Auschwitz and After Lawrence D. Kritzman,2014-02-04 Beginning with Marcel Ophus s documentary *The Sorrow and the Pity* 1970 there has been an attempt to question the idea of a totally unified courageous and resistant wartime France Even more startling have been the increasingly shocking revelations that the politics of collaboration were a mere extension of a deep seated French anti semitic tradition In the shadow of these developments French writers and philosophers today are reflecting on the meaning of Jewish identity in the contemporary world *Auschwitz and After* analyses for the first time how the memory of Auschwitz and the collaboration continue to haunt the French These critical evaluations are accompanied by provocative essays on the Jewish Question and the politics of race as they have been studied by writers historians philosophers and film makers in postwar France **Interpreting in Nazi Concentration Camps** Michaela

Wolf,2016-07-28 This significant new study is concerned with the role of interpreting in Nazi concentration camps where prisoners were of 30 to 40 different nationalities With German as the only official language in the lager communication was vital to the prisoners survival While in the last few decades there has been extensive research on the language used by the camp inmates investigation into the mediating role of interpreters between SS guards and prisoners on the one hand and among inmates on the other has been almost nonexistent On the basis of Primo Levi s considerations on communication in the Nazi concentrationary system this book investigates the ambivalent role of interpreting in the camps One of the central questions is what the role of interpreting was in the wider context of shaping life in concentration camps And in what way did the knowledge of languages and accordingly certain communication skills contribute to the survival of concentration camp inmates and of the interpreting person The main sources under investigation are both archive materials and survivors memoirs and testimonials in various languages On a different level *Interpreting in Nazi Concentration Camps* also asks in what way the study of communication in concentration camps enhances our understanding of the ambiguous role of interpreting in more general terms And in what way does the study of interpreting in concentration camps shape an

interpreting concept which can help us to better understand the violent nature of interpreting in contexts other than the Holocaust

Maurice Blanchot on Poetry and Narrative Kevin Hart, 2023-05-18 Blanchot and his writings on three major poets Mallarmé, Hölderlin and Char provide a decisive new point of departure for English language criticism of his philosophical writings on narrative in this study by leading Blanchot scholar Kevin Hart Connecting his work to later leading figures of 20th century French philosophy including Emmanuel Levinas, Simone Weil and Jacques Derrida Hart highlights the importance of Jewish philosophy and political thought to his overall conception of literature Chapters on community and negation reveal Blanchot's emphasis on the relationship between narrative and politics over the more commonly connected narrative and aesthetics By fully discussing Blanchot's elusive concept of the Outside for the first time this book progresses scholarly understandings of his entire oeuvre further This central concept engages Franz Rosenzweig's work on Abrahamic faiths enabling a reckoning on the role of suffering and literature in the wake of the Shoah with significant implications for Jewish studies more generally

The Oxford Handbook of Jewish Studies Martin Goodman, Jeremy Cohen, David Sorkin, 2002 This volume on Jewish studies presents surveys of today's interests and directions in the humanities and social sciences It covers the main areas taught and researched as part of Jewish studies in universities throughout the world especially in Europe, the US and Israel

Rethinking Poles and Jews Robert Cherry, Annamaria Orla-Bukowska, 2007-06-07 Since Polish Catholics embraced some anti Jewish notions and actions prior to WWII many intertwined the Nazi death camps in Poland with Polish anti-Semitism As a result more so than local non Jewish population in other Nazi occupied countries Polish Catholics were considered active collaborators in the destruction of European Jewry Through the presentation of these negative images in Holocaust literature documentaries and teaching these stereotypes have been sustained and infect attitudes toward contemporary Poland impacting on Jewish youth trips there from Israel and the United States This book focuses on the role of Holocaust related material in perpetuating anti Polish images and describes organizational efforts to combat them Without minimizing contemporary Polish anti-Semitism it also presents more positive material on contemporary Polish American organizations and Jewish life in Poland To our knowledge this will be the first book to document systematically the anti Polish images in Holocaust material to describe ongoing efforts to combat these negative stereotypes and to emphasize the positive role of the Polish Catholic community in the resurgence of Jewish life in Poland Thus this book will present new information that will be of value to Holocaust Studies and the 100 000 annual foreign visitors to the German death camps in Poland

Political Writings Simone de Beauvoir,2012-06-21 *Political Writings* offers an abundance of newly translated essays by Simone de Beauvoir that demonstrate a heretofore unknown side of her political philosophy The writings in this volume range from Beauvoir s surprising 1952 defense of the misogynistic eighteenth century pornographer the Marquis de Sade to a co written 1974 documentary film transcribed here for the first time which draws on Beauvoir s analysis of how socioeconomic privilege shapes the biological reality of aging The volume traces nearly three decades of Beauvoir s leftist political engagement from expos s of conditions in fascist Spain and Portugal in 1945 and hard

hitting attacks on right wing French intellectuals in the 1950s to the 1962 defense of an Algerian freedom fighter Djamilia Boupacha and a 1975 article arguing for what is now called the two state solution in Israel Together these texts prefigure Beauvoir's later feminist activism and provide a new interpretive context for reading her multi volume autobiography while also shedding new light on French intellectual history during the turbulent era of decolonization *Pained Screams from Camps* Aisling Reid,Valentina Surace,2024-06-17 Detention camps exceed the juridical concept of punishment and crime This book comprises two parts 1 a collected volume that discusses camps not as something of the past but as a paradigmatic political space in which ordinary law is completely suspended and 2 an Italian English parallel text of the war diary of an Italian prisoner during his confinement at the Stalag X B internment camp near Sandbostel from 1943 1945 1 *The Human Condition of Exception* Collected Essays Edited by Aisling Reid and Valentina Surace Written in Italian and English the essays collected in this volume explore the issue of camps and suffering from various perspectives including philosophical inquiry literary analysis historical description and legal assessment As Agamben suggests the camp embodies the state of exception A dehumanising camp life will therefore emerge every time such a structure is created What happens in camps exceeds the juridical concept of punishment as well as that of crime Prisoners are faced with a useless pain Levinas as it is not the expiation of a fault Prisoners attempt to describe their extreme suffering through their diaries Their experience however cannot be entirely communicated Even their screams which express humanity at the extreme limit of its un power are silenced Given the recent popularity of right wing politics as well as the centenary of Mussolini's march on Rome such research is more urgent than ever The book will appeal to readers with an interest in philosophy as well as Irish history scholars studying internment during Partition and The Troubles in Northern Ireland 2 Aldo Quarisa's *Diary* An Italian English Edition Edited by Aisling Reid and Valentina Surace Transcribed and with a preface by Galileo Sartor Translation of the diary by Aisling Reid Italian English In 1943 Aldo Quarisa worked at a military school in Florence where he taught literature In October of that year one month after Italy had surrendered to the Allied forces the Italians declared war on the Germans In Florence the German occupiers responded quickly by arresting and deporting people with military connections to numerous concentration camps in Austria Quite suddenly Aldo was detained and deported through a network of camps including Benjaminovo and the Stalag X B internment camp near the Austrian village of Sandbostel For two years he found himself imprisoned alongside other Italians including the celebrated journalist Giovannino Guareschi who secretly kept a diary that was later published as his *Diario Clandestino* 1943 1945 in 1946 Much like Guareschi Aldo also kept a diary and excerpts are published here in both Italian and English for the first time The diary describes in unprecedented detail the monotony of camp life the cruelty of the guards and the prisoners struggle to survive The text is an important document that preserves the memory and voices of all those who suffered during the war and will inevitably be of interest to readers with an interest in World War II **On European Ground** Alan Cohen,Sander L. Gilman,2001-04 A profound visual meditation on the

trauma that scars twentieth century Europe Alan Cohen's *On European Ground* considers the battlefields of World War I the Nazi death camps and the Berlin Wall and records the distance between what we remember about these places and what we can still observe in them today By walking these sites and photographing the very ground in which their history has dissolved Cohen opens a space for reflection on their complex gravity and legacy Cohen's images achieve a solemn beauty even as they engage history at its most topical Pictures of trenches and bunkers at the battlefields of Somme and Verdun explore the tension between the violence of the past and the inscrutability of its remnants Photographs from the grounds of Dachau and Auschwitz solicit a provocative dialogue between the ordinariness of these sites today and their haunting memory They teach us as the *New Art Examiner* notes that the living perceptual connection to the Holocaust is vanishing Images of the Berlin Wall show only the footprint of the barricade that once separated two hostile ideologies They record the physical erosion and looming disappearance of the Wall while capturing its reappearance as a memorialized abstraction Accompanying the photographs in *On European Ground* are essays by Sander Gilman and Jonathan Bordo as well as an interview with Cohen by critic Roberta Smith of the *New York Times* The essays present both an introduction to and aesthetic analysis of Cohen's work while the interview discusses the intractable problems of history and memory that his photographs so uniquely capture

Perpetration and Complicity under Nazism and Beyond Mary Fulbrook, Bastiaan Willems, Stephanie Bird, Stefanie Rauch, 2023-07-13 *Perpetration and Complicity under Nazism and Beyond* analyses perpetration and complicity under National Socialism and beyond Contributors based in the UK the USA Canada Germany Israel and Chile reflect on self understandings representations and narratives of involvement in collective violence both at the time and later a topic that remains highly relevant today Using the notion of compromised identities to think about contentious questions relating to empathy and complicity this interdisciplinary collection addresses the complex relationships between people's behaviours and self understandings through and beyond periods of collective violence Contributors explore the compromises that individuals states and societies enter into both during and after such violence Case studies highlight patterns of complicity and involvement in perpetration and analyse how people's stories evolve under changing circumstances and through social interaction using varying strategies of justification denial and rationalisation Each chapter also considers the ways in which contemporary responses and scholarly practices may be affected by engagement with perpetrator representations

Reckonings Mary Fulbrook, 2018-09-04 Winner of the Wolfson History Prize 2019 Shortlisted for the 2019 Cundill History Prize From the Holocaust Museum in Washington D C to the stumbling stones embedded in Berlin sidewalks memorials to victims of Nazi violence have proliferated across the globe More than a million visitors as many as killed there during its operation now visit Auschwitz each year There is no shortage of commemoration of Nazi crimes But has there been justice *Reckonings* shows persuasively that there has not The name Auschwitz for example is often evoked to encapsulate the Holocaust Yet focusing on one concentration camp however horrific the scale of the crimes committed there does not capture

the myriad ways individuals became tangled up on the side of the perpetrators or the diversity of experiences among their victims And it can obscure the continuing legacies of Nazi persecution across generations and across continents Exploring the lives of individuals across a spectrum of suffering and guilt each one capturing one small part of the greater story Mary Fulbrook's haunting and powerful book uses reckoning in the widest possible sense to reveal the disparity between the extent of inhumanity and later attempts to interpret and rectify wrongs as the consequences of violent reverberated through time From the early brutality of political oppression and anti Semitic policies through the euthanasia program to the full devastation of the ghettos and death camps then moving across the post war decades of selective confrontation with perpetrators and ever expanding recognition of victims Reckonings exposes the disjuncture between official myths about dealing with the past and the fact that the vast majority of Nazi perpetrators were never held accountable In the successor states to the Third Reich East Germany West Germany and Austria prosecution varied widely and selective justice was combined with the reintegration of former Nazis Meanwhile those who had lived through this period as well as their children the second generation continued to face the legacies of Nazism in the private sphere in ways often at odds with those of public remembrance and memorials By following the various phases of trials and testimonies from those immediately after the war through succeeding decades and up to the present Reckonings illuminates the shifting accounts by which both perpetrators and survivors have assessed the significance of this past for subsequent generations and calibrates anew the scales of justice

They Must Be Represented Paula Rabinowitz, 2020-05-05 They Must Be Represented examines documentary in print photography television and film from the 1930s through the 1980s using the lens of recent feminist film theory as well as scholarship on race class and gender emerging from the new interdisciplinary approach of American cultural studies Paula Rabinowitz discusses the ways in which these four media shaped truth claims and political agency over the decades in the 1930s about poverty labor and popular culture during the depression in the 1960s about the Vietnam War racism work and counterculture and in the 1980s about feminist and gay critiques of gender history narrative and cinema A great deal of documentary expression has been influenced by developments in cultural anthropology as committed artists brought their cameras and typewriters into the field not only to report but also to change the world Yet recently the projects of both anthropology and documentary have come under scrutiny Rabinowitz argues that the gendering of vision that occurs when narratives confirm to conventional genres profoundly affects the relation of documentarian to subject She goes on to define this gendering of vision in documentary as an ethnographic process Ultimately this polemical study challenges the construction of the spectator in psychoanalytic film theory and articulates a new model for theorizing power relations in culture and history

Jewish Forced Labor in Romania, 1940-1944 Dallas Michelbacher, 2020-05-05 This study of the Antonescu regime's forced labor system offers precious insights to historians and social scientists alike Dennis Deletant author of Ion Antonescu Hitler's Forgotten Ally Between Romania's entry into World War II in 1941 and the ouster of dictator

Ion Antonescu three years later over 105 000 Jews were forced to work in internment and labor camps labor battalions government institutions and private industry Particularly for those in the labor battalions this period was characterized by extraordinary physical and psychological suffering hunger inadequate shelter and dangerous or even deadly working conditions And yet the situation that arose from the combination of Antonescu's paranoias and the peculiarities of the Romanian system of forced labor organization meant that most Jewish laborers survived Jewish Forced Labor in Romania explores the ideological and legal background of this system of forced labor its purpose and its evolution Author Dallas Michelbacher examines the relationship between the system of forced labor and the Romanian government's plans for the solution to the Jewish question In doing so Michelbacher highlights the key differences between the Romanian system of forced labor and the well documented use of forced labor in Nazi Germany and neighboring Hungary Jewish Forced Labor in Romania explores the internal logic of the Antonescu regime and how it balanced its ideological imperative for antisemitic persecution with the economic needs of a state engaged in total war whose economy was still heavily dependent on the skills of its Jewish population
