Boys and Their Schooling John Whelen,2011-04-28 This book presents an ethnographic study of the experiences of teenage boys in an Australian high school It follows a group of thirteen to fifteen year olds over a period of more than two years and seeks to understand why so many boys say they hate school yet enjoy being with one another in their daily confrontations with the formal school The study acknowledges the ongoing significance of the boys debate to policy makers and the media and therefore to teachers and parents but moves it on from issues of gender construction and the panic about achievement to the broader question of what it is to experience being schooled as a boy in the new liberal educational environment Raising Cain Dan Kindlon, Ph.D.,Michael Thompson, PhD,2009-08-05 The stunning success of Reviving Ophelia Mary Pipher s landmark book showed a true and pressing need to address the emotional lives of girls Now finally here is the book that answers our equally timely and critical need to understand our boys In Raising Cain Dan Kindlon Ph D and Michael Thompson Ph D two of the country s leading child psychologists share what they have learned in more than thirty five years of combined experience working with boys and their families They reveal a nation of boys who are hurting sad afraid angry and silent Statistics point to an alarming number of young boys at high risk for suicide alcohol and drug abuse violence and loneliness Kindlon and Thompson set out to answer this basic crucial question What do boys need that they re not getting They illuminate the forces that threaten our boys teaching them to believe that cool equals macho strength and stoicism Cutting through outdated theories of mother blame boy biology and testosterone Kindlon and Thompson shed light on the destructive emotional training our boys receive the emotional miseducation of boys Through moving case studies and cutting edge research Raising Cain paints a portrait of boys systematically steered away from their emotional lives by adults and the peer culture of cruelty boys who receive little encouragement to develop qualities such as compassion sensitivity and warmth The good news is that this doesn t have to happen There is much we can do to prevent it Kindlon and Thompson make a compelling case that emotional literacy is the most valuable gift we can offer our sons urging parents to recognize the price boys pay when we hold them to an impossible standard of manhood They identify the social

and emotional challenges that boys encounter in school and show how parents can help boys cultivate emotional awareness and empathy giving them the vital connections and support they need to navigate the social pressures of youth Powerfully written and deeply felt *Raising Cain* will forever change the way we see our sons and will transform the way we help them to become happy and fulfilled young men **Ten Conversations You Must Have with Your Son** Tim Hawkes,2016-10-11 Internationally recognized expert on raising and educating boys Dr Tim Hawkes shows parents of tween and teen boys how to approach difficult but important conversations Every parent of a teenage boy knows there are certain conversations they must have with their son but often they put them off or worse don t have them at all because they simply don t know where to start In *Ten Conversations You Must Have With Your Son* Dr Hawkes provides parents with the essential information you need to negotiate your way through what can often be very difficult territory about the why what and how of ten key topics love identity values leadership achievement sex money health living together and resilience Each chapter offers suggestions for how you can connect with your sons on these issues while sharing your own experiences and knowledge with your boys A headmaster of 25 years Dr Hawkes is in a unique position to know what goes on inside the minds of teenage boys He understands what they need to know to best prepare them for the opportunities responsibilities challenges and demands that life will make on them *Ten Conversations You Must Have With Your Son* is the one book anyone with a teenage son should read to help them prepare him for adulthood **Smart Medicine for a Healthier Child** Janet Zand,Robert Rountree,Rachel Walton,2003-01-06 Revised updated and expanded to reflect the latest thinking and information on children s health issues *Smart Medicine for a Healthier Child* enables parents to combine the best of conventional and alternative approaches Part One explains the full spectrum of techniques that can be employed to effectively treat childhood health problems providing an overview of the history fundamentals and uses of conventional medicine herbal medicine homeopathy acupressure diet and nutritional supplementation Part Two contains a comprehensive A to Z guide to the various health problems of childhood from acne to chickenpox to thumb sucking Finally Part Three offers guidance on using the therapies and procedures suggested in Part Two from locating acupressure points to preparing herbal remedies Written by a naturopathic physician a medical doctor and a pediatric nurse this unique book gives parents easy access to current information and advice regarding their children s health and acts as a bridge between time honored healing systems and mainstream medicine Illustrated with line art **Triumph Over Darkness (Volume 2 of 2) (EasyRead Super Large 24pt Edition)** , **The Parenthood Decision** Beverly Engel, M.F.C.C.,2011-07-20 We are living in a time when baby showers are the most popular kind of party and when TV and movies abound with adorable babies and darling toddlers selling everything from soap to toilet paper In this baby friendly environment is it any wonder that more and more people are considering becoming parents Most people realize however that just wanting a baby doesn t mean you are physically mentally or emotionally prepared to have one Nor does the desire to have a baby necessarily mean you will be a good parent The
