The Significance of Sinai George John

Brooke, Hindy Najman, Loren T. Stuckenbruck, 2008 This volume of essays is concerned with ancient and modern Jewish and Christian views of the revelation at Sinai The theme is highlighted in studies on the Dead Sea Scrolls Paul Josephus rabbinic literature art and philosophy The contributions demonstrate that Sinai as the location of the revelation soon became less significant than the narratives that developed about what happened there Those narratives were themselves transformed not least to explain problems regarding the text's plain sense Miraculous theophany anthropomorphisms the role of Moses and the response of Israel were all handled with exegetical skills mustered by each new generation of readers Furthermore the content of the revelation especially the covenant was rethought in philosophical political and theological ways This collection of studies is especially useful in showing something of the complexity of how scriptural traditions remain authoritative and lively for those who appeal to them from very different contexts
