Shin's Tricycle Tatsuhara Kodama,1995      Shin's Tricycle Tatsuhara Kodama,1995      **The Unfinished Atomic Bomb** Cassandra Atherton,David Lowe,Alyson Miller,2017-12-26 In its diversity of perspectives The Unfinished Atomic Bomb Shadows and Reflections is testament to the ways in which contemplations of the A bomb are endlessly shifting rarely fixed on the same point or perspective The compilation of this book is significant in this regard offering Japanese American Australian and European perspectives In doing so the essays here represent a complex series of interpretations of the bombing of Hiroshima and its implications both for history and for the present day From Kuznick s extensive biographical account of the Hiroshima bomb pilot Paul Tibbets and contentious questions about the moral and strategic efficacy of dropping the A bomb and how that has resonated through time to Jacobs reflections on the different ways in which Hiroshima and its memorialization are experienced today each chapter considers how this moment in time emerges persistently in public and cultural consciousness The discussions here are often difficult sometimes controversial and at times oppositional reflecting the characteristics of A bomb scholarship more broadly The aim is to explore the various ways in which Hiroshima is remembered but also to consider the ongoing legacy and impact of atomic warfare the reverberations of which remain powerfully felt      *Be the Refuge* Chenxing Han,2021-01-26 A must read for modern sanghas Asian American Buddhists in their own words on their own terms Despite the fact that two thirds of U S Buddhists identify as Asian American mainstream perceptions about what it means to be Buddhist in America often whitewash and invisibilize the diverse inclusive and intersectional communities that lie at the heart of American Buddhism Be the Refuge is both critique and celebration calling out the erasure of Asian American Buddhists while uplifting the complexity and nuance of their authentic stories and vital thriving communities Drawn from in depth interviews with a pan ethnic pan Buddhist group Be the Refuge is the first book to center young Asian American Buddhists own voices With insights from multi generational second generation convert and socially engaged Asian American Buddhists Be the Refuge includes the stories of trailblazers bridge builders integrators and refuge makers who hail from a wide range of cultural and religious backgrounds Championing nuanced representation over stale stereotypes Han and the 89 interviewees in Be the Refuge push back against false narratives like the Oriental monk the superstitious immigrant and the banana Buddhist typecasting that collapses the multivocality of Asian American Buddhists into tired essentialized tropes Encouraging frank conversations about race representation and inclusivity among Buddhists of all backgrounds Be the Refuge embodies the spirit of interconnection that glows at the heart of American Buddhism

**Children's Books from Other Countries** Carl M. Tomlinson,1998-01-15 Every child is entranced by the magic of story regardless of national boundaries Many of the most memorable childhood stories have their origins in other countries Exposing children to this multi national body of literature introduces them to the great diversity of people and cultures that populate the world at a young age enabling them to become more thoughtful and generous individuals Children s Books from

Other Countries is a complete and current guide to international children's literature. The concept of a bibliography of international children's literature is not new. In the past many books have accomplished this task. The last two decades, however, have not yet produced a current reference source devoted to international children's books. *Children's Books from Other Countries* wonderfully rectifies this lack of attention. An introductory essay provides an overview of the field including a discussion on the rationale of sharing international books with children, a brief history of the children's literature movement, related books and awards, and basic information about the International Board on Books for Young People (IBBY) and its American branch, the United States Board on Books for Young People (USBBY). An annotated bibliography contains over 700 titles from 29 different countries printed between 1950 and 1996. All titles are available in English; many have been translated, and others have originated in other English-speaking countries. The titles are organized by genre and have been selected for their high quality. They are primarily targeted for children ages 0-14, although a few outstanding young adult titles are included. Winners of the Mildred Batchelder Award and the Hans Christian Andersen Medal are listed in the appendix. Indexes include Author, Title, Index Country of Origin, Index and Subject Index. Affordable and readable, this timely resource is certainly a must for librarians and teachers and other professionals working with children. Sponsored by the United States

Demonstrating the power of teaching global literature from a critical literacy perspective, this book explores the ways that K-6 educators can infuse diverse texts into their classrooms and find support for their endeavours in teacher inquiry communities. Through carefully analyzed ethnographically informed portraits of classroom life, alternating with teachers' own accounts of their teaching and learning experiences, it demonstrates how students are moved to question, debate, and take action in response to global texts. This multi-vocal work both emerges from and responds to tensions and debates related to the purpose and practice of literature education in a time of Common Core State Standards.

Offering strategies for reading illustrations in global and multicultural literature, chapter authors explore and bring together critical theory and social semiotics while demonstrating how visual analysis can be used to uncover and analyze power, ideologies, inequity, and resistance in picturebooks and graphic novels. This volume covers a diverse range of texts and types of books and offers tools and procedures for interpreting visual images to enhance the understandings of researchers, teachers, and students as they engage with the visual culture that fills our world. These methods are significant not only to becoming a critical reader of literature but also to becoming a critical reader of visual images in everyday life. **Nowhere**
