The Silvered Tanya Huff, 2019-06-26 The Aurora Award-winning fantasy novel of a lone kingdom struggling to hold on to its freedom and a pair of untested heroes who must work together to save their people from the critically acclaimed author of the Peacekeeper novels. The small, walled kingdom of Aydori has long kept to its own ways, living under the protection of the powerful Hunt Pack and the wisdom of the Mage Pack, who have mastery of the six disciplines: air, fire, water, earth, metals, and healing. It is these very gifts that have drawn the wrath of the rapacious Emperor Leopald, whose soothsayer has prophesied a threat to his dominion about to be born from Aydori. Launching an all-out assault against the shapeshifters, he kidnaps five members of the Mage Pack, who are with child, including the wife of the Pack Leader. With the Pack engaged by the Emperor's army, the kidnappers believe they have a clear escape. But they are already being harried by the unlikelyst of hunters: young Mirian Maylin, whose true magical potential has yet to emerge, and Tomas Hagen, the reckless younger brother of the Pack Leader. Both have much to prove to themselves and each other, and both are willing to risk everything to do so. Their pursuit will take them into perils unknown and deep into the black heart of the Empire, where the fate of their people will be decided by the strength of their courage, sacrifice, and loyalty. In this seamless mix of steampunk, epic fantasy, and paranormal romance, Publishers Weekly's *The Silvered* paints a fascinating society based on the symbiosis of mage and wolf pack, each group partnering and tempering the other. San Francisco Book Review: It all adds up to a fun, old-fashioned adventure made new.

Fashion: Paris London Everett Sinclair,AI,2025-02-25 Fashion Paris London explores the dynamic relationship between clothing and society in revolutionary Paris and Georgian London It examines how fashion acted as a visual language reflecting political ideologies social hierarchies and economic realities of the late 18th century This book argues that fashion in these cities served as a battleground for competing ideologies for example the French Revolution saw restrictions on aristocratic luxury and a reimagining of dress as a symbol of republican virtue The book contrasts the suppression of luxury

in Paris with London's complex interplay of class ambition and commercial interests. It analyzes the direct impact of political events on clothing, the rise of new social signifiers and the evolving relationship between fashion and commerce. Supported by primary sources like fashion plates and personal letters, the book employs a multidisciplinary approach combining art, historical analysis, social history, and material culture studies. The study begins with an overview of each city's socio-political landscape and progresses through thematic areas culminating in an examination of the lasting legacy of these sartorial shifts.

The Aesthetic Contract Henry Sussman, 1997. Ambitious in scope and innovative in concept, this book offers an overview and critique of the conventions surrounding artistic creativity and intellectual endeavor since the outset of the broader modernity which the author sees as beginning with the decline of feudalism and the Church. As a work of intellectual history, it suggests that art and the conventions associated with the artistic constitute a secular institution that has supplanted pre-Reformation theology. From the perspective of the subject, modernity has entailed a heightened sense of individuation, moral conflict, and pervasive loss and disaster. Yet the pitfalls that have earmarked personal experience have taken on positive value in an artistic enterprise that aspires to be a salutary replacement for externally imposed theological dogmas. Beginning with Luther, Calvin, and Shakespeare and culminating with the Kantian notion of the artist as an original genius, the author reconstructs the steps by which art and creative activity were installed as the redemptive values of a modernity in which human beings were forced to define knowledge and establish authority according to their own devices. In the process, the author reads passages from Plato, Proust, Donne, Locke, Berkeley, Hume, Kleist, Rousseau, Melville, Wittgenstein, as well as Benjamin, as well as the graphic works of Holbein the Elder, Mondrian, and Rothko. As a work of critical theory, *The Aesthetic Contract* posits an alternative model to Kant's original genius. The author explores an understanding of art powered by the notion of the aesthetic contract in which artists and intellectuals choose to operate within the parameters of certain explicit experiments until the contractual clauses that delimit these endeavors lose their currency or validity. As an intellectual analog to Rousseau's social contract, the aesthetic contract has allowed the modern artist to address issues of knowledge, authority, and experience once thought to fall within the domain of arbitrary, remote, and inaccessible agencies. **Technical**

been described as the most ordinary of people A man quite content with easy chairs and comfortable trousers But eighty six years of loneliness is a long time An epiphany in his greenhouse sets into motion a chain of extraordinary and unlikely events wherein we see that when one loses their heart they often lose their head at the same time Roy comes to realise that throwing yourself into the wind of fate is the best way to be blown in the right direction In a journey that sees him tackle the postal service reluctant companionship the high seas and the most remote island in the world despite the odds he is finally blessed with the good fortune denied him for so many years It seeks to remind us that it is never too late to set out on an adventure especially when love is perhaps the greatest adventure of them all She Down There Lynton Francois
