Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1976 **The Short Story** Robert A. Rees, Barry Menikoff, 1975 **British Short Fiction in the Early Nineteenth Century** Tim Killick, 2016-05-23 In spite of the importance of the idea of the tale within Romantic era literature short fiction of the period has received little attention from critics Contextualizing British short fiction within the broader framework of early nineteenth century print culture Tim Killick argues that authors and publishers sought to present short fiction in book length volumes as a way of competing with the novel as a legitimate and prestigious genre Beginning with an overview of the development of short fiction through the late eighteenth century and analysis of the publishing conditions for the genre including its appearance in magazines and annuals Killick shows how Washington Irving's hugely popular collections set the stage for British writers Subsequent chapters consider the stories and sketches of writers as diverse as Mary Russell Mitford and James Hogg as well as didactic short fiction by authors such as Hannah More Maria Edgeworth and Amelia Opie His book makes a convincing case for the evolution of short fiction into a self conscious intentionally modern form with its own techniques and imperatives separate from those of the novel

Anthologisation and Irish Short Fiction Paul Delaney, 2025-03-28 This original new study explores the recent flowering of short fiction in Ireland analysing the production dissemination and reception of the short form in the twenty first century and reading contemporary short stories in their many configurations and guises This volume covers twenty five years of Irish writing beginning in late 1997 with the establishment of the innovative literary periodical *The Stinging Fly* and concludes in 2022 The book is structured in five parts with each part focusing on a particular mode of publication periodicals single author volumes short story cycles edited anthologies and small or independent presses Each part includes a series of case studies while also engaging with a diverse range of short story criticism and theory both comparative and Irish centered *Anthologisation and Irish Short Fiction* brings

different writers at distinct stages of their careers into conversation and This volume aims to illuminate the contemporaneous value of this body of work its innovative and varied use and the diversity of its practice Particular attention is also shown to the fluidity of the short form to its capacity to disrupt and arrest and to its progressive writerly potential **Reluctant**

Modernists Peter Edgerly Firchow, 2002 The essays collected here deal with modernist writers who on the whole felt reluctant about their modernist status because they believed that it was just as important to look backward as it was to look forward Indeed for most of them looking backward was more important because it was only through the past that one could understand one's proper place in the present and in the future That is why in Huxley's *Brave New World* it is the rejection of the past in the future and by implication in the present that makes its satire so penetrating Modernism in other words means for these writers not a radical break with the past but a continuing search for what still connects them and us vitally with it Peter Firchow Professor of English at the University of Minnesota is the author of several books on modern and modernist literary subjects including books on Huxley Conrad and Auden The publication of some of his hitherto uncollected essays in this volume is intended to honor Handbook of Transatlantic North American Studies Julia Straub, 2016-05-10

Transatlantic literary studies have provided important new perspectives on North American British and Irish literature They have led to a revision of literary history and the idea of a national literature They have changed the perception of the Anglo American literary market and its many processes of transatlantic production distribution reception and criticism Rather than dwelling on comparisons or engaging with the notion of influence transatlantic literary studies seek to understand North American British and Irish literature as linked with each other by virtue of multi layered historical and cultural ties and pay special attention to the many refractions and mutual interferences that have characterized these traditions since colonial times This handbook brings together articles that summarize some of the crucial transatlantic concepts debates and topics The contributions contained in this volume examine periods in literary and cultural history literary movements individual authors as well as genres from a transatlantic perspective combining theoretical insight with textual analysis Iconoclastic Departures Mary Wollstonecraft Shelley, 1997 *Iconoclastic Departures* contributes to the ongoing reevaluation of Mary Shelley as a professional author in her own right with a lifelong commitment to the development of her craft Many of its essays acknowledge the importance of her family to her work the steady theme of much earlier scholarship but for them the family has become an imperative socio psychological context within which to better understand her innovations in the many literary forms she worked with during her career journals letters travelogues biographies poems dramas tales and novels The book's essays also convey the conviction that even if Mary Shelley after Percy Shelley's death gradually retired from public life as his relatives wished she retained a resiliently resistant attitude toward many of the established orders of her day easily recovered by a careful look beyond her feelings to the productions of her literary imagination The Mary Shelley who inhabits this three part collection of portraits is a radical even if a quiet radical Part 1 focuses on various moments in her construction

of her authorial identity parts 2 and 3 anatomize the nature of her resistance and her innovation She is presented as a writer who reappropriates authority for herself who redesigns genres who redefines gender who rewrites history and biography who revises her readers aesthetic expectations and who protests cultural imperialism at home and abroad It seems significant to the contributors to this volume that this new radical Mary Shelley was not invented by a pointed call for papers but emerged spontaneously from an open invitation to scholars working in various corners of the English speaking world

Henry James The Shorter Fiction N.H. Reeve, 1997-05-13 Eleven essays representing a fresh engagement from a variety of critical positions with the tales and nouvelles of Henry James The collection contains new studies of well known stories such as *Daisy Miller* and *The Aspern Papers* and explorations of neglected areas for example James's earliest signed stories from the 1860s and such strikingly individual works as *Glasses* and *The Great Good Place* The contributors include several of today's most prominent Jamesians among them Tony Tanner Barbara Hardy Millicent Bell and Adrian Poole

The Geographies of African American Short Fiction Kenton Rambsy, 2022-03-25 Perhaps the brevity of short fiction accounts for the relatively scant attention devoted to it by scholars who have historically concentrated on longer prose narratives *The Geographies of African American Short Fiction* seeks to fill this gap by analyzing the ways African American short story writers plotted a diverse range of characters across multiple locations small towns a famous metropolis city sidewalks a rural wooded area apartment buildings a pond a general store a prison and more In the process these writers highlighted the extents to which places and spaces shaped or situated racial representations Presenting African American short story writers as cultural cartographers author Kenton Rambsy documents the variety of geographical references within their short stories to show how these authors make cultural spaces integral to their artwork and inscribe their stories with layered and resonant social histories The history of these short stories also documents the circulation of compositions across dozens of literary collections for nearly a century Anthology editors solidified the significance of a core group of short story authors including James Baldwin Toni Cade Bambara Charles Chesnutt Ralph Ellison Zora Neale

Hurston and Richard Wright Using quantitative information and an extensive literary dataset The Geographies of African American Short Fiction explores how editorial practices shaped the canon of African American short fiction Charlotte Perkins Gilman's the Yellow Wall-paper and the History of Its Publication and Reception Julie Bates Dock, 2010-11-01
