Handbook of Education Policy Research Gary Sykes, Barbara Schneider, David N. Plank, 2012-09-10 Co published by Routledge for the American Educational Research Association AERA Educational policy continues to be of major concern Policy debates about economic growth and national competitiveness for example commonly focus on the importance of human capital and a highly educated workforce Defining the theoretical boundaries and methodological approaches of education policy research are the two primary themes of this comprehensive AERA sponsored Handbook Organized into seven sections the Handbook focuses on 1 disciplinary foundations of educational policy 2 methodological perspectives 3 the policy process 4 resources management and organization 5 teaching and learning policy 6 actors and institutions and 7

education access and differentiation Drawing from multiple disciplines the Handbook s over one hundred authors address three central questions What policy issues and questions have oriented current policy research What research strategies and methods have proven most fruitful And what issues questions and methods will drive future policy research Topics such as early childhood education school choice access to higher education teacher accountability and testing and measurement cut across the 63 chapters in the volume The politics surrounding these and other issues are objectively analyzed by authors and commentators Each of the seven sections concludes with two commentaries by leading scholars in the field The first considers the current state of policy design and the second addresses the current state of policy research This book is appropriate for scholars and graduate students working in the field of education policy and for the growing number of academic government and think tank researchers engaged in policy research For more information on the American Educational Research Association please visit <http://www.aera.net>

Cutting Costs and Generating Revenues in Education
Tim L. Adsit, George R. Murdock, 2011 At no time in the history of public education has there been such a dramatic discrepancy between accelerated standards and expectations and adequate funding for our schools Much has been written about how to achieve new expectations in the realm of student achievement Much has also been written about the need for accountability and the restructuring of how education dollars are spent Unfortunately most of the input regarding the need for belt tightening is unaccompanied by any tangible solutions or suggestions and results only in hollow rhetoric or convenient political sound bytes Tim Adsit and George Murdock s journey into meaningful avenues for cost savings in public education is clearly an exception In this book readers will find many practical ideas for saving money which can be readily implemented

Selected Papers in School Finance, 2000 *Making Money Matter* National Research Council, Division of Behavioral and Social Sciences and Education, Board on Behavioral, Cognitive, and Sensory Sciences, Committee on Education Finance, 1999-12-30 The United States annually spends over 300 billion on public elementary and secondary education As the nation enters the 21st century it faces a major challenge how best to tie this financial investment to the goal of high levels of achievement for all students In addition policymakers want assurance that education dollars are being raised and used in the most efficient and effective possible ways The book covers such topics as Legal and legislative efforts to reduce spending and achievement gaps The shift from equity to adequacy as a new standard for determining fairness in education spending The debate and the evidence over the productivity of American schools Strategies for using school finance in support of broader reforms aimed at raising student achievement This book contains a comprehensive review of the theory and practice of financing public schools by federal state and local governments in the United States It distills the best available knowledge about the fairness and productivity of expenditures on education and assesses options for changing the finance system
