Running Buildings on Natural Energy Sue Roaf,Fergus Nicol,2018-12-07 New thinking is essential if we are to design and occupy buildings that can keep us safe with unpredictable economies climates energy systems and resource challenges For too long designers have relied on mechanical solutions for heating cooling and ventilating buildings The 21st century dream has to be of a better architecture that enables buildings to be run for as much of a day or year as possible on local clean reliable affordable natural energy Examples are included from different climates where the fundamental building design is right its orientation opening sizes mass and its natural ventilation systems and pathways Many modern buildings are poorly designed for climate as manifested by growing incidences of overheating experienced indoor explored here The inability of many rating systems to record and improve the climatic design of buildings raises questions about how they deal with issues of basic building performance This books points the way towards how we can understand such problems and move forward from over mechanised poorly designed buildings to a new generation of adaptable buildings designed and refurbished to run largely on natural energy and capable of evolving over time to keep their occupants safe and comfortable even in a warming world The chapters were originally published in Architectural Science Review      Horns, Hogs, and Nixon Coming Terry Frei,2016-02-16 On December 6 1969 the Texas Longhorns and Arkansas Razorbacks met in what many consider the Game of the Century In the centennial season of college football both teams were undefeated both featured devastating and innovative offenses both boasted cerebral stingy defenses and both were coached by superior tacticians and stirring motivators Texas s Darrell Royal and Arkansas s Frank Broyles On that day in Fayetteville the poll leading Horns and second ranked Hogs battled for the South west Conference title and President Nixon was coming to present his own national

championship plaque to the winners Even if it had been just a game it would still have been memorable today The bitter rivals played a game for the ages before a frenzied hog callin crowd that included not only an enthralled President Nixon a noted football fan but also Texas congressman George Bush And the game turned improbably on an outrageously daring fourth down pass But it wasn't just a game because nothing was so simple in December 1969 In Horns Hogs Nixon Coming Terry Frei deftly weaves the social political and athletic trends together for an unforgettable look at one of the landmark college sporting events of all time
