Sherlock Holmes of Baker Street William Stuart Baring-Gould, 1962 From the Dust Jacket Although millions know of Sherlock Holmes through the chronicles of his exploits written by Dr Watson it is only now that owing to his recent death the full biography and facts of his life can be brought before the public This volume brings together for the first time every known fact that can be fully authenticated about the life of one of the world's most extraordinary men and reveals much more about him that has not been heretofore generally known From twenty years research into every possible source the author has written as definitive an account as could ever be assembled Sherlock Holmes was born on January 6th 1854 the third and last son of Siger and Violet Holmes of North Riding Yorkshire He traveled widely on the continent as a boy where he learned six languages Displaying most unusual talents at an early age he attended an English boarding school and in 1872 entered Oxford He soon decided to train himself to become a consulting detective and before long he was starting to take cases Except for a period when he was an actor he pursued his chosen career thereafter and of course became famous after Dr Watson started to write about him This book reveals far more than Watson ever could including the whole story of his running battle with the infamous Professor Moriarty his dangerous brush with Jack the Ripper his long association and love for Irene Adler the question of his own son and the story of his retirement the writing of his great book and the

circumstances of his death In short this book contains everything that can be told about Holmes It is a marvelous reconstruction from very scattered sources and the amazing but always scrupulously accurate story of a great man
