## Shielding The Poor:

Shielding the Poor Nora Claudia Lustig, 2010-12-01 The poor in developing countries are particularly vulnerable to adverse shocks They have little or no access to public social insurance are unlikely to save in adequate amounts to rely fully on self insurance or informal insurance face restricted access to private market insurance or credit mechanisms and have little or no political voice to demand the protection of safety net programs In this book the authors analyze the best ways to help the poor manage risks such as health shocks unemployment sudden drops in income and old age Unemployment benefits employment programs means tested social assistance social investment funds and micro finance for consumption smoothing purposes are the leading options considered The book provides a careful assessment of issues that governments need to address in the process of designing appropriate safety nets

Shielding the Poor Nora Lustig, 2001 Shielding the Poor presents a group of studies on social protection in the developing world from leading researchers These studies address the issue of vulnerability of the poor to adverse shocks and propose policies to increase their protection and coping capacity The studies emphasize the need for building permanent institutional structures that help reduce and manage to risks that households face as part of a coherent long term strategy to reduce poverty and promote social equity Policy interventions that improve social protection not only help shield the poor from the adverse consequences of shocks but also boost economic growth and reduce chronic poverty over the longer term by reducing the perverse effects of these shocks on the human and physical capital of the poor and on the economic activities that they undertake
