Hermeneutics and the Problem of

Translating Traditional Arabic Texts

Alsayed M. Aly Ismail, 2017-08-21

This book focuses on the problematic issues arising when translating and interpreting classical Arabic texts which represent a challenging business for many scholars especially with regards to religious texts. Additionally, the reception of these interpretations and translations not only informs the perception of Muslims and their awareness of the outside world but also impacts the vision and perception of non-Muslims of Islam and the Muslim world. Consequently, this book reconsiders the concepts of understanding and interpretation and their nexus in the mechanism of translation and proposes a novel hermeneutic method of translating, interpreting, and understanding traditional and classical Arab texts. Handling the issues of understanding from a hermeneutical perspective is shown here to remove the possibility of translation and interpretation rendering a distorted translated text. Drawing on the powerful interpretive theories of Hans Georg Gadamer and Martin Heidegger, the hermeneutic method of translation starts from a premise that the meaning of a classical text cannot be deduced solely by linguistic analysis of its words but requires in-depth investigation of the invisible contextual elements that control and shape its meaning. Traditional texts are seen in this model as travelling texts whose meaning is transformed across time and space. The hermeneutic method of translation allows the translator to identify those elements from the real world that informed a classical text at the time of its writing so that it can be adapted and made relevant to its contemporary context. Traditional texts can enlighten our minds and cultivate our souls; religious texts can elevate our behavior and thinking and help refine our confused contemporary lives. When texts become isolated from their world, they lose this lofty goal of enlightenment and elevation.

A Practical Primer on Theological Method will help you answer these questions. This primer is not only a how-to manual for doing theology but a handbook of etiquette for doctrinal discussions with other believers. This popular-level introductory text presents the proper manner, mode, and means of engaging fruitfully in theology.

Dietrich Bonhoeffer's Christian Humanism

Jens Zimmermann, 2019-06-13 Jens Zimmermann locates Bonhoeffer within the Christian humanist tradition extending back to patristic theology. He begins by explaining Bonhoeffer's own use of the term humanism and Christian humanism and considering how his criticism of liberal Protestant theology prevents him from articulating his own theology rhetorically as a Christian humanism. He then provides an in-depth portrayal of Bonhoeffer's theological anthropology and establishes that Bonhoeffer's Christology and attendant anthropology closely resemble patristic teaching. The volume also considers Bonhoeffer's mature anthropology focusing in particular on the Christian self. It introduces the hermeneutic quality of Bonhoeffer's theology as a further important feature of his Christian humanism. In contrast to secular and religious fundamentalisms, Bonhoeffer offers a hermeneutic understanding of truth as participation in the Christ event that makes interpretation central to human knowing. Having established the hermeneutical structure of his theology and his personalist configuration of reality, Zimmermann outlines Bonhoeffer's ethics as Christformation. Building on the hermeneutic theology and participatory ethics of the previous chapters, he then shows how a major part of Bonhoeffer's life and theology, namely his dedication to the Bible as God's word, is also consistent with his Christian humanism.

Qur'an of the Oppressed

Shadaab Rahemtulla, 2017-02-09 This study analyses the commentaries of four Muslim intellectuals who have turned to scripture as a liberating text to confront an array of problems from patriarchy, racism, and empire to poverty and interreligious communal violence. Shadaab Rahemtulla considers the exegeses of the South African Farid Esack (b. 1956), the Indian Asghar Ali Engineer (1939–2013), the African American Amina Wadud (b. 1952), and the Pakistani American Asma Barlas (b. 1950). Rahemtulla examines how these intellectuals have been able to expound this seventh-century Arabian text in a socially liberating way, addressing their own lived realities of oppression and thus contexts that are worlds removed from that of the text's immediate audience. Through a close reading of their works, he underlines the importance of both the ethico-social content of the Qur'an and their usage of new and innovative reading practices. This work provides a rich analysis of the thought ways of specific Muslim intellectuals, thereby substantiating a broadly framed school of thought. Rahemtulla draws out their specific and general importance without displaying an uncritical sympathy. He sheds light on the impact of modern exegetical commentary, which is more self-consciously concerned with historical context and present realities. In a mutually reinforcing way, this work thus illuminates both the role of agency and hermeneutical approaches in modern Islamic thought.

SCM Core Text: Theological Hermeneutics Alexander Jensen, 2007-06-28 This book introduces theological hermeneutics by giving a historical account of the development of hermeneutical thinking. It defines hermeneutics as the analysis of the obstacles to understanding. The history of hermeneutical thinking and responses to obstacles is told here, beginning with the allegorical interpretation of myths in Hellenism through to the contemporary view of the hermeneutical problem as universal. Following the opening chapters on the history of hermeneutical thought, the book presents an overview of the various contemporary hermeneutical

schools of thought and shows their rootedness in different parts of the hermeneutical tradition. The focus is clearly on biblical interpretation; however, it does also take account of developments outside the field of theology as they influence the theological reflection on the hermeneutical problem. The questions raised and the possible answers suggested in this volume will be of interest to students of other disciplines such as philosophy and literature.

The Thinking Historian Eric W. Sager, 2025-01-27

What is history? What are historians doing when we create our histories? The need for answers is more urgent than ever. We live in an era when history is often rejected or ignored and when all teachers of history confront formidable challenges. In the culture of screen capitalism and social media, historical knowledge is evaded in an expanding present-minded consciousness. How can history be defended and what is it that we are defending? This book argues that history is a mode of thinking, a form of imaginative reasoning with its own informal logic. In non-technical language and using examples from important works of history, the book defines core elements in historical thinking. These include contingency, complexity, temporality, parts and wholes, consilience, perspectives, analogy, and abduction. These elements are subsumed into the concept of imaginative reasoning. The overall argument echoes the work of hermeneutic philosophers. History is a disciplined imagination, tempered and empowered by its forms of reasoning. It embraces ethical imperatives that the historian has a duty to declare. Equipped with such understanding, historians may answer the many rejections of history and secure its place in our shared futures.

Systematic Theology as a Rationally Justified Public Discourse about God Michael Agerbo Mørch, 2023-01-23

For centuries it has been discussed whether systematic theology is a scientific discipline. But it is not obvious what is meant by either systematic theology or scientific discipline. Michael Agerbo Mørch presents an understanding of systematic theology as a tripartite discipline and science as a rationally justified public discourse about a given topic. Systematic theology is shown to meet the most generally accepted criteria for scientific work since its theories can be tested and even falsified in an intersubjective setting. This can be done by the most proper tool we have for assessing and comparing scientific theories, which is coherence theory. Therefore, even though systematic theology is a distinct and normative discipline, it is not compromising for its theories because it can present its theses in a transparent way that can be checked and criticized by peers and compared to relevant alternatives. As such, the book shows that systematic theology is a scientifically strong discourse that meets accepted criteria to the same degree as other disciplines.

Sacred and Secular Transactions in the Age of Shakespeare Katherine Steele Brokaw, Jason Zysk, 2019-08-15

The term secular inspires thinking about disenchantment, periodization, modernity, and subjectivity. The essays in *Sacred and Secular Transactions in the Age of Shakespeare* argue that Shakespeare's plays present secularization not only as a historical narrative of progress but also as a hermeneutic process that unleashes complex and often problematic transactions between sacred and secular. These transactions shape ideas about everything from pastoral government and performative language to wonder and the spatial imagination. Thinking about Shakespeare and secularization also involves thinking about how to interpret history and

temporality in the contexts of Shakespeare's medieval past the religious reformations of the sixteenth century and the critical dispositions that define Shakespeare studies today These essays reject a necessary opposition between sacred and secular and instead analyze how such categories intersect In fresh analyses of plays ranging from Hamlet and The Tempest to All's Well that Ends Well and All Is True secularization emerges as an interpretive act that explores the cultural protocols of representation within both Shakespeare's plays and the critical domains in which they are studied and taught The volume's diverse disciplinary perspectives and theoretical approaches shift our focus from literal religion and doctrinal issues to such aspects of early modern culture as theatrical performance geography race architecture music and the visual arts

The Bible and the Environment David G. Horrell, 2015-08-12 The biblical and Christian traditions have long been seen to have legitimated and encouraged humanity's aggressive domination of nature Biblical visions of the future with destruction for the earth and rescue for the elect have also discouraged any concern for the earth's future or the welfare of future generations But we now live in a time when environmental issues are at the centre of political and ethical debate What is needed is a new reading of the biblical tradition that can meet the challenges of the ecological issues that face humanity at the beginning of the third millennium *The Bible and the Environment* examines a range of biblical texts from Genesis to Revelation evaluating competing interpretations The Bible provides a thoroughly ambivalent legacy Certainly it cannot provide straightforward teaching on care for the environment but nor can it simply be seen as an anti-ecological book Developing an ecological hermeneutic as a way of mediating between contemporary concerns and the biblical text *The Bible and the Environment* presents a way of productively reading the Bible in the context of contemporary ecology

Salty Wives, Spirited Mothers, and Savvy Widows F. Scott Spencer, 2012-12-19 Engaging feminist hermeneutics and philosophy in addition to more traditional methods of biblical study *Salty Wives Spirited Mothers and Savvy Widows* demonstrates and celebrates the remarkable capability and ingenuity of several women in the Gospel of Luke While recent studies have exposed women's limited opportunities for ministry in Luke Scott Spencer pulls the pendulum back from a negative feminist critical pole toward a more constructive center Granting that Luke sends somewhat mixed messages about women's work and status as Jesus disciples Spencer analyzes such women as Mary Elizabeth Joanna Martha and Mary and the infamous yet intriguing wife of Lot whom Jesus exhorts his followers to remember as well as the unrelentingly persistent women characters in Jesus parables
