**Ships and Seafarers** S. J. Styles, Rosemary Rees, Adam Hook, 1993-01-01

*Ships and Seafarers* Erik Abranson, 1979 Grades 6 and up *Maritime Skills on Vessels & Shore - The STCW Convention's Relevance & Recommendations* Dr. (Capt.) Vivek Jain, 2023-07-11 This Book is of the seafarers by the seafarers for the seafarers Seafarers are the core of all maritime trade and their expectations perspectives alone should be at the centre of all solutions for maritime skills Taking this standpoint the editor has explored the issues of maritime skills with critical gaps following a framework of research methodology The issue of critical gaps in maritime skills is further exacerbated due to the impact on seafarers caused by changes in the ecosystem status relationship with stakeholders technology focus on renewable energy anxiety levels and so forth Furthermore stakeholders can no longer ignore the fact that seafarers are leaving a seagoing career after working for only a few years Therefore the editor has also explored the

need to prepare seafarers for transition into maritime shore jobs to preserve their maritime skills within the maritime industry This exhaustive book can be used as a guide for further revisions or a revamp of the current STCW Convention The editor thereafter divided the researched critical gaps in maritime skills into four groups Jain s Model for Maritime Skills Panoptic Social Intelligence Upskilling Reskilling for onboard vessels skills and Portable Skills for future shore jobs Panoptic and Social Skills are core skills required for both on board vessels as well for maritime shore jobs Thereafter the editor embarked on a voyage to discover persuade collaborate with a number of exceptionally experienced subject matter experts over many months to collaboratively pursue many mini research projects across all selected maritime skills adopting specific methodology to plug these critical gaps These experts were drawn 1 from countries such as India the Philippines Romania South Korea Malaysia UAE the UK and Singapore 2 from both genders 3 from deck engine professionals settled ashore 4 with current experience in the industry and or at sea at a fundamental level and 5 from seafaring supplying nations recognising experiencing the relevant socio economic circumstances of seafarers From this book seafarers will not only find ideas on how to plug gaps in their maritime skills but also how they can transition with their existing skills to other maritime jobs such as marine superintendents marine managers designated persons ashore managers supervising new build second hand vessels IT managers in the maritime domain marine surveyors marine experts investigators marine pilots in ports maritime arbitrators managers in shipyards and so forth The solutions in this book will also resolve the issue of the shortage and retention of seafarers

**Ships and Seafarers of the Orient** ,1971-01-01      **A Study of Human Resources in Ship Operations** ,1982      Voyages of Abuse A. D. Couper,1999 Voyages of Abuse is a most useful and much needed addition to the ocean literature The book is extremely well written and painstakingly documented The detailed case histories will shake some consciences Elisabeth Mann Borgese Founder and Honorary Chair for Life International Ocean Institute Malta This book is a fine contribution to the ongoing debate about global governance in shipping and will doubtless help in persuading those who remain opposed to the notion that with flag state rights come flag state responsibilities David Cockcroft ITF General Secretary Professor Couper is well known in maritime circles for his passion and commitment for the welfare of the men and women of the sea This book is a valuable addition to the cause of seafarers and their human rights I warmly recommend it to all those who have the wellbeing of the shipping industry at heart Rev Jacques Harel General Secretary International Christian Maritime Association Voyages of Abuse details the deplorable conditions that exist in a minority sector of international shipping operating mainly although not exclusively under flags of convenience In a horrific account of human rights abuses that would be little tolerated in the countries of the shipowners the authors demonstrate that governments often pay little attention to cases of robbery abandonment deprivation and even death perpetrated by these shipowners or on vessels bearing their national flag The financial and shipping institutions that support substandard shipowners are also prepared to ignore the plight of the individual seafarer serving on the ships under their tenure The authors draw on case

studies to illustrate the issues including a perspective on Adriatic Tanker Company of Greece and examples of incompetent management and the reckless finance provisions in merchant shipping The authors also examine the plight of seafarers families who are particularly vulnerable and the legal rights of abused and abandoned seafarers They conclude by arguing for a global governance of shipping      **Shipping and Logistics Law** Felix W.H. Chan, Jimmy J.M. Ng, Bobby K.Y.

Wong, 2002-09-01 The maintenance of Hong Kong as a free port and international logistics hub is crucial for its economic vitality Rapidly expanding international trade with mainland China and Hong Kong has generated significant changes to the shipping and logistics law in both jurisdictions This textbook provides a general framework for the basic principles of shipping and logistics law in Hong Kong It contains illustrations from case law extracts of the relevant legislation and sample shipping and marine insurance documents for reference It covers the curriculum requirements of most courses on shipping law transport studies and logistics management Besides all the issues examined in this book have relevance for managers insurers bankers and lawyers who need to acquire a clear understanding of the key principles in a practical context

*Seafarers, Merchants and Pirates in the Middle Ages* Dirk Meier, 2006 The first sailors braved the North Sea and the Baltic in open wooden boats their aims were varied to fish to trade to conquer and plunder Without maps or compasses they steered by the sun or by landmarks on the coast Nevertheless they discovered Iceland and North America and explored the rivers that flowed through Europe and Russia into the Black Sea With the Frisians and the Vikings extensive trade routes better ships larger harbours and wealthy coastal towns developed The pinnacle of these advances was the Hansa a commercial network that ran from Bruges to Riga In recent years archaeologists have discovered much about the development of their ships the elegant Viking longboat the ubiquitous cog the carrack and the caravel Much too has been revealed about life in Viking settlements and the bustling Hanseatic cities In this engaging and highly illustrated volume Dirk Meier brings to life the world of the medieval seaman based on evidence from ship excavations and contemporary accounts of voyages Dr Dirk Meier teaches ancient and medieval history and is Head of Coastal Archaeology at the Christian Albrechts University in Kiel Germany      **Ships and Seafarers** ,1992      **Ships and Seafarers of the South Pacific** Victor

HATCHER, 1971      **From the Forecastle to the Cabin** Samuel Samuels, 1887      **Shipping and Logistics in Malaysia** Mohd Yazid Zul Kepli, 2023-03-17 This book is written with a semi empirical approach The book refers to cases authoritative articles from reputable journals and books However reference is also made to statutes guidelines online news white papers government reports and policymakers report This book will be a definitive reference on topic related to shipping and logistic laws in Malaysia      **Seafarers' Rights in the Globalized Maritime Industry** Desislava Nikolaeva Dimitrova, Roger Blanpain, 2010-01-01 The enormous technological financial and structural changes of recent decades have revolutionized the international shipping industry bringing about lower freight rates shorter time in port and fast turnarounds reduction in crew size employment of cheap labour from developing countries avoidance of national regulations and taxes and diminished living

and working standards on board Exploitation of seafarers has always existed but now it has become more common and frequent Shipowners can cut costs in various ways but the most profitable and easiest to achieve are those at the expense of labour costs in particular costs for maintaining proper living conditions on board the ship This bulletin examines in detail the structure of the shipping industry focusing on problems concerning the working and living conditions of seafarers on board merchant ships serving the global sea transport system Exploring all levels of maritime policymaking on a global and European level the author analyses seafarers rights in the light of international enforcement mechanisms and particularly in the light of the recent ILO Maritime Labour Convention He also considers relevant case law as well as advisory opinions and policy statements from various pertinent agencies especially in the EU context Among the issues raised and discussed in depth in relation to their effect on seafarers labour standards are the following ship manning companies illicit crewing agencies flags of convenience hours of work and rest wages occupational health and safety accommodation food water and catering recreational facilities filing of grievance and port controls The author shows that expansion and progress of the maritime industry notwithstanding there is a great need for effective enforcement mechanisms in this area This is the first detailed analysis to connect the working and living conditions of seafarers with international supranational and national maritime legislation A giant step towards establishing a global monitoring system to enforce international maritime conventions regarding seafarers labour standards it is sure to make an important contribution to both international labour and employment law and the law of the sea

*Ships and Seafarers of the Mediterranean*, 1972      **Maritime Autonomous Surface Ships (MASS) - Regulation, Technology, and Policy** Chong-Ju Chae, Raphael Baumler, 2024-12-01 This book covers MASS regulation technology and policy MASS development began with the realization of the 4th industrial revolution technologies such as big data AI IoT and communication which were also linked to technological development in the maritime field However it is still unclear how MASS will operate This book is divided into three parts MASS regulation technology and policy and explains each part in detail Part I MASS regulation and safety deals with IMO works for MASS including IMO MASS RSE results which has been finished in 2021 In addition the United Nations Convention on the Law of the Sea UNCLOS one of the most important international conventions to be considered for MASS operation will be dealt with and various safety considerations will be explained in detail Through this this book explains in detail the regulatory considerations and safety considerations for MASS In particular the gaps and themes identified in IMO MASS RSE and the priority discussion needs are explained and based on this the development of a goal based non mandatory MASS code currently in progress is discussed UNCLOS is a convention like the blueprint of the IMO Conventions and it is very important to understand and meet the requirements of UNCLOS for the operation of MASS Therefore this book provides a detailed explanation of the application of UNCLOS In particular UNCLOS Article 94 would be a very important consideration Also this book covers COLREGs and technologies for MASS operations      *Ships and Seafarers* Dominique Duviard, 1985-09-01      **A**

**History of the Czechoslovak Ocean Shipping Company, 1948-1989** Lenka Kratka, 2015-08-01 This book offers a comprehensive history of the Czechoslovak Ocean Shipping Company C O S from its beginning in the late 1940s until the fall of communism. Owned by the Czechoslovak state, C O S's activities were shaped by Soviet standards. This unique study is structured according to the different phases of the Cold War and highlights the political aspects that determined C O S's fate. Lenka Kratka focuses on two contradictory economic dimensions that C O S had to engage with: Being part of the planned economy of a socialist state, it also dealt with companies in the capitalist West. Another paradoxical aspect of C O S emerges from the memories of former Czechoslovak seamen who experienced relative freedom when being aboard and strict communist regime control while at home with their families. Kratka's book offers fascinating insights into a neglected topic using thus far untapped sources and building on primary research in oral history and personal memory.
