Hand-book of Raleigh, N.C. , 1908 , **Handbook of the Linguistic Atlas of the Middle and South Atlantic States** William A. Kretzschmar, William A. Kretzschmar Jr., 1993-09-15 Who uses skeeter hawk snake doctor and dragonfly to refer to the same insect Who says gum band instead of rubber band The answers can be found in the Linguistic Atlas of the Middle and South Atlantic States LAMSAS the largest single survey of regional and social differences in spoken American English It covers the region from New York state to northern Florida and from the coastline to the borders of Ohio and Kentucky Through interviews with nearly twelve hundred people conducted during the 1930s and 1940s the LAMSAS mapped regional variations in vocabulary grammar and pronunciation at a time when population movements were more limited than they are today thus providing a unique look at the correspondence of language and settlement patterns This handbook is an essential guide to the LAMSAS project laying out its history and describing its scope and methodology In addition the handbook reveals biographical information about the informants and social histories of the communities in which they lived including primary settlement areas of the original colonies Dialectologists will rely on it for understanding the LAMSAS and historians will find it valuable for its original historical research Since much of the LAMSAS questionnaire concerns rural terms the data collected from the interviews can pinpoint such language differences as those between areas of plantation and small farm agriculture For example LAMSAS reveals that two waves of settlement through the Appalachians created two distinct speech types Settlers coming into Georgia and other parts of the Upper South through the Shenandoah Valley and on to the western side of the mountain range had a Pennsylvania influenced dialect and were typically small farmers Those who settled the Deep South in the rich lowlands and plateaus tended to be plantation farmers from Virginia and the Carolinas who retained the vocabulary and speech patterns of coastal areas With these revealing

findings the LAMSAS represents a benchmark study of the English language and this handbook is an indispensable guide to its riches

A Delicious Country Scott Huler, 2019-02-05 In 1700 a young man named John Lawson left London and landed in Charleston South Carolina hoping to make a name for himself For reasons unknown he soon undertook a two month journey through the still mysterious Carolina backcountry His travels yielded *A New Voyage to Carolina* in 1709 one of the most significant early American travel narratives rich with observations about the region's environment and Indigenous people Lawson later helped found North Carolina's first two cities Bath and New Bern became the colonial surveyor general contributed specimens to what is now the British Museum and was killed as the first casualty of the Tuscarora War Yet despite his great contributions and remarkable history Lawson is little remembered even in the Carolinas he documented In 2014 Scott Huler made a surprising decision to leave home and family for his own journey by foot and canoe faithfully retracing Lawson's route through the Carolinas This is the chronicle of that unlikely voyage revealing what it's like to rediscover your own home Combining a traveler's curiosity a naturalist's keen observation and a writer's wit Huler draws our attention to people and places we might pass regularly but never really see What he finds are surprising parallels between Lawson's time and our own with the locals and their world poised along a knife edge of change between a past they can't forget and a future they can't quite envision
