Torres Hortelano, 2017-12-01 Through provocative essays by specialists in different aspects of Japanese culture this book provides an historical and analytical survey of the presence of Goddesses in Japanese audiovisual culture from its origins to the present day It shows how these feminine myths are represented in Japan not only as beneficial or creative deities but also the archetypal strong or dominant woman that sometimes overshadows masculine figures and heroes or as influential figures Therefore it analyzes this rich dialectic of the feminine and how the audiovisual culture has represented it thus far in film TV series and video games made in Japan While many theories have been proposed

to explain the presence of Goddesses in Japan this book's focus on audiovisual culture explores how this corpus challenges the traditional conceptions of the feminine as related to Goddesses

Tabernero Holgado, Carlos, 2016-11-28 La medicina y el cine son parte de nuestro día a día Acudimos a la consulta o a la sala en busca de algún tipo de alivio y de puertas a otros mundos Y la consulta y la sala la medicina y el cine se miran de reojo La medicina quiere al cine para mirar explorar y estudiar diagnosticar y operar también como herramienta publicitaria y de propaganda para construir su autoridad Y el cine cuenta muy a menudo con la medicina porque trabaja con experiencias rutinarias de salud y enfermedad sus miedos y sus osadías sus servidumbres y sus rebeldeas La medicina y el cine caminan de la mano con la experiencia cotidiana de la muerte y de la vida Y la medicina es cine porque es soñar cuestionar y luchar como lo es sufrir morir y amar Y es por esto mismo que también en nuestro día a día el cine es medicina      Developments in the Japanese Documentary Mode Marcos Centeno, Michael Raine, 2021-06-10 Writing on Japanese cinema has prioritized aesthetic and cultural difference and obscured Japan's contribution to the representation of real life in cinema and related forms Donald Richie who was instrumental in introducing Japanese cinema to the West even claimed that Japan did not have a true documentary tradition due to the apparent preference of Japanese audiences for stylisation over realism a preference that originated from its theatrical tradition However a closer look at the history of Japanese documentary and feature film production reveals an emphasis on actuality and everyday life as a major part of Japanese film culture That documentary mode crossing genre and medium like Peter Brooks melodramatic mode rather than limited to styles of documentary filmmaking alone identifies rhetoric of authenticity in cinema and related media even as that rhetoric was sometimes put in service to political and economic ends The articles in this Special Issue Developments in the Japanese Documentary Mode trace important changes in documentary film schools and movements from the 1930s onwards sometimes in relation to other media and the efforts of some post war filmmakers to adapt the styles and ethical commitments that underpin documentary's impression of authenticity to their representation of fictional worlds      Monstrous Reflection Petra Rehling, Elsa Bouet, 2019-07-22 This volume was first published by Inter Disciplinary Press in 2014 By engaging and questioning existing definitions and ideas all of the essays in this volume represent the idea of a monstrous reflection in one way or another Monsters can serve as a means to explore the cultural anxieties they embody and the reasons for these anxieties Thus monsters act as mirrors highlighting the causes for the creation of categories A reflection can also be a comment or statement applicable in that the monstrous or the word monster becomes a label of otherness and exclusion This label is sometimes a construction a discursive and rhetorical trope which only serves to other those deemed different or undesirable suggesting that the monster might not always be monstrous This volume is about the ones gazing into the mirror and the things staring back at humanity along with the uncomfortable truths that are revealed in the process      *World Directors and Their Films* Bert Cardullo, 2012-08-09 In *World Directors and Their Films* Bert Cardullo offers readable analyses of some of the most important films and the artists who produced them Beyond simple biographical capsules and plot summaries these

readings demonstrate with clarity and elegance how international moviemakers use the resources of the medium to pursue complex significant human goals Including essays on filmmakers from China Japan India Argentina Brazil Mexico Iran Senegal and Chad this book is an engaging collection of enlightening and helpful essays that will appeal as much to the general reader as it will to scholars of international cinema     Social Trauma, Narrative Memory, and Recovery in Japanese Literature and Film David Stahl,2019-07-02 This book provides a comprehensive analysis of major works in Japanese literature and film through the interpretive lens of trauma and PTSD studies Focusing critical attention on the psychodynamics and enduring psychosocial aftereffects of social trauma it also evaluates the themes of dissociation failed mourning and psychological defence fantasies Building on earlier studies this book emphasizes the role of protagonists in managing to effect partial recovery by composing memoirs in which they transform dissociated traumatic memory into articulate narrative memory or bring about advanced recovery by pioneering alternative means of orally communicating working through and overcoming debilitating personal histories of traumatization and victimization In so doing Stahl also demonstrates that what holds true on the individual and microcosmic level also does so on the collective and macrocosmic level This new critical approach sheds important new light on canonical Japanese novels and films and enables recognition and appreciation of integral psychosocial aspects of these traumatic narratives As such the book will be of huge interest to students and scholars of Japanese film and literature as well as those of trauma studies     **Japanese Film and the Floating Mind** Justin Vicari,2016-06-14 Japanese film is enduringly fascinating challenging and rewarding This book provides a cultural historical and philosophical study of Japanese film from the silent era to the present day focusing on its expansive consciousness The author examines masterpieces by Ozu Mizoguchi Oshima and many other directors discussing their influence on the Japanese culture of esoteric Zen Buddhism and relating them to recent neuroscientific theories of brain trauma     *The Education of the Filmmaker in Europe, Australia, and Asia* M.
