Raising Black Children Questions And Answers For Parents And Teachers:

Raising Black Children James P. Comer, 1975 *Raising Black Children* James P. Comer, Alvin F. Poussaint, 1992-11-01

Two of America's most trusted and respected authorities on child care provide answers to nearly 1000 questions on the problem of raising African American children. Along with the traditional demands of parenthood, today's parents must grapple with such daunting issues as drugs, AIDS, violence, and educational pressures. But black parents face an even more challenging task: they must actively combat negative messages of racism while teaching their children to succeed in a white-dominated culture. In this thorough guide to parenting, two noted child psychiatrists, both African American, focus on the special concerns of black parents. They offer comprehensive advice on nearly 1,000 common childrearing questions, paying particular attention to such problems as building self-esteem and helping black children cope with the often unconscious racism and microaggressions of white society. Authoritative and comprehensive, *Raising Black Children* is an indispensable resource for every African American family and for teachers of all races who seek to gain sensitivity to the needs of their black pupils. A necessary addition to all parenting and parent-teacher collections. Linda Cullum, *Library Journal*

Understanding Diverse Families Barbara F. Okun, 1998-07-17 Today's mental health practitioners face a rapidly changing clientele. Divorce, remarriage, multiracial marriages, different types of adoption, openly gay and lesbian relationships—all have significantly altered the nature and composition of families. An indispensable classroom text and an important resource for clinicians working in private practice, managed care, and other settings, this book insightfully examines a range of healthy families with creative family structures. **Parents' Cultural Belief Systems** Sara Harkness, Charles M. Super, 1996-01-01 This illuminating new volume offers a multifaceted view of parenting cultural belief systems, their origins in culturally constructed parental experience, their expressions in parental practices, and their consequences for children's well-being and growth. Discussing issues with implications beyond the study of parenthood, the book shows how the analysis of child outcomes, which relate to parents' cultural belief systems or parental ethnotheories, can provide valuable insights into the nature and meaning of family and self in society and, in some cases, a basis for culturally sensitive therapeutic interventions. Illuminating the powerful influence of parents' cultural belief systems on the health and development of children, this volume will be welcomed by a broad audience. Anthropologists and psychologists interested in cultural theory and the interface of self and society will find a rich source of ideas and information. Parent educators, family therapists, pediatricians, and others who deal with ethnically diverse populations will discover invaluable information on what makes parents think and act the way they do. The book can be used as a primary text for courses in cognitive anthropology and cultural psychology and as an auxiliary text for culturally oriented courses in lifespan development, education, health, and human services. **Home, School, and Community Collaboration** Kathy B. Grant, Julie A. Ray, 2010 Using the culturally responsive family support model, this text prepares teachers to work effectively with the diverse families of their students. Filled with practical

suggestions and reflective opportunities Home School and Community Collaboration uses the culturally responsive family support model to prepare readers to work with children from diverse families This text includes contributions from 24 experts in the field in addressing the issues in family involvement that today s teachers are likely to encounter Key Features Covers family systems theory family involvement models and the family support approach Includes a wide range of practical strategies for use in today s schools as well as activities that help readers make connections between the course content and their own experiences Features case studies and vignettes that provide opportunities for reflection and help readers apply text information to real life settings Accompanied by Outstanding Ancillaries Instructor Resources on CD offer valuable resources for qualified adopters such as sample syllabi teaching tips PowerPoint presentations and a comprehensive test bank Contact Customer Care at 1 800 818 SAGE from 6 AM 5 PM PT to request a copy A Student study site offers practice tests flashcards web resources and SAGE journal articles on topics covered in the text

Raising Race Questions Ali Michael, 2015 Conversations about race can be confusing contentious and frightening particularly for White people Even just asking questions about race can be scary because we are afraid of what our questions might reveal about our ignorance or bias Raising Race Questions invites teachers to use inquiry as a way to develop sustained engagement with challenging racial questions and to do so in community so that they learn how common their questions actually are It lays out both a process for getting to questions that lead to growth and change as well as a vision for where engagement with race questions might lead Race questions are not meant to lead us into a quagmire of guilt discomfort or isolation Sustained race inquiry is meant to lead to anti racist classrooms positive racial identities and a restoration of the wholeness of spirit and community that racism undermines Book Features Case studies of expert and experienced White teachers who still have questions about race Approaches for talking about race in the K 12 classroom Strategies for facilitating race conversations among adults A variety of different resources useful in the teacher inquiry groups described in the book Research with teachers not on teachers including written responses from each teacher whose classroom is featured in the book In Raising Race Questions Ali Michael is an excavator determined to dig into every unexplored crevice of White teachers experiences with race in order to unearth the complex realities of racism and schooling and a model of reflective inquiry willing to lay herself and her assumptions bare in service to the reader s consciousness and her own This book grew my consciousness in multiple ways and that is the greatest gift an author can give me Paul Gorski founder EdChange associate professor George Mason University Ali Michael has a gift for getting people talking This must read book captures her magic and shares useful strategies for teachers and schools working to develop their racial proficiency As a White teacher engaged in this work I ve watched these tools help educators support one another as they make mistakes reflect and grow together Lynn Eckerman Teacher Independence Charter School Philadelphia PA

Sharing Care Robert Ziegler, Andrew Bush, 2013-05-13 A clinician faces a multitude of considerations when assessing a child patient Foremost among these is that caring for the child

entails caring for the family members involved with that child The therapist must balance the competing needs and feelings of the child parents and family as a whole By forming an alliance with all members of the family the therapist is in a position to strengthen and enhance the ties between child parents and family during all phases of assessment and treatment leading to a more effective therapeutic intervention Paving the Way for Children s Success offers a model that will help clinicians achieve this alliance The model presented in this book focuses on ways to integrate child assessment and treatment with that of their parents and families level of function It uses the authors unique concept of the Zones of Care to help clinicians assess this level of function In turn each of the four zones leads to a specific approach to treatment The authors present how these treatment approaches to current internalizing and externalizing disorders in children and adolescents allow clinicians to integrate a wide variety of techniques to address most DSM IV categories Their approach stresses both symptom reduction and the cultivation of coping skills It also integrates fiscal issues of treatment into the development of the alliance with the parents in resolving the presenting problem Dr Ziegler and Dr Bush present the reader with practical workable strategies for laying down strong diagnostic foundations for successful treatment making Paving the Way for Children s Success a valuable resource for any clinician working with children and adolescents [The New York Public Library African American Desk Reference](#) New York Public Library,1999-09-30

Family Systems Within Educational Contexts Rosemary Lambie, 2000 Parenting Young Children Paris S. Strom, Robert D. Strom, 2010-01-01

Parents feel that a fast paced lifestyle requires constant hurry to complete the next task and causes them to lose control over how time is spent. This environment makes it more difficult to build relationships with their children and teach them to honor priorities, care about others, maintain health, manage conflicts, and achieve balance. Our cross cultural studies of families have found that the most important gift parents can give their children is spending time together. Being together without multitasking or other interruptions increases sharing in depth conversations, learning, and closeness. This book shows how to prepare children for school by providing the following experiences: Parents have a new obligation introducing their children to the Internet; Parent and child Internet visits are presented for each chapter with guidelines for teaching online; Information about child development stages are provided for parents on additional Web sites. You can link to these Web sites at Information Age Publishing <http://www.infoagepub.com/strom/young-children>. Parents and children spend more time watching television together than doing other things. Conversation questions are provided as a tool that parents can use to find out how children interpret events they see and detect learning needs. Children will more likely become creative adults if they receive support for imagination and curiosity. Examples illustrate the merits of playing alone, playing with friends, and pretending with parents. Boys and girls like bedtime stories and are motivated to read when they see parents read for pleasure. Children's books that are recommended for discussion reinforce values parents hope to convey. Parents are responsible for teaching foundation lessons about socialization. Methods are described to foster development of child self control, getting along with others, managing fears, and setting goals. Parents benefit from feedback on how well their goals and practices reflect principles of child development. A parent self evaluation form includes questions and answers to identify personal strengths and learning needs. This book is for parents, grandparents, and other educators of young children, ages 3 to 8.

The Effect of Children on Parents Anne Marie Ambert, 2014-05-22

Recognize the hidden costs and rewards of childrearing. *The Effect of Children on Parents* Second Edition thoughtfully explores the interactions by which parents and children change, develop, and sometimes affect each other negatively. Everyone knows that parents influence their children, but few people consider the ways in which children affect their parents. The love, satisfaction, and fulfillment children offer can change parents' lives. So can the stress, worry, and financial drain. *The Effect of Children on Parents* Second Edition honestly confronts these long neglected issues of family dynamics. Taking a unique interdisciplinary approach, this book describes in great detail, with jargon free language, the various aspects of children's effects on their parents. This second edition contains an abundance of fresh information, including nine entirely new chapters that deal with such complex topics as the effects on parents of children with emotional, behavioral, and delinquency problems. *The Effect of Children on Parents* Second Edition asks and answers essential questions on the parent-child dynamic, including: what role does genetic inheritance play in children's responses to their parents; how do peers influence children and through them their parents;

what happens to parents when children are difficult or have emotional problems what special considerations apply to minority or adoptive parents how do adult children affect their aging parents how does society support or undermine parents what roadblocks prevent parents from being as effective as they would like to be The Effect of Children on Parents Second Edition takes a brave look at this often ignored area of family dynamics giving a richer more complex and ultimately more healing view of how humans interact in families Professors students and experts in the fields of child development family studies and sociology of childhood and family will find this book a sophisticated tool in their desire to better understand and help families and children
