Lost in the Mirror Richard Maskovitz, 2001-03-01 Borderline personality disorder accounts for almost 25 percent of psychiatric hospitalizations in this country *Lost in the Mirror* takes readers behind the erratic behavior of this puzzling disorder examining its underlying causes and revealing the unimaginable pain and fear beneath its surface **The Lost Archive** Marina Rustow, 2020-01-14 A compelling look at the Fatimid caliphate's robust culture of documentation The lost archive of the Fatimid caliphate 909-1171 survived in an unexpected place the storage room or geniza of a synagogue in Cairo recycled as scrap paper and deposited there by medieval Jews Marina Rustow tells the story of this extraordinary find inviting us to reconsider the longstanding but mistaken consensus that before 1500 the dynasties of the Islamic Middle East produced few documents and preserved even fewer Beginning with government documents before the Fatimids and paper's westward spread across Asia Rustow reveals a millennial tradition of state record keeping whose very continuities suggest

the strength of Middle Eastern institutions not their weakness Tracing the complex routes by which Arabic documents made their way from Fatimid palace officials to Jewish scribes the book provides a rare window onto a robust culture of documentation and archiving not only comparable to that of medieval Europe but in many cases surpassing it Above all Rustow argues that the problem of archives in the medieval Middle East lies not with the region's administrative culture but with our failure to understand preindustrial documentary ecology Illustrated with stunning examples from the Cairo Geniza this compelling book advances our understanding of documents as physical artifacts showing how the records of the Fatimid caliphate once recovered deciphered and studied can help change our thinking about the medieval Islamic world and about premodern polities more broadly *The Lost Self* Todd E. Feinberg M.D., Julian Paul Keenan, 2005-07-14

The Lost Self Pathologies of the Brain and Identity is an in depth exploration into one of the most mysterious and controversial topics in neuroscience neurology psychiatry and psychology namely the search for the biological basis of the self *The Lost Self* is a guide to understanding how the brain creates who we are and what happens when things go wrong **The Mirrors of Tuzun Thune, and The Lost Race (Esprios Classics)** Robert E.
