But Valerie Steele's Paris Fashion is much more than just a history of great designers. This fascinating book demonstrates that the success of Paris ultimately rests on the strength of its fashion culture created by a host of fashion performers and spectators including actresses, dandies, milliners, artists, and writers. First published in 1988 to great international acclaim, this pioneering book has now been completely revised and brought up to date, encompassing the rise of fashion's multiple world cities in the 21st century. Lavishly illustrated, deeply learned, and elegantly written, Valerie Steele's masterwork explores with brilliance and flair why Paris remains the capital of fashion. *New York Magazine*, 1990-03-05. New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea.

A Shopping Guide to Paris and London Frances Sheafer Waxman, 2014-07-03. While London is certainly the shopping paradise of men, just as Paris has long been acknowledged the paradise of women, still both cities offer tempting attractions to voyagers of either sex, and the familiar aphorism "London for men's clothes and Paris for women's" may occasionally be reversed. The two cities are not so far apart despite racial prejudices, but that their standards sometimes overlap. To day a traveling woman may not deliberately go to London for French novelties, yet beautiful French blouses and model gowns may sometimes be picked up there out of season for a song. The choice London shops are most of them very small, and since they cannot carry a large stock, things are disposed of for what they will bring when it comes time to lay in a new supply. The women of Great Britain themselves will tell you that the time to look for bargains is late June. That is when they contrive if they buy cautiously, and what English person does not to be in London. June marks the closing of the social season. This still very interesting shopping guide is a reprint of the originally published book from 1912.
