Buying Into Change Alejandro J. Gómez del Moral, 2021-05 2023 Hagley Prize for Best Book in Business History Buying into Change examines how the development of a mass consumer society under the dictatorship of General Francisco Franco 1939 1975 inserted Spain into transnational consumer networks and set the stage for Spain's transition to democracy during the late 1970s This transition is broadly significant to both a Spanish public still struggling to redefine their society after Franco and to scholars who have long debated the origins of Spain's current democracy yet many aspects of it remain largely unexamined Buying into Change incorporates mass consumption into our understanding of Spain's democratic transition by tracing the spread and social impact of new foreign influenced department stores of imported innovations such as modern mass advertising and of consumer magazines that promoted foreign products Initially these enterprises backed Franco's conservative policies and the regime in turn encouraged consumption in order to improve its image both domestically and abroad Spain's new globally oriented commerce ultimately sold retailers and shoppers not just foreign ways of buying and selling but also subversive ideas Imported 1960s fashions brought along countercultural notions on issues such as gender equality And as Spaniards consumed more like their foreign neighbors they increasingly viewed themselves as cosmopolitan and European and identified with liberal political conditions abroad undermining Francoism's doctrine of national exceptionalism thus laying the social foundations for democratization and European integration in Franco's wake

Barcelona: An Urban History of Science and Modernity, 1888-1929 Oliver Hochadel, Agustí Nieto-Galan, 2016-04-14 The four decades between the two Universal Exhibitions of 1888 and 1929 were formative in the creation of modern Barcelona Architecture and art blossomed in the work of Antoni Gaudí and many others At the same time social unrest tore the city apart Topics such as art nouveau and anarchism have attracted the attention of numerous historians Yet the crucial role of science technology and medicine in the cultural makeup of the city has been largely ignored The ten articles of this book recover the richness and complexity of the scientific culture of end of the century Barcelona The authors explore a broad range of topics zoological gardens natural history museums amusement parks new medical specialties the scientific practices of anarchists and spiritists the medical geography of the urban underworld early mass media domestic electricity and astronomical observatories They pay attention to the agenda of the bourgeois elites but also to hitherto neglected actors users of electric technologies and radio amateurs patients in clinics and dispensaries collectors and visitors of museums working class audiences of public talks and female mediums Science technology and medicine served to exert social control but also to voice social critique Barcelona An urban history of science and modernity 1888 1929 shows that the city around 1900 was both a creator and facilitator of knowledge but also a space substantially transformed by the appropriation of this knowledge by its unruly citizens

Turismo de shopping Marta Magadán Díaz, Jesús Rivas García, 2014-10-01 El shopping como actividad ha sido objeto de estudio para diversos campos del conocimiento humano Y en este libro se ha querido comenzar la labor por el principio dejando constancia de las principales perspectivas desde las que se ha abordado el tema Desde ese punto de partida los autores han avanzado conjugando todas

esas visiones Todo ello sin perder de vista lo que el pensamiento académico ha venido estableciendo en relación a la tipología de compradores y su conexión con la forma de entender el shopping Una vez asentados los cimientos del estudio el shopping y sus posibles orientaciones se introduce otro elemento en la ecuación de la reflexión el turismo Y así se aborda el turismo de shopping como una forma o modalidad más de turismo explotada actualmente por destacados destinos A lo largo de todo el texto los autores han pretendido subrayar la importancia presente y futura del turismo de shopping [Spanish Spaces](#) Ann Davies,2012-01-01 Contemporary cultural geography and contemporary Spanish culture are married in this pioneering study of space and place Spain's varied terrain with complex negotiations between the rural urban and coastal offers an ideal setting in which to explore questions of landscape space and place In Spanish Spaces Ann Davies draws on contemporary Spanish film and literature to explore Spain's sophisticated sense of its geographical and spatial self [Artbibliographies Modern](#) ,2004

redELE nº 8. Revista electrónica de didáctica. Español como lengua extranjera , Striking Their Modern Pose Dorota Heneghan,2015-11-15 The importance of fashion in the construction and representation of gender and the formation of modern society in nineteenth century Spanish narrative is the focus of Dorota Heneghan's Striking Their Modern Pose The study moves beyond traditional interpretations that equate female passion for finery with symptoms of social ambition and the decline of the Spanish nation and brings to light the manners in which nineteenth century Spanish novelists drew attention to the connection between the complexities of fashionable female protagonists and the shifting limits of conventional womanhood to address the need to reformulate customary ideals of gender as a necessary condition for Spain to advance in the process of modernization The project also sheds light on an area largely unexplored by previous studies men's pursuit of fashion Through the analysis of the richness of sartorial subtleties in Benito Pérez Galdós and Emilia Pardo Bazón's portraits of their male characters this book brings forward these writers' exposure of the much denied bourgeois men's love for self adornment and the incoherencies and contradictions in the allegedly monolithic stable concept of nineteenth century Spanish masculinity While highlighting the ways in which the art of dressing smartly provided nineteenth century Spanish novelists with effective means to voice their critique of conventional gender order the book also lends insight into these authors' methods of manipulating sartorial signs to explore and to envision as in the case of Pardo Bazón and Jacinto Octavio Picón alternative models of masculinity and femininity Threading through all chapters of the study is the idea propagated by all three of these writers that Spain's full integration into modernity required not only the redefinition of the feminine role but the reconfiguration of the masculine one as well [Iberian Cities](#) Joan Ramon Resina,2013-01-11 This multi disciplinary study explores the explosion of cultural social linguistic and architectural development in urban and rural settlements on and surrounding the Iberian peninsula during the 20th century [Barcelona through open doors](#) Márius Carol, Antonio Espejo,1993 [Young People in Complex and Unequal Societies](#) ,2022-05-02 Youth studies in Latin America and Spain face numerous challenges This book delves into youth experiences in the 21st century shaped by complex
