**Shojin Cooking** Keizo Kabayashi, Buddhist Bookstore, 1977      **The Enlightened Kitchen** 禅の食, 2005 Enlightened Kitchen is a Kodansha International publication      Zen Vegan Food Koyu Iinuma, 2021-10-12 In this book Buddhist temple priest and chef Koyu Iinuma shares the simple and delicious plant based meals he prepares in the kitchens of Fukushoji temple in Yokohama Japan The 73 recipes showcased in Zen Vegan Food are incredibly beautiful and tasty while also being nutritious sustainable and ethically responsible Color photos show the finished dishes while comprehensive information on Japanese ingredients like seaweed miso and tofu helps home cooks with shopping and preparation In this cookbook readers will find 28 recipes for vegan congee the traditional Asian rice porridge dish that is taking the West by storm These include Congee with Eggplant and Ginger Soymilk Congee and Congee with Saffron and Chestnuts A chapter on Japanese Italian dishes with recipes such as Grilled Turnips with Mustard and Olive Sauce and Spaghetti with Pesto and Shiitake Delicious condiments and starters to brighten up any meal such as Mushroom Miso Paste and Crunchy Kombu Chips Though we may not typically associate Buddhist monasteries with trendy chefs and temple cafes a young generation of priests like Iinuma is ushering in a new era one which emphasizes openness in temples and a reconnection to the natural world for ordinary people Buddhist monastery chefs have been creating delicious vegan dishes for centuries and Zen Vegan Food offers a modern take full of fun and flavor For anyone interested in a sustainable plant based diet this book will be a revelation a new way to eat delicious and varied meals the whole family will enjoy      *The Buddha's Footprint* Johan Elverskog, 2020-02-21 A corrective to the contemporary idea that Buddhism has always been an environmentally friendly religion In the current popular imagination Buddhism is often understood to be a religion intrinsically concerned with the environment The Dharma the name given to Buddhist teachings by Buddhists states that all things are interconnected Therefore Buddhists are perceived as extending compassion beyond people and animals to include plants and the earth itself out of a concern for the total living environment In *The Buddha's Footprint* Johan Elverskog contends that only by jettisoning this contemporary image of Buddhism as a purely ascetic and apolitical tradition of contemplation can we see the true nature of the Dharma According to Elverskog Buddhism is in fact an expansive religious and political system premised on generating wealth through the exploitation of natural resources Elverskog surveys the expansion of Buddhism across Asia in the period between 500 BCE and 1500 CE when Buddhist institutions were built from Iran and Azerbaijan in the west to Kazakhstan and Siberia in the north Japan in the east and Sri Lanka and Indonesia in the south He examines the prosperity theology at the heart of the Dharma that declared riches to be a sign of good karma and the means by which spiritual status could be elevated through donations bequeathed to Buddhist institutions He demonstrates how this scriptural tradition propelled Buddhists to seek wealth and power across Asia and to exploit both the people and the environment Elverskog shows the ways in which Buddhist expansion not only entailed the displacement of local gods and myths with those of the Dharma as was the case

with Christianity and Islam but also involved fundamentally transforming earlier social and political structures and networks of economic exchange The Buddha's Footprint argues that the institutionalization of the Dharma was intimately connected to agricultural expansion resource extraction deforestation urbanization and the monumentalization of Buddhism itself
