Islamic Theology and Philosophy Michael E.

Marmura,1984-06-30 Some of the foremost living scholars in Islamic thought have come together to create a standard and definitive work on the subject of Islamic thought. Noted scholars from North America, Europe and the Middle East offer new and generative interpretations of major themes in the field. They address perennial theological and philosophical questions: the nature of the Godhead, the ultimate constitution of matter, the world's origin, causality, divine providence and the existence of evil, freedom and determinism, political wisdom and the reaches of human knowledge. The contributions include historical and analytical expositions of these issues in medieval Islam as well as discussions of individual thinkers, translations of Arabic texts with commentary, comparisons of Greek and Islamic thought and bibliographical and textual sources. As a whole, these essays offer a wealth of philosophical, theological, bibliographical, philological and historical information. Among the outstanding contributions are an article by Charles Butterworth on Aristotle's rhetoric and how it was understood by al-Farabi, Avicenna and Averroes; Richard M. Frank's essay on the concepts of atoms and bodies, one of the most complex subjects in Islamic theology; and an article by Shams Inati on Ibn Sina and single expressions that discusses how language relates to mental processes and the unknown. Michael E. Marmura develops a new perspective on the subject of efficient causality, emphasizing the paradigmatic position of God's relationship to the world. Muhsin Mahdi analyzes a treatise of Averroes that deals with the relationship between philosophy and law. *Shi'ite Islam* Muhammad ?usayn

?ab??ab???, Muhammad H. Al-Tabataba'i, 1977-01-01 Despite the vast amount of information and the number of factual details assembled during the past century by Western scholarship in the fields of orientalism and comparative religion, many gaps still exist in the knowledge of the various religions of the world, even on the level of historical facts. Moreover, until recently most of the studies carried out within these fields have suffered from a lack of metaphysical penetration and sympathetic insight. One of the most notable omissions in Western studies of the religions of the East and of Islam in particular has occurred in the case of Shi'ism. Until now Shi'ism has received little attention and when it has been discussed it has usually been relegated to the secondary and peripheral status of a religious-political sect, a heterodoxy or even a heresy. Hence its importance in both the past and the present has been belittled far more than a fair and objective study of the matter would justify. The present work hopes to redress partially the lack of accessible and reliable English language material pertaining to Shi'ism. It is the first of a series of books designed to bring to the English speaking world accurate information about Shi'ism through the translation of writings by authentic Shi'ite representatives and of some of the traditional sources which along with the Quran form the foundation of Shi'ite Islam. The purpose of this series is to present Shi'ism as a living reality as it has been and as it is in both its doctrinal and historical aspects. Thereby we can reveal yet another dimension of the Islamic tradition and make better known the richness of the Islamic revelation in its historical unfolding which could have been willed only by Providence from Preface p 3 4 *The Shia Revival: How Conflicts Within Islam Will Shape the Future* Seyyed

Vali Reza Nasr, 2007-03-27 Considers the ways in which struggles between the Shia and Sunni in the Middle East will affect

the region's future offering insight into the power conflicts between Iran and Saudi Arabia for political and spiritual leadership of the Muslim world

Islam: Religion of Peace? Mario Alexis Portella, 2018-09-25 Eight hundred years ago St Francis of Assisi embarked on a mission to the port city of Damietta Egypt to try and convert Sultan al Kamil to Christianity While this did not come to fruition both the sultan and the saint were able to have a peaceful dialogue and establish a mutual respect that is absent from the present day polemics of Islam While many today hold that those who seek to create a universal caliphate through acts of terror in the name of Islam falsely represent their religion they ignore the original Islamic texts that inspire these perpetrators The Islamization of our society however does not just come from avowed terrorists but from various Islamic scholars and activists seeking to impose sharia law As a result of the West disavowing its Greco Roman and Judeo Christian roots government officials have catered to such injustices since they consider the petrodollar more valuable than the victims of violence Consequently they have capitulated our rights of free speech and religion to the point of

classifying anyone who questions Islamists intentions as an Islamophobe Islam Religion of Peace places Islam in its historical and sociopolitical contexts in order to better understand what has bred the Islamic threat facing today s society as well as how many of our political and church leaders have failed to address the problem thereby creating more instability between both Muslims and non Muslims Author Mario Alexis Portella also proposes solutions whereby both peoples may enter into a meaningful discourse and establish harmony
