Ramlin Rose Sheila Stewart,2023 *Ramlin Rose* Sheila Stewart,1994 From the turn of the century to the late 1950s horse drawn narrow boats were a familiar sight on Britain s canals Carrying a wide variety of cargoes to such destinations as the Potteries the textile mills of Lancashire the papermills of London the colleges of Oxford they struggled on against increasing competition from rail and road traffic to maintain their place in the country s economy Yet little has been recorded about the lives of the canal families and in particular the women **Water Ways** Jasper Winn,2018-06-07 For a hundred and fifty years between the plod of packhorse trains and the arrival of the railways canals were the high tech water machine driving the industrial revolution Amazing feats of engineering they carried the rural into the city and the urban into the countryside and changed the lives of everyone And then just when their purpose was extinguished by modern transport they were saved from extinction and repurposed as a slow highways network a peaceful and countrywide haven from our too busy age Today there are more boats on the canals than in their Victorian heyday Writer and slow adventurer Jasper Winn spent a year exploring Britain s waterways on foot and by bike in a kayak and on narrowboats Along a thousand miles of wet roads and water streets he discovered a world of wildlife corridors underground adventures the hardware of heritage and history new boating communities endurance kayak races and remote towpaths He shared journeys with some of the last working boat people and met the anglers walkers boaters activists volunteers and eccentrics who have made the waterways their home In Britain most of us live within five miles of a canal and reading this book we will see them in an entirely new light
