<p>Begin in black - fade in first testimonial white script on black - Acadia has transformed itself... Cutting edge but human...high-tech, high-touch.</p> <p>Matthew Barrett, Chairman, CEO, Bank of Montreal</p> <p>Fade out white script</p>	No sound
<p>Cut to edited intro similar to Connect Acadia intro but with high energy shots of students in the fall at, for example, Homecoming weekend.</p>	Futuristic pop or light rock. Can't be heavy but has to be fast.
<p>Cross dissolve to Jill dressed casually in the Sub. Start with an extreme closeup of her face as she moves the cup away from her face. Pull back to a medium shot. She is standing and holding papers. Her laptop and work are visible on the table. There should be students moving in the background. Her full name (Jill Babuse) and home community appear as a subtitle. Everytime we see Jill in the video, she should be moving about with energy but also be extremely gregarious.</p>	Hi, I'm Jill, I'm a student at Acadia University.
<p>She puts the papers on the table and "talks with her hands". The shot should be tight yet include her hands which can sometimes go out of frame.</p>	In the next ten minutes I'm going to give you my ten reasons why Acadia is the university.

Television Series and Specials Scripts, 1946-1992, 2009-10-21 In the early days of television many of its actors writers producers and directors came from radio This crossover endowed the American Radio Archives with a treasure trove of television documents The collected scripts span more than 40 years of American television history from live broadcasts of the 1940s to the late 1980s They also cover the entire spectrum of television entertainment programming including comedies soap operas dramas westerns and crime series The archives cover nearly 1 200 programs represented by more than 6 000 individual scripts Includes an index of personal names program and episode titles and production companies as well as a glossary of industry terms *Film Scripts* George Garrett, O. The Pleasures of Structure Julian Hoxter, 2015-02-26 The Pleasures of Structure starts from the premise that the ability to develop a well understood and articulated story structure is the most important skill a screenwriter can develop For example good structure requires a great premise and rigorous character development Without clear character motivations and goals which are themselves indicative of key structural beats your story is going exactly nowhere Using the simple and flexible W model of screenplay structure developed in the prequel Write What You Don't Know Hoxter sets this out as its starting point This model is tested against a range of examples which are chosen to explore the flexibility not only of that model but of movie storytelling more generally Writers and students often worry that they are asked to work to formula This book will test that formula to breaking point For example the first case study will offer the example of a well written professional mainstream movie against which our later and more adventurous examples can be compared So the lessons we learn examining the animated family adventure movie How To Train Your Dragon lead us directly to ask questions of our second case study the acclaimed Swedish vampire movie L t den R tte Komma In Let The Right One In Both movies have protagonists with the same basic problem the same goal and they use the same basic structure to tell their stories Of course they are very different films and they work on their audiences in very different ways Our linked case studies will expose how simple choices like reversing the order of elements of the protagonist's transformational arc and shifting ownership of key story beats has an enormous impact on how we respond to a structural model that is otherwise functionally identical

So You Want to be a Writer: Discovering and Developing the Writer Within Dennis Sidney Martin, 2014-04-29 A book about all types of writing Recognizing discovering and developing as a writer

Television News and Human Rights in the US & UK Shawna M. Brandle, 2015-12-22 Does the CNN Effect exist Political communications scholars have debated the influence of television news coverage on international affairs since television news began especially in relation to the coverage of massive human rights violations These debates have only intensified in the last 20 years as new technologies have changed the nature of

news and the news cycle But despite frequent assertion little research into the CNN Effect or whether television coverage of human rights violations causes state action exists Bridging across the disciplines of human right studies comparative politics and communication studies in a way that has not been done this book looks at television news coverage of human rights in the US and UK to answer the question of whether the CNN Effect actually exists Examining the human rights content in television news in the US and UK yields insights to what television news producers and policy makers consider to be human rights and what if anything audiences can learn about human rights from watching television news After reviewing 20 years of footage using three different types of content analyses of American television news broadcasts and two different types of British news broadcasts and comparing those results with human rights rankings and print news coverage of human rights Shawns M Brandle concludes that despite rhetoric from both countries in support of human rights there is not enough coverage of human rights in either country to argue that television media can spur state action on human rights issues More simply the violations will not be televised A welcome and timely book presenting an important examination of human rights coverage on television news Journalist United States.
