Mark Woolmer,2021-09-09 Offering new insights based on recent archaeological discoveries in their heartland of modern day Lebanon Mark Woolmer presents a fresh appraisal of this fascinating yet elusive Semitic people Discussing material culture language and alphabet religion including sacred prostitution of women and boys to the goddess Astarte funerary custom and trade and expansion into the Punic west he explores Phoenicia in all its paradoxical complexity Viewed in antiquity as sage scribes and intrepid mariners who pushed back the boundaries of the known world and as skilled engineers who built monumental harbour cities like Tyre and Sidon the Phoenicians were also considered especially by their rivals the Romans to be profiteers cruelly trading in human lives The author shows them above all to have been masters of the sea this was a civilization that circumnavigated Africa two thousand years before Vasco da Gama did it in 1498 The Phoenicians present a tantalizing face to the ancient historian Latin sources suggest they once had an extensive literature of history law philosophy and religion but all now is lost In this revised and updated edition Woolmer takes stock of recent historiographical developments in the field bringing the present edition up to speed with contemporary understanding

*A Short History of Humanity* Johannes Krause,Thomas Trappe,2022-04-19 Thrilling a bracing summary of what we have learned from archaeogenetics the study of ancient DNA Krause and Trappe capture the excitement of this young field Kyle Harper The Wall Street Journal Johannes Krause is the director of the Max Planck Institute for Evolutionary Anthropology and a brilliant pioneer in the field of archaeogenetics archaeology augmented by DNA sequencing technology which has allowed scientists to reconstruct human history reaching back hundreds of thousands of years before recorded time In this surprising account Krause and journalist

Thomas Trappe rewrite a fascinating chapter of this history the peopling of Europe that takes us from the Neanderthals and Denisovans to the present We know now that a wave of farmers from Anatolia migrated into Europe 8 000 years ago essentially displacing the dark skinned blue eyed hunter gatherers who preceded them This Anatolian farmer DNA is one of the core genetic components of people with contemporary European ancestry Archaeogenetics has also revealed that indigenous North and South Americans though long thought to have been East Asian also share DNA with contemporary Europeans Krause and Trappe vividly introduce us to the prehistoric cultures of the ancient Europeans the Aurignacians innovative artisans who carved flutes and animal and human forms from bird bones more than 40 000 years ago the Varna who buried their loved ones with gold long before the Pharaohs of Egypt and the Gravettians big game hunters who were Europe s most successful early settlers until they perished in the ice age Genetics has earned a reputation for smuggling racist ideologies into science but cutting edge science makes nonsense of eugenics and pure bloodlines Immigration and genetic exchanges have always defined our species who we are is a question of culture not biological inheritance This revelatory book offers us an entirely new way to understand ourselves both past and present     A Survey of Israel's History Leon James Wood,1986 Since its first publication in 1970 this book has established itself as a popular useful text in Bible colleges and seminaries The usefulness of the book has been increased by the addition of a chapter on the Inter testamental Period     Organization, Representation, and Symbols of Power in the Ancient Near East Gernot Wilhelm,2012-07-07 In July 2008 the International Association for Assyriology met in W rzburg Germany for 5 days to deliver and listen to papers on the theme Organization Representation and Symbols of Power in the Ancient Near East This volume the proceedings of the conference contains 70 of the papers read at the 54th annual Rencontre including most of the papers from two workshop sessions one on collective governance and the other on the public and the state As the photo of the participants on the back cover demonstrates the surroundings and ambience of the host city and university provided a wonderful backdrop for the meetings     **External Research** United States.
