Shingon Texts Kūkai, 2004-05 This volume includes five texts by Kūkai On the Differences between the Exoteric and Esoteric Teachings The Meaning of Becoming a Buddha in This Very Body The Meanings of Sound Sign and Reality The Meanings of the Word Hum The Precious Key to the Secret Treasury and two by Kakuban The Illuminating Secret Commentary on the Five Cakras and the Nine Syllables The Mitsugonin Confession On the Differences between the Exoteric and Esoteric Teachings aims to highlight the differences between Exoteric and Esoteric Buddhism and explain why the latter is superior to the former The Meaning of Becoming a Buddha in This Very Body is a collection of discussions and remarks on the possibility of attaining enlightenment in one's lifetime The Meanings of Sound Sign and Reality concerns the problem of expressing ultimate reality through language It extends the connotations of language to embrace all phenomena The Meanings of the Word Hum demonstrates how the entire teachings of Buddhism can be encapsulated in a single word or syllable The Precious Key to the Secret Treasury is an abridged version of the teachings of the Shingon school It discusses the ten stages of Buddhism and how each successive stage overcomes the limitations of previous stages The Mitsugonin Confession is a text recited in the daily services of Shingon temples throughout Japan and reflects the actual conditions of monastic life on Koyasan during its founder Kakuban's lifetime The Illuminating Secret Commentary on the Five Cakras and the Nine Syllables is a work assimilating the Shingon and Pure Land schools from the standpoint of the Shingon teachings established by Kūkai It argues that attaining enlightenment in one's present body through esoteric practices is the same ultimately as being born in the Western Paradise through chanting Amitābha's name

Assembling Shinto Anna Andreeva, 2020-05-11 During the late twelfth to fourteenth centuries several precursors of what is now commonly known as Shinto came together for the first time By focusing on Mt Miwa in present day Nara Prefecture and examining the worship of indigenous deities kami that emerged in its proximity this book serves as a case study of the key stages of assemblage through which this formative process took shape Previously unknown rituals texts and icons featuring kami all of which were invented in medieval Japan under the strong influence of esoteric Buddhism are evaluated using evidence from local and translocal ritual and pilgrimage networks changing land ownership patterns and a range of religious ideas and practices These stages illuminate the medieval pedigree of Ryūbu Shintō kami ritual worship based loosely on esoteric Buddhism's Two Mandalas a major precursor to modern Shinto In analyzing the key mechanisms for assembling medieval forms of kami worship Andreeva challenges the twentieth century master narrative of Shinto as an unbroken monolithic tradition By studying how and why groups of religious practitioners affiliated with different cultic sites and religious institutions responded to esoteric Buddhism's teachings this book demonstrates that kami worship in medieval Japan was a result of complex negotiations

Esoteric Buddhism and Texts Jinhua Chen, 2024-02-08 This book explores trans-cultural and cross-border transmission and transformation of Esoteric Buddhism in East Asia focusing on its manuscript culture and the

transborder transmission of Esoteric Buddhist texts In East Asia Esoteric Buddhism s influences can be seen across all levels of society not only in that it achieved a recognizable sectarian identity but also because elements of esoteric teachings were absorbed by other religious schools influencing their philosophical tenets and everyday practices The influence was not confined to the religious sphere scholars have been paying more and more attention to the significance of Tang Esoteric Buddhism in relation to material culture and the dissemination of Esoteric Buddhist technologies in South Central and East Asia No matter how one looks at a ma ala an integral feature of esoteric practice or the uncannily expressive statues of Buddhas Bodhisattvas or Yidam that come in all shapes and sizes or the murals that depict the variegated mysterious themes of the esoteric tradition one can always recognise the profound connection between art and Esoteric Buddhism Esoteric influences also abound in East Asian literature across different genres displaying its unique characters both in poetry and prose Likewise in architecture one can readily make out the enigmatic colorful and distinctive elements characteristic of the esoteric tradition Monks initiated into the esoteric lineages not only brought Buddhist classics and practices to China but also advanced knowledge in astronomy calendrical calculations and mathematical theories The chapters in this volume focus on two major aspects of textual Esoteric Buddhism its manuscript culture and transborder transmission This book will be beneficial to advanced students and researchers interested in Religious Studies History and Buddhist studies It was originally published as a special issue of Studies in Chinese Religions Pure Lands in Asian Texts and Contexts Georgios T. Halkias, Richard K. Payne, 2019-03-31 This diverse anthology of original Buddhist texts in translation provides a historical and conceptual framework that will transform contemporary scholarship on Pure Land Buddhism and instigate its recognition as an essential field of Buddhist studies Traditional and contemporary primary sources carefully selected from Buddhist cultures across historical geopolitical and literary boundaries are organized by genre rather than chronologically geographically or by religious lineage a novel juxtaposition that reveals their wider importance in fresh contexts Together these fundamental texts from different Asian traditions expertly translated by eminent and up and coming scholars illustrate that the Buddhism of pure lands is not just an East Asian cult or a marginal type of Buddhism but a pan Asian and deeply entrenched religious phenomenon The volume is organized into six parts Ritual Practices Contemplative Visualizations Doctrinal Expositions Life Writing and Poetry Ethical and Aesthetic Explications and Worlds beyond Sukhavat Each part is introduced and summarized and each translated piece is prefaced by its translator to supply historical and sectarian context as well as insight into the significance of the work Common and less common issues of practice doctrine and intra religious transfer are explored and deeper understandings of the meaning of pure lands are gained through the study of the celestial cosmological internal and earthly pure lands associated with various buddhas bodhisattvas and devotional figures The introduction by the volume editors ties the diverse themes of the book together and provides a historical background to Pure Land Buddhist studies Scholars of Buddhism and Asian religion including graduate and post graduate students as well as Buddhist practitioners will

appreciate the range of translated materials and accompanied discussions made accessible in one essential collection the first of its kind to center on the formerly neglected topic of Buddhist pure lands

Deus in Machina: Religion, Technology, and the Things in Between Jeremy Stolow, 2013 The essays in this volume explore how two domains of human experience and action religion and technology are implicated in each other Contrary to commonsense understandings of both religion as an otherworldly orientation and technology as the name for tools techniques and expert knowledges oriented to this world the contributors to this volume challenge the grounds on which this division has been erected in the first place What sorts of things come to light when one allows religion and technology to mingle freely In an effort to answer that question Deus in Machina embarks upon an interdisciplinary voyage across diverse traditions and contexts where religion and technology meet from the design of clocks in medieval Christian Europe to the healing power of prayer in premodern Buddhist Japan to 19th century Spiritualist devices for communicating with the dead to Islamic debates about kidney dialysis in contemporary Egypt to the work of disability activists using documentary film to reimagine Jewish kinship to the representation of Haitian Vodou on the Internet among other case studies Combining rich historical and ethnographic detail with extended theoretical reflection Deus in Machina outlines new directions for the study of religion and as technology that will resonate across the human sciences including religious studies science and technology studies communication studies history anthropology and philosophy

as Buddhist scholarship and devotionism has utilized the canon for various ends However it is still unclear what led to the creation of the modern editions of the Buddhist canon in East Asia This volume explores the most significant and interesting developments regarding the Chinese Buddhist canon in modern East Asia including canon formation textual studies historical analyses religious studies ritual invention and digital research tools and methods **The Pacific World** ,2005
