Chinese Complaint Systems Qiang Fang,2013-01-25 Complaint systems have existed in China for many years and in 2004 a debate took place in the People s Republic of China PRC over the Letters and Visits System xinfang zhidu which was designed to allow people to register complaints with the upper levels of the

government However both parties generally overlooked several different complaint systems that had preceded the Letters and Visits System during China s history Indeed despite the rich heritage of numerous complaint systems throughout China s past most studies of complaint systems in China have paid little attention to the origins development practices impact and nature of similar institutions in the longue dur e of Chinese history Presenting a comprehensive study of complaint systems in Chinese history from early times to the present this important book fills the gap in existing literature on complaint systems in China Drawing on primary sources Qiang Fang analyses the significance of continuities and changes in historical complaint systems for contemporary China where the state continues to be nominally strong but actually fragile Unlike other major theories of popular resistance to the state in China such as everyday resistance rightful resistance and resistance as legal rights this book develops the theory that behind Chinese complaint systems there was a mentality of natural resistance that has been deeply embedded in Chinese culture political philosophy and folk religion for millennia Given this history Fang concludes that it is likely that some form of complaint system will continue to exist and by helping to mitigate the increasing demands of the Chinese state on the Chinese will serve to strengthen the state An essential contribution understanding the strengths weaknesses and various roles of the Letters and Visits System in contemporary China as well as the systems that have preceded it throughout China s long history this book will be of huge interest to students and scholars of Chinese history politics and law
