Magie Mythos Religion:

Magie, Mythos, Religion Hannsferdinand Döbler, 1972 , *Demonology and Witchcraft* Jean-Pierre Coumont, 2021-11-01 Extensive bibliography on demonology and witchcraft systematically describing all materials including books monographs conference reports and doctoral dissertations covering these subjects subjects from the 15th century to the 21st century 5000 entries and indices on author subject and anonymous works **Where the Spirits Ride the Wind** Felicitas D. Goodman, 2021-12-22 Dr Goodman has pioneered in the study of bodily postures and altered states of consciousness Stanley Krippner professor of personal mythology and parapsychology And suddenly the understanding of my own vision washed over me like a mighty wave For life or for death I was committed to that mighty realm of which I was shown a brief reminder the world where all was forever motion and emergence that realm where the spirits ride the wind from the Prologue Anthropologist and spiritual explorer Felicitas Goodman reexamines our notions of the nature of reality by studying the ritual postures of native art assumed by her subjects during trance states For readers desiring to discover this world of ancient myths she has included a practical guide on how to achieve such ecstatic experiences The book is clearly written for the general reader and includes many descriptions of trance experiences It may serve as a good introduction to the nature and appeal of the shamanic revival in modern Western cultures Theological Book Review A case study in experiential anthropology that offers a unique mix of autobiography mythology experiential research and archaeological data to support a challenging thesis that certain body postures may help induce specific trance states Shaman s Drum This is a spellbinding and exceptionally readable book by an extraordinary woman Yoga Journal *Magic in the Ancient Eastern Mediterranean* Nina Nikki, Kirsi M.J. Valkama, 2020-12-14 Magic in the Ancient Eastern Mediterranean Cognitive Historical and Material Perspectives brings together articles with the shared conviction that the category of magic remains useful in religious studies and provides new insights to biblical and related texts and artifacts Historically magic has been considered in both scholarly and popular discourse to be questionable obscure and potentially subversive 19th century scholars of religion viewed magical beliefs and practices as primitive and inferior compared to Judeo Christian forms of worship which were considered true religion More recently the category has been defended especially by scholars of the cognitive science of religion who find it useful for delineating a set of beliefs and practices fundamental to all forms of religion The volume joins current scholarship in refraining from using the concept as an othering device and in arguing that it can still serve as a helpful analytical tool In addition to analyzing the discourse on magic in both ancient literature and modern scholarship the articles provide individual examples of how literary and material culture attest to the existence of magical beliefs and practices in sources from the Ancient Near East to the Byzantine Period The book is divided into three parts The contributions in the first part approach magic from the theoretical perspective of cognitive studies ritual studies and cultural evolution while the rest of the book focuses on how magic and magicians are understood in ancient sources The second part

discusses a specific set of textual material dealing with blessings and curses The third part of the volume discusses the world of various destructive celestial beings from which one and one's loved ones had to be defended as well as the multitude of protective beings such as angels

Magic and Magicians in the Middle Ages and the Early Modern Time Albrecht Classen, 2017-10-23 There are no clear demarcation lines between magic astrology necromancy medicine and even sciences in the pre modern world Under the umbrella term magic the contributors to this volume examine a wide range of texts both literary and religious both medical and philosophical in which the topic is discussed from many different perspectives The fundamental concerns address issues such as how people perceived magic whether they accepted it and utilized it for their own purposes and what impact magic might have had on the mental structures of that time While some papers examine the specific appearance of magicians in literary texts others analyze the practical application of magic in medical contexts In addition this volume includes studies that deal with the rise of the witch craze in the late fifteenth century and then also investigate whether the Weberian notion of disenchantment pertaining to the modern world can be maintained Magic is oddly but significantly still around us and exerts its influence Focusing on magic in the medieval world thus helps us to shed light on human culture at large

Was ist Wahrheit anderes als ein Leben für eine Idee? Hermann Deuser, 2011 Existenzdenken und Pragmatismus bezeichnen zwei Orientierungszentren der Philosophie seit dem 19. Jahrhundert deren Differenz und Zusammenhang erst heute wirklich bewusst werden Die Vorrangigkeit der Aufgabe des Existierens eines einzelnen Menschen und das naturwissenschaftlich pragmatische Methodenbewusstsein haben ihre Gemeinsamkeit in der Entdeckung und Verteidigung der kreativen Lebensentscheidungs- und Handlungssituation allen Verstehens Hinzu kommt die parallel entwickelte Kritik idealistischer wie materialistischer Metaphysik der europäischen Denktradition allerdings in der unübersehbaren Tendenz einer Philosophie des Geistes die zu einer allgemeinen und insofern in neuem Sinn durchaus metaphysischen Begründung von Religionstheorie und Theologie in der Lage ist Charles S. Peirce's kategoriale Semiotik liefert die zeitgemäßen Denkbedingungen um sowohl der Eigenständigkeit der Religiosität wie ihrer wissenschaftlichen Darstellungsfähigkeit entsprechen zu können Die hier vorgelegten Aufsätze aus dreißig Jahren sind einerseits auf bestimmte Phasen der Kierkegaard-Rezeption bezogen andererseits auf Detailstudien zu systematisch theologischen und religionsphilosophischen Texten Werken Methodenfragen und auf Konfliktfelder in der gegenwärtigen Diskussion darunter William James' Religionsauffassung Paul Tillich's Symbolbegriff Kierkegaard's Christologie

The Scientification of Religion Kocku von Stuckrad,2014-05-21 The enigmatic relation between religion and science still presents a challenge to European societies and to ideas about what it means to be modern This book argues that European secularism rather than pushing back religious truth claims in fact has been religiously productive itself The institutional establishment of new disciplines in the nineteenth century such as religious studies anthropology psychology classical studies and the study of various religious traditions led to a professionalization of knowledge about religion that in turn attributed new meanings to religion This attribution of meaning resulted in the emergence of new religious identities and practices In a dynamic that is closely linked to this discursive change the natural sciences adopted religious and metaphysical claims and

integrated them in their framework of meaning resulting in a special form of scientific religiosity that has gained much influence in the twentieth century Applying methods that come from historical discourse analysis the book demonstrates that religious semantics have been reconfigured in the secular sciences Ultimately the scientification of religion perpetuated religious truth claims under conditions of secularism

The Necronomicon Revised Unknown,2019-09-17 A mysterious document that many people have taken an interest in within the last few decades Whether this book is real or fictional remains unclear since the first verifiable proofs of the book came from the fictional writing of H P Lovecraft The official position of the publisher is that the book is a work of fiction but many others may have different perspectives on the truth of this document If it is real it is a dangerous piece of literature that should be treated with due respect and fear Now in larger print

Decoding the Osirian Myth Panagiota Sarischouli,2024-09-23 The earliest written references to the Osirian myth complex appeared already in the Pyramid Text spells c 2400 2300 BCE The most complete exposition of this ancient Egyptian myth is however found in the Greek treatise On Isis and Osiris in which the 2nd century CE Platonist Plutarch

utilises Egyptian mythology to advocate his philosophical ideas concerning the divine and the nature of the cosmos This book aims at decoding Plutarch s narrative of the Osirian myth linking his claims to the existing Egyptian and Greek parallels It thus analyses a multitude of mythic and religious traditions from a transcultural perspective exploring the relation of the Pharaonic features of the Osirian divinities to the features they had acquired in Ptolemaic and Roman times interpreting the Egyptian myth within the overall framework of parallel mythologies from other cultures and examining whether the brief mythic stories *historiolae* recited in Late Egyptian ritual texts can be deployed to enrich the context of certain obscure episodes in Plutarch s account of the myth The book will be of great interest not only to scholars and students of Plutarch and later Middle Platonism but also to Egyptologists Due to its thematic variety and scope this publication will also appeal to a wider array of readers specialists and non specialists alike interested in religious syncretism interreligious connections and the challenge of multiculturalism from Hellenistic times until Late Antiquity
