A History of Modern Political Thought Gary Browning, 2016-10-27 How are we to understand past political thinkers? Is it a matter simply of reading their texts again and again? Do we have to relate past texts of political thought to the contexts in which ideas were composed and in which the aims of past thinkers were formulated? Or should past political theories be deconstructed so as to uncover not what their authors maintain but what the texts reveal? In this book, theories of interpreting past political thinkers are examined and the interpretive methods of a range of theories are reviewed, including those of Hegel, Marx, Oakeshott, Collingwood, the Cambridge School, Foucault, Derrida, and Gadamer. The application of these theories of interpretation to notable modern political theorists, Machiavelli, Hobbes, Locke, Rousseau, Kant, Hegel, Marx, Bentham, Mill, Nietzsche, and Beauvoir, is then used as a way of understanding modern political thought and of assessing interpretive theories of past political thought. The result is a book which sees the history of modern political thought as more than a procession of political theories but rather as a reflection on the meaning of past political thought and its interpretation. It provides a way of reading the history of modern political thought in which the question of interpretation matters both for understanding how we interpret the past but also for considering what it means to undertake political thinking.

Parish, 1997 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company *Conceptions of Space in Intellectual History* Daniel S. Allemann, Anton Jäger, Valentina Mann, 2020-06-09 This volume takes a fresh approach to the issue of space in intellectual

history and puts forward novel ways of rendering conceptions of space useful for historians of political thought. Notions of space have become increasingly important to the practice of intellectual historians in recent years. This is evidenced by emerging locutions such as the international turn, global intellectual history and political space. Thus far, however, it is still unclear what it actually means to take space seriously in intellectual history and what we might gain from doing so. Ranging from the early modern period to the twentieth century, the contributions to this volume span a variety of diverse topics and showcase the rewards of a spatial focus in intellectual history both as a kind of place and as an organising principle. The book reconstructs the role of the modern territorial state in grounding reflection on political legitimacy, the interface between oceans and empires as a source of political reflection and the curious antecedents of today's spatial turn in German and Indian visions of geopolitics in the interwar years. In doing so, it makes a contribution to an ever-growing field. This book was originally published as a special issue of *Global Intellectual History*. *Slavery and the American Founding* Jude M. Pfister, 2025-03-03 Since 1776 the Founding generation has been portrayed as creators of a new world where liberty and freedom were the inherent birthright of all peoples. The Founders, although brilliant, were nonetheless human and fashioned a country conceived in liberty and freedom for themselves. The enslaved women and other minorities were not part of the original Founding documents. All men created equal was a political statement, not some ethereal message of Enlightenment understanding. This book demonstrates that to understand the American Founding is to understand the totality of America. The American Founding and the so-called compromises forged by state delegates to ensure national unity despite existing alternatives that could have rejected enslavement defined the period from 1765 to 1800 and planted the seeds for a horrific civil war. Two of the most debated words from the Age of Enlightenment, freedom and liberty, not only made America independent but also made it dependent on an execrable system rejected by most of the European thinkers who inspired the uprising against Britain. **The Routledge History of East Central Europe Since 1700** Irina Livezeanu, Arpad von Klimó, 2017-03-16 Covers territory from Russia in the east to Germany and Austria in the west, exploring the origins and evolution of modernity in this region.
