Magician Of The Modern Chick Austin And The Transformation Of The Arts In America:

Magician of the Modern Eugene R. Gaddis, 2011-11-09 The story of Chick Austin is the story in Virgil Thomson's words of a whole cultural movement in one man. Becoming director of Hartford's Wadsworth Atheneum at the age of twenty-six, Austin immediately set about to introduce modern art to America and to transform this conservative insurance capital into a cultural mecca that would become the talk of the art world during the yeasty years between the two world wars. The first in the United States to mount a major Picasso retrospective, Austin was soon acquiring works by Dalí, Mondrian, Miró, Balthus, Max Ernst, and Alexander Calder. In the museum's new theater, which he designed, he staged the premiere of the revolutionary Gertrude Stein and Virgil Thomson opera *Four Saints in Three Acts* with an all-black cast. At Lincoln Kirstein's instigation, he brought Balanchine to America. And he embraced all the new art forms, making film, photography, architecture, and contemporary music part of the life of his museum. For his own family, he built a Palladian villa, now a recently restored national historic landmark, filling it with the baroque and the Bauhaus and inviting all the locals in to see how it felt to be modern. Austin's instinct for quality proved infallible. Whether acquiring a matchless Caravaggio or a startling Dalí, he balanced the old masters with the modern. Mounting provocative shows that linked the past to the present, he created dramatic installations and he threw himself into everything, hanging fabrics, creating backdrops, stitching up costumes. He loved to teach, to paint, to act, to give lavish costume balls, and to dazzle audiences of all ages with his performances as a magician. The Great Osram. Brilliant at using his magician's sleight of hand, he could manipulate his conservative trustees to get what he wanted, but only up to a point. One more purchase of an incomprehensible abstract canvas, one outrageous party, too many, one more shocking theatrical role, eventually led to a crisis. Never one to be idle for long, Austin left Hartford and took on a new challenge: to make an artistic triumph of the pink and white palace in Sarasota, Florida, known as the John and Mable Ringling Museum of Art, which housed the circus king's moldering but magnificent collection. Here is the colorful life of Chick Austin, and as we relish his audacious career, the risks he took, the successes he enjoyed, along with the inevitable setbacks, we understand what a far-reaching influence he had on the way Americans look at and think about art. Not only a brilliant portrait of an extraordinary man, this wonderfully American story gives us a fascinating behind-the-scenes glimpse into the art world as it was then and in many ways still is today.

Partners in Design David A. Hanks, 2015-10-27 The 1920s and 1930s saw the birth of modernism in the United States, a new aesthetic based on the principles of the Bauhaus in Germany: its merging of architecture with fine and applied arts and rational functional design devoid of ornament and without reference to historical styles. Alfred H. Barr Jr., the then 27-year-old founding director of the Museum of Modern Art, and 23-year-old Philip Johnson, director of its architecture department, were the visionary young proponents of the modern approach. Shortly after meeting at Wellesley College, where Barr taught art history and as Johnson finished his studies in philosophy at Harvard, they set out on a path that would transform the museum world and change the course of design in America. The

Museum of Modern Art opened just over a week after the stock market crash of 1929 In the depths of the Depression using as their laboratories both MoMA and their own apartments in New York City Barr and Johnson experimented with new ideas in museum ideology extending the scope beyond painting and sculpture to include architecture photography graphic design furniture industrial design and film with exhibitions of ordinary machine made objects including ball bearings and kitchenware elevated to art by their elegant design and with installations in dramatically lit galleries with smooth white walls Partners in Design which accompanies an exhibition opening at the Montreal Museum of Fine Arts in April 2016 chronicles their collaboration placing it in the larger context of the avant garde in New York 1930s salons where they mingled with Julien Levy the gallerist who brought Surrealism to the United States and Lincoln Kirstein co founder of the New York City Ballet their work to help Bauhaus artists like Josef and Anni Albers escape Nazi Germany and the dissemination of their ideas across the United States through MoMA s traveling exhibition program Plentifully illustrated with icons of modernist design MoMA installation views and previously unpublished images of the Barr and Johnson apartments domestic laboratories for modernism and in Johnson s case designed and furnished by Ludwig Mies van der Rohe this fascinating study sheds new light on the introduction and success in North America of a new kind of modernism thanks to the combined efforts of two uniquely discerning and influential individuals

Europe Mounted in the shadow of war the groundbreaking exhibition Picasso Forty Years of His Art would launch Picasso in America define MoMA as we know it and shift the focus of the art world from Paris to New York Picasso's War is the never before told story about how a single exhibition a decade in the making irrevocably changed American taste and in doing so saved dozens of the twentieth century's most enduring artworks from the Nazis Through a deft combination of new scholarship and vivid storytelling Hugh Eakin shows how two men and their obsession with Picasso changed the art world forever

Buying Baroque Edgar Peters Bowron, 2017-03-01 Although Americans have shown interest in Italian Baroque art since the eighteenth century, Thomas Jefferson bought copies of works by Salvator Rosa and Guido Reni for his art gallery at Monticello and the seventeenth century Bolognese school was admired by painters Benjamin West and John Singleton Copley, a widespread appetite for it only took hold in the early to mid twentieth century. *Buying Baroque* tells this history through the personalities involved and the culture of collecting in the United States. The distinguished contributors to this volume examine the dealers, auction houses and commercial galleries that provided access to Baroque paintings as well as the collectors, curators and museum directors who acquired and shaped American perceptions about these works, including Charles Eliot Norton, John W. Ringling A. Everett Austin Jr and Samuel H. Kress. These essays explore aesthetic trends and influences to show why Americans developed an increasingly sophisticated taste for Baroque art between the late eighteenth century and the 1920s and they trace the fervent peak of interest during the 1950s and 1960s. A wide ranging in depth look at the collecting of seventeenth and eighteenth century Italian paintings in America, this volume sheds new light on the cultural conditions that led collectors to value Baroque art and the significant effects of their efforts on America's greatest museums and galleries. In addition to the editor, contributors include Andrea Bayer, Virginia Brilliant, Andria Derstine, Marco Grassi, Ian Kennedy, J. Patrice Marandel, Pablo Perez d'Ors, Richard E. Spear and Eric M. Zafran.

Florence, Berlin and Beyond: Late Nineteenth-Century Art Markets and their Social Networks, 2020-06-22 Recent and increasing interest in art market studies, the dealers, mediators, advisors, taste makers, artists etc, indicate that the transaction of art and decorative art is anything but linear. Taking as its point of departure two of the most active agents of the late nineteenth century, Wilhelm von Bode and Stefano Bardini, the essays in this volume also look beyond to other art market individuals and their vast and frequently interconnected social and professional networks. Newly told history taken from rich business, epistolary and photographic archives, these essays examine the art market within a broader and more complex context. In doing so, they offer new areas of inquiry for mapping of works of art as they were exchanged over time and place.
