Raising Standards State Policies To Improve Academic Preparation For College

Edward P. St. John

Raising Standards State Policies To Improve Academic Preparation For College:

Raising Standards Patricia A. Flanagan,1999-03 Examines state higher education policies that influence student preparation for college Three policy areas are the focus of this state by state analysis raising admissions requirements for public four year colleges providing regular feedback on student preparation to high schools and establishing statewide merit aid programs Raising Standards ,1992 Key High School Reform Strategies Mary G. Visser,David Emanuel,Peter Teitelbaum,1999 *Resources in Education* ,2001-04 **Pathways to Academic Success in Higher Education** Edward P. St. John,Glenda Droogsma Musoba,2010-07-02 Pathways to Academic Success in Higher Education examines two major challenges facing the nation preparing high school students for college and creating new pathways to academic success for underrepresented students in higher education **Recent Department of Education Publications in ERIC** United States. Department of Education,1994 *Recent Department of Education Publications in ERIC* United States. Dept. of Education,1994 **Vocational Education in the United States** ,2000 **Higher Education: Handbook of Theory and Research** John C. Smart,Michael B. Paulsen,2011-03-24 Published annually since 1985 the Handbook series provides a compendium of thorough and integrative literature reviews on a diverse array of topics of interest to the higher education scholarly and policy communities Each chapter provides a comprehensive review of research findings on a selected topic critiques the research literature in terms of its conceptual and methodological rigor and sets forth an agenda for future research intended to advance knowledge on the chosen topic The Handbook focuses on twelve general areas that encompass the salient dimensions of scholarly and policy inquiries undertaken in the international higher education community The series is fortunate to have attracted annual contributions from distinguished scholars throughout the world Fairness in Access to Higher Education in a Global Perspective Heinz-Dieter Meyer,Edward P. St. John,Maia Chankseliani,Lina Uribe,2013-04-20 The purpose of this volume is to help jump start an urgently needed conversation about fairness and justice in access to higher education to counteract the ubiquitous mantras of neoliberal globalization and managerialism The book seeks to carve out a strong moral and normative basis for opposing mainstream developments that engender increasing inequality and market dependency in higher education The book s chapters consider how different national communities channel access to higher education what their implicit social contracts are and what outcomes are produced by different policies and methods The book is essential reading for scholars of higher education and students concerned with increasing inequality in a globalizing educational marketplace **Community Update** ,1993 *Trends in High School Vocational/technical Coursetaking* Karen Levesque,2003 *Education and the Public Interest* Edward P. St. John,2007-05-28 Economic globalization has been accompanied by implementation of education reforms linked to accountability and public finance schemes that emphasize student choice in schools and student loans in higher education In the U S these reforms are rationalized based on intermediate variables like the number of math credits completed in high

school and net prices However the reforms rationalized based on this research are seldom evaluated in relation to outcomes i.e. measures of student achievement and equal opportunity to attain an education In Education and the Public Interest the editor re-examines the political rationales for these reforms John Rawls's theory of justice is reconstructed to develop a framework for assessing the effects of public policy on these outcomes This volume undertakes a comparative study of the states in the U.S. to examine how education reforms influence student achievement high school graduation and college access and finance schemes influence college access Policies implemented by states in the 1990s were associated with improved achievement as measured by test scores for high school students These policies also correlate with increased high school drop out rates and the widening gap in college enrolment rates across income groups This volume considers how privatization and accountability policies can be reconstructed to reduce inequality while continuing to improve student achievement and college enrolment I enjoyed reading the book and benefited from it and I feel confident others will as well I am particularly taken by its sweep and by the skill and persuasiveness with which the author ties together the broad trends and themes of privatization globalization school reform preparation equity equality and college access Prof James C Hearn Vanderbilt University USA What I especially like about this book is the framing of the importance of the topic in terms of the global political and economic changes and the notion of access to quality education as a basic right Prof Laura W Perna College of Education University of Maryland USA

Higher Education and School Reform P. Michael Timpane, 1998-05-29 Higher Education and School Reform helps define what schools and higher education need from each other and explores new models for coordinated education policy It analyzes key aspects of higher education school interactions teacher education partnerships for learning college preparatory curricula admissions practices and faculty research endeavors to uncover the factors that stand in the way of more effective collaboration Examining the critical relationship between higher education institutions and K 12 schools especially higher education's role in implementing systemic school reform the contributors explore new models for a more productive working relationship

Breaking Through the Access Barrier Edward P. St. John, Shouping Hu, Amy S. Fisher, 2010-10-18 This book argues that the policies designed to address inequalities in college access are failing to address underlying issues of inequality Breaking Through the Access Barrier introduces a groundbreaking new theory academic capital formation ACF to promote improvement in academic preparation college information and student aid

Public Funding of Higher Education Edward P. St. John, Michael D. Parsons, 2005-09-23 Much of the twentieth century saw broad political support for public funding of American higher education Liberals supported public investment because it encouraged social equity conservatives because it promoted economic development Recently however the politics of higher education have become more contentious Conservatives advocate deep cuts in public financing liberals want to expand enrollment and increase diversity Some public universities have embraced privatization while federal aid for students increasingly emphasizes middle class affordability over universal access In Public Funding of Higher Education scholars and practitioners address the complexities of this new climate and its impact on policy and political advocacy at the federal state and institutional levels Rethinking traditional rationales for public financing contributors to this volume offer alternatives for policymakers administrators faculty students and researchers struggling with this difficult practical dynamic Contributors M Christopher Brown II Pennsylvania State University Jason L Butler University of Illinois Choong Geun Ching Indiana University Clifton F Conrad University of Wisconsin Madison Saran Donahoo University of Illinois James Farmer JA SIG uPortal James C Hearn Vanderbilt University Janet M Holdsworth University of Minnesota Don Hossler Indiana University John R Thelin University of Kentucky Mary Louise Trammell University of Arizona David J Weerts
