Shifting Involvements:

Shifting Involvements Albert Otto Hirschman, 2002 **Shifting Involvements** Albert O. Hirschman, 2002-01-27 With chapters on private concerns and the public arena consumer disappointment hostility toward new wealth and the frustration of participation in public life this text provides an overall view of private interest and public action *Shifting Involvements* Albert O. Hirschman, 1982 *Public and Private* Maurizio Passerin D'Entrèves, Ursula Vogel, 2005-08-11 The public and private distinction is essential to our moral and political vocabularies as it continues to structure our social and legal practices Public and Private provides a multidisciplinary perspective on this distinction which has been at the centre of controversial debate in recent years The focus of the debate has been on delineating acceptable boundaries between public and private in economic social and cultural spheres What is the nature and scope of citizenship What are the implications of new reproductive technologies And what is the fate of state sovereignty in a globalised world economy At first glance these questions may appear unrelated yet they all raise underlying and serious concerns regarding the scope and proper boundaries between the public and the private Public and Private will stimulate the current debate with its original approach and provide a valuable resource for all those interested in the role the public and private play in structuring our societies

Federal Management Reform in a World of Contradictions Beryl A. Radin, 2012-03-02 Proposals for reform have dotted the federal management landscape in the United States for more than 50 years Yet these efforts by public management professionals have frequently failed to produce lasting results In her new book Federal Management Reform in a World of Contradictions renowned public administration scholar Beryl A Radin reveals what may lie behind the failure of so many efforts at government management reform To spur new thinking about this problem Radin examines three basic sets of contradictions between the strategies of the reformers and the reality of the US federal system contradictions in the shared powers structure contradictions in values and contradictions between politics and administration She then explores six types of reform efforts and the core beliefs that guided them The six reform areas are contracting out personnel policy agency reorganization budgeting federalism policies and procedures and performance management The book shows how too often these prescriptions for reform have tried to apply techniques from the private sector or a parliamentary system that do not transfer well to the structure of the US federal system and its democratic and political traditions Mindful of the ineffectiveness of a one size fits all approach Radin does not propose a single path for reform but calls instead for a truly honest assessment of past efforts as today's reformers design a new conceptual and strategic roadmap for the future

Another Liberalism Nancy L. Rosenblum, 1987 Another Liberalism contributes an original perspective to debates about the nature and foundations of liberal thought In it Nancy Rosenblum describes the dynamic of romanticism and liberalism as one of mutual opposition and reconciliation She argues that romanticism sees liberalism as cold contractual and aloof And conventional liberal legalism disdains romanticism's longing for all that is personal unique and expressive We learn however

that romanticism chastened by its excesses and frustrated by its failures can come home to liberalism We also learn that liberalism can accommodate individuality and expressivity reclaiming what it had repressed Rosenblum creates a typology of romantic reconstructions of liberal thought heroic individualism communitarianism and a new face of pluralism The author draws on nineteenth and twentieth century philosophy and literature on Thoreau Humboldt Constant Stendhal and Mill among others and on contemporary political theorists for whom romanticism is a source not only of aversion to liberalism but also of resources for reform

Private Groups and Public Life Jan W. van Deth, 2003-12-16 Empirical case studies examine how new social movements interact with conventional political structures as individuals and groups experiment with new forms of political expression The results indicate a changing democratic structure *Politics in the Dutch Economy* Bart Snels, 2018-12-20 First published in 1999 this volume surveys economic theories of political mechanisms as well as political theories of the influence of the institutional context in which decisions about social economic policies are being made In the first half of the seventeenth century the Dutch Republic emerged as one of Europe's leading maritime powers The political and military leadership of this small country was based on large scale borrowing from an increasingly wealthy middle class of merchants manufacturers and regents This volume presents the first comprehensive account of the political economy of the Dutch republic from the sixteenth to the early nineteenth century Building on earlier scholarship and extensive new evidence it tackles two main issues the effect of political revolution on property rights and public finance and the ability of the nation to renegotiate issues of taxation and government borrowing in changing political circumstances

Neopluralism Andrew S. McFarland, 2004 Many of the basic issues of political science have been addressed by pluralist theory which focuses on the competing interests of a democratic polity their organization and their influence on policy Andrew McFarland shows that this approach still provides a promising foundation for understanding the American political process Synagogue Life Samuel C. Heilman, 2017-07-05 Via a participant observer approach Synagogue Life analyzes the three essential dimensions of synagogue life the houses of prayer study and assembly In each Heilman documents the rich detail of the synagogue experience while articulating the social and cultural drama inherent in them He illustrates how people come to the synagogue not only for spiritual purposes but also to find out where and how they fit into life in the neighborhood in which they share In his new introduction Heilman discusses what led him to write this book and the process of personal transformation through which he as an Orthodox Jew had to go in order to turn a disciplined eye on the world from which he came Rather than using the stranger as native approach of classic anthropology he had instead to begin as a native who discovered how to look at a once taken for granted synagogue life like a stranger In the afterword arguing for the efficacy of this approach Heilman offers guidance on how natives can use their special familiarity and still be trained to distance themselves from their own group making use of the disciplines of sociology and anthropology Synagogue Life offers a fascinating portrait that has something to say to social scientists as well as all those curious about what happens in the

main arena of Orthodox Jewish community life Charities and Government Alan Ware,1989 The Many Faces of Socialism Paul Hollander,1983-01-01 Dealing with topics and perspectives generally neglected by American sociologists Hollander focuses on the nature of socialism and the reasons for Marxism s appeal among Western intellectuals In his new introduction to updated essays never before published in book form he also addresses issues of enduring interest in both socialist and pluralistic societies These include relationships between the private and the public techniques of social and political control the timeless tension between professed value and observed behavior and the way systems struggle for a sense of purpose in the contemporary world **The Power of Public Ideas** Robert B. Reich,1988 *Civil Society in Putin's Russia* Elena Chebankova,2013-03-05 Unlike other books on civil society in Russia which argue that Russia s civil society is relatively weak and that democratisation in Russia went into reverse following Vladimir Putin s coming to power this book contends that civil society in Russia is developing in a distinctive way It shows that government and elite led drives to encourage civil society have indeed been limited and that the impact of external promotion of civil society has also not been very successful It demonstrates however that independent domestic grassroots movements are beginning to flourish despite difficulties and adverse circumstances and that this development fits well into the changing nature of contemporary Russian society *Albert O. Hirschman* Michele Alacevich,2021-04-06 Winner 2023 Best Book Award Italian Association for the History of Economic Thought One of the most original social scientists of the twentieth century Albert O Hirschman led an uncommonly dramatic life After fleeing Nazi Germany as a youth he fought in the Spanish Civil War took part in antifascist activities in Italy and organized an underground rescue operation in Marseille through which more than 2 000 people including Marc Chagall Arthur Koestler and Hannah Arendt escaped Europe Hirschman moved across topics methodologies and disciplinary boundaries as fluidly as he did among countries and languages His work is marked by a deep suspicion of all encompassing theories valuing instead doubt and a sensitivity to contingencies and unexpected consequences In this intellectual biography the economic historian Michele Alacevich explores the development and trajectory of Hirschman s characteristic approach to social scientific questions He traces the many strands of Hirschman s thought and their place in his multifaceted body of work considering their limitations as well as their strengths Alacevich puts Hirschman s ideas into context following his participation in the major intellectual and political debates of his times He examines Hirschman s pioneering work in development studies and his analyses of social change the history of capitalism and the workings of democracy alongside his activities in the postwar reconstruction of Europe and economic development in Latin America A compelling intellectual portrait of a profoundly distinctive thinker this book also reflects on Hirschman s legacy and lasting influence **The Spiritual Turn** Galen Watts,2022-05-10 Increasingly North Americans and Western Europeans identify as spiritual but not religious But what does spirituality actually mean And what does this recent spiritual turn reveal about the nature of twenty first century liberal democracies Secularization theorists argue that spirituality lacks institutional

support and a shared tradition thereby evincing religious decline Meanwhile critical commentators contend that the spiritual turn embodies all of the ills of post 1960s liberal democracies This book challenges these popular misconceptions Combining cultural sociology with intellectual history and political philosophy and drawing from first hand interview and fieldwork data along with discourse analysis of best selling books it shows that rather than reflecting religious decline the spiritual turn marks the rise of an enduring cultural structure in Western modernity the religion of the heart Tracing the religion of the heart to the 1960s The Spiritual Turn illuminates its elective affinities with the romantic liberal social imaginary that crystallized in popular consciousness during this era and transformed the institutional spheres of Western liberal democracies eventually giving birth to a new social order romantic liberal modernity Then inspired by the Durkheimian tradition it presents case studies of three sites where the religion of the heart is institutionalized in a specific discursive form a Twelve Step group a neo Pentecostal church and a Toastmasters public speaking club The book concludes that while critics may have reason to disparage both spirituality and romantic liberal modernity more generally the reality is far more complex than their criticisms suggest and more importantly far less hopeless

Values Education and Lifelong Learning David N. Aspin, Judith D. Chapman, 2007-08-30 Aims to provide an easily accessible practical yet scholarly source of information about the international concern for the nature theory and practices of the ideas of values education and lifelong learning

Aspin from Monash University and Chapman from Australian Catholic University In the Shadow of Violence Douglass C. North, John Joseph Wallis, Steven B. Webb, Barry R.
