Parekh,1986      **Abominable Snowmen** Ivan T. Sanderson,2008-11-01 Scottish zoologist IVAN TERRANCE SANDERSON 1911 1973 coined the word cryptozoology and first used it in print in this hard to find 1961 work the story of hairy hominids across the planet from the very beginnings of human civilization until the mid 20th century With its scientific anthropological approach this is one of the first books to treat the phenomenon of Bigfoot seriously and introduced a groundbreaking classification system for the spectrum of subhumanoids I am happy that a whole new generation of cryptozoologists in training will be able to read Ivan T Sanderson s classic book says cryptozoologist Loren Coleman in his new introduction This book opened the minds of many to the vastness of the hominoid reports and spotlighted for people that Bigfoot Sasquatch research was the next area for exploration in North America This new edition complete with the original illustrations and maps is part of Cosimo s Loren Coleman Presents series LOREN COLEMAN is author of numerous books of cryptozoology including Bigfoot The True Story of Apes in America and Mothman and Other Curious Encounters      Tigers of the Snow and Other Virtual Sherpas Vincanne Adams,2014-05-06 Sherpas are portrayed by Westerners as heroic mountain guides or tigers of the snow as Buddhist adepts and as a people in touch with intimate ways of life that seem no longer available in the Western world In this book Vincanne Adams explores how attempts to characterize an authentic Sherpa are complicated by Western fascination with Sherpas and by the Sherpas desires to live up to Western portrayals of them Noting that diplomatic aides at world summit meetings go by the name Sherpa as do a van in the U K built for rough terrain and a software product from Silicon Valley Adams examines the authenticating effects of this mobile signifier on a community of Himalayan Sherpas who live at the base of Mount Everest Nepal and its deauthenticating effects on anthropological representation This book speaks not only to anthropologists concerned with ethnographic portrayals of Otherness but also to those working in cultural studies who are concerned with ethnographically grounded analyses of representations Throughout Adams illustrates how one might undertake an ethnography of transnationally produced subjects by using the notion of virtual identities In a manner informed by both Buddhism and shamanism virtual Sherpas are always both real and distilled reflections of the desires that produce them      Sherpas, the Himalayan Legends M.
