William Duffy,2021-01-04 Collaboration was an important area of study in writing for many years but interest faded as scholars began to assume that those working within writing studies already got it In *Beyond Conversation* William Duffy revives the topic and connects it to the growing interest in collaboration within digital and materialist rhetoric to demonstrate that not only do the theory pedagogy and practice of collaboration need more study but there is also much to be learned from the doing of collaboration While interrogating the institutional politics that circulate around debates about collaboration this book offers a concise history of collaborative writing theory while proposing a new set of commonplaces for understanding the labor of coauthorship Specifically *Beyond Conversation* outlines an interactionist theory that explains collaboration as the rhetorical capacity that manifests in the discursive engagements coauthors enter into with the objects of their writing Drawing on new materialist philosophies post qualitative inquiry and interactionist rhetorical theory *Beyond Conversation* challenges writing and literacy educators to recognize the pedagogical benefits of collaborative writing in the work they do both as writers and as teachers of writing The book will reinvigorate how teachers scholars and administrators advocate for the importance of collaborative writing in their work *Writing Rhetorically* Jennifer Fletcher,2023-10-10 In *Writing Rhetorically Fostering Responsive Thinkers and Communicators* author Jennifer Fletcher aims to cultivate independent learners through rhetorical thinking She provides teachers with strategies and frameworks for writing instruction that can be applied across multiple subjects and lesson plans Students learn to discover their own questions design their own inquiry process develop their own positions and purposes make their own choices about content and form and contribute to conversations that matter to them Inside this book Fletcher helps remove some of the scaffolding and explains how to put in practice some methods which can successfully foster Inquiry Invention and Rhetorical Thinking Writing for Transfer Paraphrasing Summary Synthesis and Citation Skills Research Skills and Processes Evidence Based Reasoning Rhetorical Decision Making Rhetorical decision making helps students develop the skills knowledge and mindsets needed for transfer of learning the ability to adapt and apply learning in new settings The more choices students make as writers the better prepared they are to analyze and respond to diverse rhetorical situations *Writing Rhetorically* shows teachers what it looks like to dig into real texts with students and novice writers and how it develops them for lifelong learning *Writing from the Margins* Carolyn Ericksen Hill,1990 *A Guide to Creating Student-staffed Writing Centers, Grades 6-12* Richard Kent,2006 Writing centers are places where writers work with each other in an effort to develop ideas discover a thesis overcome procrastination create an outline or revise a draft Ultimately writing centers help students

A Pedagogy of Possibility Kay Halasek,1999 In a book that itself exemplifies the dialogic scholarship it proposes Kay Halasek reconceives composition studies from a Bakhtinian perspective focusing on both the discipline's theoretical assumptions and its pedagogies Framing her discussions at every level of the discipline theoretical historical pedagogical Halasek provides an overview of portions of the Bakhtinian canon relevant to composition studies explores the implications of Mikhail Bakhtin's work in the teaching of writing and for current debates about the role of theory in composition studies and provides a model of scholarship that strives to maintain dialogic balance between practice and theory between composition studies and Bakhtinian thought Halasek's study ranges broadly across the field of composition painting in wide strokes a new picture of the discipline focusing on the finer details of the rhetorical situation and teasing out the implications of Bakhtinian thought for classroom practice by examining the nature of critical reading and writing the efficacy and ethics of academic discourse student resistance and critical and conflict pedagogy The book ends by setting out a pedagogy of possibility what Halasek terms elsewhere a post critical pedagogy that redefines and redirects current discussions of home versus academic literacies and discourses

Vernacular Eloquence Peter Elbow,2012-01-13 Since the publication of his groundbreaking books *Writing Without Teachers* and *Writing with Power* Peter Elbow has revolutionized how people think about writing Now in *Vernacular Eloquence* he makes a vital new contribution to both practice and theory The core idea is simple we can enlist virtues from the language activity most people find easiest speaking for the language activity most people find hardest writing Speech with its spontaneity naturalness of expression and fluidity of thought has many overlooked linguistic and rhetorical merits Through several easy to employ techniques writers can marshal this wisdom of the tongue to produce stronger clearer more natural writing This simple idea it turns out has deep repercussions Our culture of literacy Elbow argues functions as though it were a plot against the spoken voice the human body vernacular language and those without privilege making it harder than necessary to write with comfort or power Giving speech a central role in writing overturns many empty preconceptions It causes readers to think critically about the relationship between speech writing and our notion of literacy Developing the political implications behind Elbow's previous books *Vernacular Eloquence* makes a compelling case that strengthening writing and democratizing it go hand in hand

activity *The Construction of Authorship* Martha Woodmansee, Peter Jaszi, 1994 What is an author What is a text At a time when the definition of text is expanding and the technology whereby texts are produced and disseminated is changing at an explosive rate the ways authorship is defined and rights conferred upon authors must also be reconsidered This volume argues that contemporary copyright law rooted as it is in a nineteenth century Romantic understanding of the author as a solitary creative genius may be inapposite to the realities of cultural production Drawing together distinguished scholars from literature law and the social sciences the volume explores the social and cultural construction of authorship as a step toward redefining notions of authorship and copyright for today s world These essays illustrating cultural studies in action are aggressively interdisciplinary and wide ranging in topic and approach Questions of collective and collaborative authorship in both contemporary and early modern contexts are addressed Other topics include moral theory and authorship copyright and the balance between competing interests of authors and the public problems of international copyright musical sampling and its impact on fair use doctrine cinematic authorship quotation and libel alternative views of authorship as exemplified by nineteenth century women s clubs and by the Renaissance commonplace book authorship in relation to broadcast media and to the teaching of writing and the material dimension of authorship as demonstrated by Milton s publishing contract Contributors Rosemary J Coombe Margreta de Grazia Marvin D Lugo John Feather N N Feltes Ann Ruggles Gere Peter Jaszi Gerhard Joseph Peter Lindenbaum Andrea A Lunsford and Lisa Ede Jeffrey A Masten Thomas Pfau Monroe E Price and Malla Pollack Mark Rose Marlon B Ross David Sanjek Thomas Streeter Jim Swan Max W Thomas Martha Woodmansee Alfred C Yen **Teaching Toward Freedom** Geraldine DeLuca, 2018-04-09 Teaching Toward Freedom Supporting Voices and Silence in the English Classroom promotes teaching and learning that celebrate diversity and community through the systematic integration of traditionally non academic voices and mindfulness based contemplative practices By examining current scholarship and discussing novels and memoirs whose power is tied to freedom of expression this book argues that teachers should allow students to use and explore the various rhetorical registers that they bring to the classroom Through an innovative combination of narrative argument and literary analysis the book skillfully connects conversations about linguistic diversity and contemplative approaches in order to foster a compassionate space for learning in the college level English classroom **Positive Psychology in Higher Education** Acacia Parks, 2014-01-21 Positive psychology the scientific study of happiness is a rapidly burgeoning field and in no area more so than education More departments than ever are offering courses in positive psychology and demand for these courses is consistently high Graduate programs offering concentrations in positive psychology have appeared at both masters and doctoral level Educational institutions have expressed interest in using principles of positive psychology to inform institutional structure faculty development and pedagogy Positive psychology has been taught and applied in higher education for almost as long as it has existed as a field but there is little in the way of published literature that brings all of these developments together The

chapters in this volume represent the use of positive psychology at all levels of higher education from institutional practices and curricular development to pedagogy and the teaching of positive psychology content itself This book provides an in depth look at this exciting area of applied positive psychology which will be relevant to educators and administrators alike This book is based on a special issue of The Journal of Positive Psychology Center Will Hold Michael Pemberton,2003-12-01 In The Center Will Hold Pemberton and Kinkead have compiled a major volume of essays on the signal issues of scholarship that have established the writing center field and that the field must successfully address in the coming decade The new century opens with new institutional demographic and financial challenges and writing centers in order to hold and extend their contribution to research teaching and service must continuously engage those challenges Appropriately the editors offer the work of Muriel Harris as a key pivot point in the emergence of writing centers as sites of pedagogy and research The volume develops themes that Harris first brought to the field and contributors here offer explicit recognition of the role that Harris has played in the development of writing center theory and practice But they also use her work as a springboard from which to provide reflective descriptive and predictive looks at the field **Singular Texts/plural Authors** Lisa S. Ede,Andrea A. Lunsford,1992 Why write together the authors ask They answer that question here in the first book to combine theoretical and historical explorations with actual research on collaborative and group writing Lisa Ede and Andrea Lunsford challenge the assumption that writing is a solitary act That challenge is grounded in their own personal experience as long term collaborators and in their extensive research including a three stage study of collaborative writing supported by the Fund for the Improvement of Post Secondary Education The authors urge a fundamental change in our institutions to accommodate collaboration by radically resituating power in the classroom and by instituting rewards for collaborative work that equal rewards for single authored work They conclude with the injunction Today and in the twenty first century our data suggest writers must be able to work together They must in short be able to collaborate **Gamification in the RhetComp Curriculum** Christopher McGunnigle,2023-01-17 Gamification is an up and coming popular trend in all levels and types of education including public and private schools higher education the military the private sector and elsewhere Gamification introduces aspects of game design like teamwork competition rewards and prizes storytelling and more into lesson plan units In many cases actual games whether it be Scrabble Hangman Candy Crush Dungeons Dragons and many others are adapted into educational tools This chapter collection will specifically look at the use of gamification techniques in Freshmen Writing courses and related Composition Writing and Rhetoric classes Each chapter will provide sample gamified lessons supported by relevant scholarship in both Gamification Theory and Writing Studies Writing in the Undergraduate Sociology Curriculum Kay Stokes,2002
