliability of oral evidence in comparison with other sources and considers the social context of its development He looks at the relationship between memory the self and identity He traces oral history through its own past and weighs up the recent achievements of a movement which has become international with notably strong developments in North America Europe Australia Latin America South Africa and the Far East despite resistance from more conservative academics This new edition combines the classic text of *The Voice of the Past* with many new sections including especially the worldwide development of different forms of oral history and the parallel memory boom as well as discussions of theory in oral history and of memory trauma and reconciliation It offers a deep social and historical interpretation along with succinct practical advice on designing and carrying out a project *The Voice of the Past* remains an invaluable tool for anyone setting out to use oral history and life stories to construct a more authentic and balanced record of the past and the present **From**

Eating Bitterness Kimberley Ens Manning,Felix Wemheuer,2011-01-01 When the Chinese Communist Party assumed power Mao Zedong declared that not even one person shall die of hunger A little over a decade later China was in the midst of the most devastating famine in modern history Between 1957 and 1962 the years commonly associated with Mao s Great Leap Forward some 30 million peasants died of starvation and exhaustion Rather than exploring why party leaders stumbled so badly in their attempts to modernize China the contributors to this landmark collection draw on newly available sources to show how men and women in rural and urban settings experienced the changes during this period Eating Bitterness lifts the curtain of officially propagated images of mass mobilization to expose the uneven and deeply contested nature of state society relations in Maoist China It also illuminates the role that history writing and memory have played in shaping narratives of the recent past

Model Rebels Bruce Gilley,2001-02-18 A portentous tale of rural rebellion unfolds in Bruce Gilley s moving chronicle of a village on the northern China plains during the post 1978 economic reform era Gilley examines how

Daqiu Village led by Yu Zuomin a charismatic Communist Party secretary and president of the local industrial conglomerate became the richest village in China and a model for the rural reforms of the 1980s and early 1990s A growing campaign of political resistance led to increasing tensions between the villagers and the Chinese state and eventually in an event that made headlines around the world an armed confrontation between the village and higher authorities backed by paramilitary police brought Yu Zuomin and his village crashing down From Mao to Market Andrew H. Wedeman, 2003-07-10 Andrew Wedeman argues that China succeeded in moving from a Maoist command economy to a market economy because the central government failed to prevent local governments from forcing prices to market levels Having partially decontrolled the economy in the early 1980s economic reformers balked at price reform opting instead for a hybrid system wherein commodities had two prices one fixed and one floating Depressed fixed prices led to resource wars as localities battled each other for control over undervalued commodities while inflated consumer goods prices fuelled a headlong investment boom that saturated markets and led to the erection of import barriers Although local rent seeking and protectionism appeared to carve up the economy in reality they had not only pushed prices to market levels and cleared the way for sweeping reforms in the 1980s they had also pushed China past the pitfalls of reform that entrapped other socialist economies *The Ordinary & The Extraordinary* Frank N Pieke, 2012-11-12 First Published in 1996 This study is the outcome of eight months fieldwork in Beijing the capital of the People's Republic of China PRC from 8 November 1988 to 17 June 1989 The original purpose of the fieldwork had been to acquire a grass roots perspective on the dynamics of Chinese state socialist society under the impact of ten years of reform This was extended to include People's Movement The central questions this book therefore tries to answer are how can these two different fieldwork experiences be reconciled with each other and what do they tell us about the dynamics of Chinese culture and society **China During the Cultural Revolution, 1966-1976** Tony H. Chang, 1999-01-30 One of the most tumultuous periods in modern Chinese history the Cultural Revolution affected virtually all Chinese people and all aspects of Chinese life including art music and drama education factory management economic planning and medical care Studies of the Cultural Revolution in both Chinese and Western languages have burgeoned over the past three decades This comprehensive easy to use bibliography provides a guide to published English language sources on the Cultural Revolution With over a thousand entries it includes books monographs dissertations and audio visual materials on a broad range of topics from the military education religion and economics to foreign relations population art literature and drama Including titles published through the end of 1997 and a few in 1998 the book provides a general overview of the literature on the Chinese Cultural Revolution and its impact on China Its scope and coverage make it a useful resource for any library whose readers have an interest in modern Chinese history **China without Mao [electronic resource]** Immanuel Chung-Yueh Hsü, 1990
