Short History Of Taiwan The Case For Independence:

A Short History of Taiwan Gary M. Davison, 2003-10-30 This concise account of Taiwan's history makes a cogent compelling argument for the right of the Taiwanese people to declare their nation independent if they so choose Davison's bold stand unprecedented from a Western author challenges the one China notion advanced in the Shanghai Communiqué of 1972 and states unequivocally that should independence be proclaimed it could only be taken away by force if the international community sides with contemporary might over historical right He argues that the possible conflict could be sufficiently incendiary to induce a major military clash between the United States the People's Republic of China and other major powers Davison lets the facts of Taiwanese history make the case for Taiwan's existence as a unique national entity A historical overview details the circumstances under which the Qing dynasty made its 17th century claim on the island the events that led to cession to Japan in 1895 the origins of the Guomintang occupation during the Chinese Civil War and the dramatic election of March 2000 that brought the Democratic Progressive Party's Chen Shuibian to office ending Guomintang domination After centuries of outsider domination and over a hundred years of disconnection from any government exercising power over all of mainland China the Taiwanese people are in a position to make a decision for national independence based on solid historical evidence *A Short History Of Taiwan* , **Security Challenges and**

Military Politics in East Asia Jongseok Woo, 2011-02-24 This comparative work examines the political role played by armed forces in South Korea Indonesia the Philippines and Taiwan The work brings together theory and empirical study analyzing how security threats have shaped the military's organization doctrine and domestic political role at various stages of political development from the state building period to today's post democratization era Using four representative case studies Woo sets to answer What determines the armed forces political influence How does it affect political development How do democratically elected leaders establish civilian control over them The book first looks at how security threats led to military expansion and authoritarianism at the onset of the Cold War Next it examines military dictatorial rule followed by a study of the military's withdrawal process during democratization Lastly it focuses on contemporary civil military dynamics in the four countries discussing the obstacles faced by civilian authority and what maybe the most desirable model for civil military relations in post democratization Asian societies *Security Challenges and Military Politics in East Asia* will be an essential resource for anyone studying Asian political development civil military relations and comparative democratization

Taiwanese Identity and Democracy O. Bedford, K. Hwang, 2006-09-02 This book examines the issues of democracy nationalism and strengthening Taiwan consciousness in the light of the campaign strategies employed in Taiwan's 2004 presidential and legislative election from the perspective of the Taiwanese people and Taiwanese culture Particular attention is paid to the mindset of the opposition party *Taiwanese Identity in the 21st Century* Gunter Schubert, Jens

Damm, 2012-01-30 As we look to enter the second decade of the 21st century Taiwan's quest for identity remains the most

contentious issue in the domestic arena of Taiwanese politics From here it spills over into the cross Strait relationship and impacts on regional and global security Whether Taiwan is a nation state or whether Taiwan has any claim to be a nation state and how Taiwan should relate to China are issues which have long been hotly debated on the island although it seems that much of this debate is now more focused on finding an adequate strategy to deal with the Beijing government than on the legitimacy of Taiwan's claim to sovereignty as the Republic of China The collection of chapters in this book shed light on very different aspects of Taiwan's current state of identity formation from historical political social and economic perspectives both domestically and globally As such it will be invaluable reading for students and scholars of Taiwan studies politics history and society as well as those interested in cross Strait relations Chinese politics and Chinese international relations

Global Encounters Paoi Hwang 王寶瑛, 2013-01-01 Taiwan's status as an island surrounded by powerful nation states has forced upon it a history of permeable borders and an ever fluctuating cultural subjectivity Originally inhabited by Austronesian tribal peoples the island has over the centuries fallen under the political economic and cultural influences of the Spanish Dutch Japanese and Chinese occupiers Globalization has further transformed and complicated Taiwan's vistas of political reforms cultural productions and ethnic re composition Such gradual but radical transformation has in countless ways encouraged the nation state identity and identification to vacillate between insularism and globalization This collection is an example of the multitude of voices that speak for Taiwan These selected essays contributed by scholars from different countries Canada Hong Kong Singapore Taiwan UK and USA engage with the debates on Taiwan's identity and nationhood while also attempting to step beyond the nationalistic frame Whereas the openness to

new ideas may alter our perspectives this collection reminds us to embrace external influences without forgetting to celebrate our unbroken unique historical legacy

Foreign Practices Sasha Mullally, David Wright, 2020-11-18 When the CBC organized a national contest to identify the greatest Canadian of all time few were surprised when the father of Medicare Tommy Douglas won by a large margin Medicare is central to Canadian identity Yet focusing on Douglas and his fight for social justice obscures other important aspects of the construction of Canada s national health insurance especially its longstanding dependence on immigrant doctors Foreign Practices reconsiders the early history of Medicare through the stories of foreign trained doctors who entered the country in the three decades after the Second World War By making strategic use of oral history analyzing contemporary medical debates and reconstructing doctors life histories Sasha Mullally and David Wright demonstrate that foreign doctors arrived by the hundreds at a pivotal moment for health care services Just as Medicare was launched Canada began to prioritize highly skilled manpower when admitting newcomers a novel policy that drew thousands of professionals from around the world Doctors from India and Iran Haiti and Hong Kong and Romania and the Republic of South Africa would fundamentally transform the medical landscape of the country Charting the fascinating history of physician immigration to Canada and the ethical debates it provoked Foreign Practices places the Canadian experience within a wider context of global migration after the Second World War

Forgotten Aviator Barry S. Martin, 2011 OUT OR WAR TORN SKIES A LEGENDARY PILOT IS BORN Royal Leonard 1905 1962 flew in and out of aviation history just on the edge of fame His exploits mirror important developments in the Golden Age of American Aviation 1925 1941 and the Sino Japanese War

1937 1945 If Royal's story were told in a novel, says long-time China pilot and author Felix Smith, nobody would believe it all could have happened to one man. Royal learned his craft at the West Point of the Air in San Antonio, Texas. As a Western Air Express night mail pilot, he pioneered blind flying along the treacherous Rocky Mountains. As a TWA pilot, he introduced celestial navigation. An early Airline Pilots Association (ALPA) officer, he fought for mail plane safety at the cost of his job. He flew the Lockheed Orion in which Wiley Post and Will Rogers later crashed and attributed their fatal accident to a surprising cause. During the 1930s, a handful of elite pilots were racers. Jackie Cochran selected Royal as a copilot for the MacRobertson Race of the Century between England and Australia. Royal also competed in the Bendix Death Race in a Gee Bee Widow Maker. Before World War II, Royal worked for the Chinese warlord known as the Young Marshal, who kidnapped Nationalist dictator Chiang Kai-shek and changed the course of Chinese history. Royal provided Communist political commissar Chou En-lai his first plane ride and later served as Chiang Kai-shek's personal pilot. During the war, Royal's roles were unique. Claire Chennault chose him to command the Flying Tigers Bomber Group. Royal briefed Colonel Jimmy Doolittle on Chinese landing fields for the Tokyo Raid. Royal, Chennault, and Madame Chiang Kai-shek planned their own Tokyo bombing raid. Royal survived flying the Skyway to Hell over the Hump for China National Aviation Corporation. No wonder, after a perilous flight, war correspondent Martha Gellhorn described Royal as her hero. Author's Biography: The author has spent twenty years uncovering a rich trove of private documentary sources about the Forgotten Aviator. Martin is a Phi Beta Kappa graduate of the College of William and Mary and has an M.A. in history from the University of Washington and a J.D. from the University of California, Berkeley. He is a retired Administrative Law Judge and resides in Sacramento, California, with his wife Carolyn.

Taiwan John F. Copper, 2018-05-04 In this newly revised and updated edition of *Taiwan: Nation, State, or Province*, John F. Copper examines Taiwan's geography and history, society and culture, economy, political system, and foreign and security policies in the context of Taiwan's uncertain political status as either a sovereign nation or a province of the People's Republic of China. Copper argues that Taiwan's very rapid and successful democratization suggests Taiwan should be independent and separate from China, while economic links between Taiwan and China indicate the opposite. New to the sixth edition is enhanced coverage of the issues of immigration, the impact of having the world's lowest birthrate, China's economic and military rise, and America's decline. Taiwan's relations with China, the United States, and Japan, and the KMT's Nationalist Party return to power. The new edition will also examine the implications of the 2012 presidential election. A selected bibliography guides students in further research. Culturing Interface Hsin-I Cheng, 2008 This book investigates the experiences of a Chinese and Taiwanese community on the U.S.-Mexico border from a critical communication perspective. Based on ethnographic material from El Paso, Juárez, the book critically explores the processes of identity crafting in accordance with the global geopolitical landscape. strategically accomplished through communication In tracing the forces behind these transnational movements and understanding the multiple worlds of travelers and dwellers *Culturing Interface* brings to light the previously unheard voices of the Chinese people on the U S Mexico border *Humanitarians in Hostile Territory* Peter W Van Arsdale, Derrin R Smith, 2017-03-02 More than ever humanitarian aid workers and diplomats are engaging with vulnerable populations in areas once considered too dangerous to touch Drawing on decades of on the ground experience in conflict environments around the world Van Arsdale and Smith offer this important and revealing guide to the ethics theory and practice of work outside so called Green Zones of safety On behalf of governments or NGOs on missions ranging from complex humanitarian emergencies to post war reconstruction social scientists in interdisciplinary teams are operating in settings where the line between civilian and military projects is increasingly blurred This book is essential reading for anyone who wants to understand the realities of these new humanitarianisms and for the fields of international relations anthropology development studies and peace studies
