Cazenave, 2018-05-16 Killing African Americans examines

the pervasive disproportionate and persistent police and vigilante killings of African Americans in the United States as a racial control mechanism that sustains the racial control system of systemic racism Noel A Cazenave's well researched and conceptualized historical sociological study is one of the first books to focus exclusively on those killings and to treat them as political violence Few issues have received as much conventional and social media attention in the United States over the past few years or have for decades now sparked so many protests and so often strained race relations to a near breaking point Because of both its timely and its enduring relevance *Killing African Americans* can reach a large audience composed not only of students and scholars but also of Movement for Black Lives activists politicians public policy analysts concerned police officers and other criminal justice professionals and anyone else eager to better understand this American nightmare and its solutions from a progressive and informed African American perspective **I Can't Breathe** David

Horowitz,2021-10-05 **THE TRUTH ABOUT THE BLACK LIVES MATTER MARTYRS** This book is essential Don't miss it MARK LEVIN A brilliant examination of the actual facts of the George Floyd case and the subsequent exploitation of his death by Black Lives Matter LEO TERRELL civil rights attorney commentator In his latest salvo in the battle for America's survival David Horowitz exposes the racial hoax that is spawning riots and dividing the nation Examining the twenty six most notorious cases of police racism from Trayvon Martin and Michael Brown to George Floyd and Breonna Taylor Horowitz demonstrates that Black Lives Matter has lied about every one of them in its quest to undermine law and order fuel race hatred and destroy America In case after case the lies and mythmaking break down under Horowitz's scrutiny Even the chief prosecutor in the George Floyd case was forced to admit that he had no evidence of racial bias while Breonna Taylor the longtime accomplice of a major drug dealer was killed when she and her boyfriend resisted arrest The unchallenged myths about racist murders by the police have brought mayhem and crime to our cities where the victims are predominantly black They are also a slander against the United States the least racist country in history and against black Americans the vast majority of whom are successful and law abiding citizens Now the Biden administration has embraced the false narrative of systemic racism and white supremacy which supposedly infect every aspect of American life using it to justify a witch hunt for domestic terrorists Most Americans black and white know in their bones that this portrayal of their country is a lie An unflinching and courageous accounting *I Can't Breathe* is the urgently needed proof that they are right *The Trial of Daniel McFarland for the Shooting of Albert D. **Dangerous Spaces** D. Marvin Jones,2016-10-24 An eye opening unapologetic explanation of what racial profiling is in modern day America systematic targeting of communities and placing of suspicion on populations on the basis of not only ethnicity but also certain places that are linked to the social identity of that group In 21st century post civil rights era

America race has become complex and intersectional It is no longer simply a matter of color black versus white contends author D Marvin Jones but equally a matter of space or geographies of fear which he defines as spaces in which different groups are particularly vulnerable to stereotyping by law enforcement blacks in the urban ghetto Mexicans at the functional equivalent of the border Arabs at the airport Dangerous Spaces Beyond the Racial Profile demonstrates how society has constructed a set of threat narratives in which certain widespread problems immigration drugs gangs and terrorism for example have been racialized and explains the historical and social origins of these racializing threat narratives The book identifies how these narratives have led directly to relentless profiling that results in arrest deportation massive surveillance or even death for members of suspect populations Readers will come to understand how the problem of profiling is not merely a problem of institutional bias and individual decision making but also a deeply rooted cultural issue stemming from the processes of meaning making and identity construction

**Montana Vigilantes, 1863-1870** Mark C. Dillon, 2018-10-22  
A history and legal analysis of vigilantism in Montana in the 1860s from a state Supreme Court justice and legal historian Historians and novelists alike have described the vigilantism that took root in the gold mining communities of Montana in the mid 1860s but Mark C Dillon is the first to examine the subject through the prism of American legal history considering the state of criminal justice and law enforcement in the western territories and also trial procedures gubernatorial politics legislative enactments and constitutional rights Using newspaper articles diaries letters biographies invoices and books that speak to the compelling history of Montana s vigilantism in the 1860s Dillon examines the conduct of the vigilantes in the context of the due process norms of the time He implicates the influence of lawyers and judges who like their non lawyer counterparts shaped history during the rush to earn fortunes in gold Dillon s perspective as a state Supreme Court justice and legal historian uniquely illuminates the intersection of territorial politics constitutional issues corrupt law enforcement and the basic need of citizenry for social order This readable and well directed analysis of the social and legal context that contributed to the rise of Montana vigilante groups will be of interest to scholars and general readers interested in Western history law and criminal justice for years to come Justice Dillon s book reads like a Western Dillon masterfully sets the stage for the rise of the Montana vigilantes by bringing alive the people who created and lived in mining towns There are heroes villains shady characters and more than a few politicians businessmen lawyers and judges What sets Dillon s book apart from historical texts and fictional tales is that he provides legal analyses and explanations of the trials sentences due process and procedures of the day And shed s grisly light on the details of the hangings Dillon s unique background as an attorney and judge and his downright dogged research are what makes this complex story so engaging The prose is clear crisp and gets to the point The book is satisfying because it answers contemporary nagging questions about the law regarding the vigilantes and the hangings Gregory Zenon Brooklyn Barrister Dillon s analysis of the vigilantes of Bannack Alder Gulch and Helena in Montana Territory is the most detailed insightful and legally nuanced yet produced This book is a model for historians to

follow when dealing with 19th century criminal proceedings Establishing historical context includes examining the laws in books as well as the law in action Gordon Morris Bakken Great Plains Research [Police Abuse and Reform in America](#) James J. Fields,2022-06-09

Although racism has plagued the American justice system since the nation's colonial beginnings private White Americans are taking matters into their own hands From racist 911 calls and hoaxes to grassroots voter suppression and vigilante self defense concerted efforts are made every day by private citizens to exclude Black Americans from schools neighborhoods and positions of power Neighborhood Watch examines the specific ways people police America's color line to protect White spaces The book charts how these actions too often result in harassment arrest injury or death yet typically go unchecked Instead these actions are promoted and encouraged by legislatures looking to expand racially discriminatory laws a police system designed to respond with force to any frivolous report of Black mischief and a Supreme Court that has abdicated its role in rejecting police abuse To combat these realities Neighborhood Watch offers preliminary recommendations for reform including changes to the maximum policing state increased accountability for civilians who abuse emergency response systems and proposals to demilitarize the color line

The Psychology and Law of Workplace Violence Irvin H. Perline, Jona Goldschmidt, 2004 The Psychology and Law of Workplace Violence examines the causes risk factors prevention and legal issues associated with workplace violence Previous attempts to explain these crimes are often only descriptive and do not identify the basic underlying psychological mechanisms and yet from the largest violent acts such as the September 11th Attack on America to the smallest violent workplace crime the psychological mechanisms are the same This landmark text offers a different perspective to the current concepts of workplace violence and will likely change the way people conceptualize violent crime Part One of the text identifies eight underlying factors responsible for these crimes identifies two necessary conditions for their occurrence and develops several significant new concepts related to the field Part Two discusses state and federal legal issues surrounding workplace violence Workers compensation employer liability and employer duties under negligence law

hiring supervision and firing the legal aspects surrounding premises security employee privacy issues the ADA the Fair Credit Reporting Act and criminal history inquiries are but a few of the many legal topics discussed This section is written in a practical easy to understand manner and contains materials that are often available only in law libraries The final Part Three of the text is a compendium of workplace violence case histories and includes numerous nationally recognizable incidents along with many others that have not been widely publicized An interesting description of details surrounding each crime and its aftermath is included What happened to the perpetrator What happened to the victims In addition for many cases how the case relates to other cases and issues that have arisen from the case are discussed In this section which is the largest published compilation of case history material on workplace violence to date covers over

**Racism in the Neoliberal Era** Randolph Hohle, 2017-11-03 Racism in the Neoliberal Era explains how simple racial binaries like black white are no longer sufficient to explain the persistence of racism capitalism and elite white power The neoliberal era features the largest black middle class in US history and extreme racial marginalization Hohle focuses on how the origins and expansion of neoliberalism depended on language or semiotic assemblage of white private and black public The language of neoliberalism explains how the white racial frame operates like a web of racial meanings that connect social groups with economic policy geography and police brutality When America was racially segregated elites consented to political pressure to develop and fund white public institutions The black civil rights movement eliminated legal barriers that prevented racial integration In response to black civic inclusion elite whites used a language of white private black public to deregulate the Voting Rights Act and banking They privatized neighborhoods schools and social welfare creating markets around poverty They oversaw the mass incarceration and systemic police brutality against people of color Citizenship was recast as a privilege instead of a right Neoliberalism is the result of the latest elite white strategy to maintain political and economic power

*Black Bodies That Matter* James Garrison, 2024-12-15 Responding to interconnected tragedies affecting minority populations in America *Black Bodies That Matter* Mourning Rage and Beauty brings together the Black Lives Matter movement with the framework developed by Judith Butler in *Bodies That Matter* Butler's analysis of subject life as a kind of melancholy preempted mourning where loss itself is lost and her advocacy of public forms of grieving like the AIDS Quilt which brings lost lives out of the shadows highlight the problematic connection between memory and loss when it comes to subjects who do not fully matter as they should Taking her remarks on public memorials like the AIDS Quilt her reading of Michel Foucault's idea of the subject as a self surveilling prisoner and her examination of Louis Althusser's scene where the voice of police authority bellows Hey you there and creates the you that turns around beholden to conscience James Garrison examines resonances with black experience in America which itself is marked by violence surveillance imprisonment and encounters with the ominous voice of police authority Investigating a wide array of black cultural expression *Black Bodies That Matter* brings new insight to how mourning vulnerability and invulnerability rage and beauty connect to human dignity
